FROM HEAD OF DEPARTMENT CORNER

DR. M. R. SANGHAVI

It gives me great satisfaction to welcome you all on behalf of the entire Computer engineering department.

Happy to share the release of **Computer Buzz**, Vol-4 Issue-1. Dedication, Devotion and Determination are keys to success in any endeavor. With the due respect Department of Computer Engineering believe in the philosophy of “Learning by Doing”.

It is heartening to see the transformational programs of our government such as Digital India, Skill India, Stand-Up India. In the same context our department has adopted the practical solutions based on ‘**Digital Theme**’.

Department aims to ‘**Go Green**’ by using digital technology and making the system paperless ultimately saving the environment. The department encompasses a fine blend of renowned as well as young and dynamic faculties who promote the theme using the digital medium ; the **blog** for sharing their teaching and other technological information making it global ; **Google Classroom** for interacting with the students to upload their assignments/classwork which students can access any time, any where ; **Google Forms** to conduct mock tests for Online Examinations.

Apart from academic activities, encouragement to appear for extra as well as co-curricular activities and many other academic excellences certainly pave a red carpet welcome to the hard working students in the department. **Parent Teacher Meet, Salesforce Training, Internship Program** & multiple programs under banner of **CSI & SPACE** are highlights of this semester.

The Alumni of the Institute have done exceedingly well in all walks of life at both national and international levels, brought name and fame for themselves as well as to their parent institute. The Institute takes pride in their success.

Our students have achieved the pinnacle of success by getting placed in Top MNCs like **Infosys, Wipro, TCS, Eternus, Mohasis** & many more...

In [botany](#), a **tree** is a [perennial plant](#) with an elongated [stem](#), or [trunk](#), supporting branches and leaves in most species. In some usages, the definition of a tree may be narrower, including only woody plants with [secondary growth](#), plants that are usable as [lumber](#) or plants above a specified height. In wider definitions, the taller [palms](#), [tree ferns](#), [bananas](#), and [bamboos](#) are also trees. Trees are not a [taxonomic group](#) but include a variety of plant species that [have independently evolved](#) a trunk and branches as a way to tower above other plants to compete for sunlight. Trees tend to be long-lived, some reaching several thousand years old. Trees have been in existence for 370 million years. It is estimated that there are some three trillion mature trees in the world.^[1]

A tree typically has many secondary branches supported clear of the ground by the trunk. This trunk typically contains [woody tissue](#) for strength, and [vascular tissue](#) to carry materials from one part of the tree to another. For most trees it is surrounded by a layer of [bark](#) which serves as a protective barrier. Below the ground, the [roots](#) branch and spread out widely; they serve to anchor the tree and extract moisture and nutrients from the soil. Above ground, the branches divide into smaller branches and shoots. The shoots typically bear leaves, which capture light energy and convert it into sugars by [photosynthesis](#), providing the food for the tree's growth and development.

Trees usually reproduce using seeds. Flowers and fruit may be present, but some trees, such as conifers, instead have pollen cones and seed cones. Palms, bananas, and bamboos also produce seeds, but tree ferns produce [spores](#) instead.

Trees play a significant role in reducing [erosion](#) and moderating the [climate](#). They remove [carbon dioxide](#) from the [atmosphere](#) and store large quantities of [carbon](#) in their tissues. Trees and forests provide a habitat for many species of animals and plants. [Tropical rainforests](#) are among the most [biodiverse](#) habitats in the world. Trees provide [shade and shelter](#), timber for construction, fuel for cooking and heating, and fruit for food as well as having many other uses. In parts of the world, forests are shrinking as trees are cleared to increase the amount of land available for agriculture. Because of their longevity and usefulness, trees have always been revered, with [sacred groves](#) in various cultures, and they play a role in many of the world's [mythologies](#).

राक्षसांना न्याय मागण्याचा हक्क कशाळा ?

हैदराबाद पोलिसांनी बलात्कार करणाऱ्या नराधमाला यमसदनी पाठविले. त्यावर बरीच चर्चा झाली. पण न्यायालय हे माणसांसाठी असते. राक्षसांना न्याय मागण्याचा हक्क कशाळा, असा प्रश्न तयार होतो.

कडक कायद्यासोबत हवी संस्काराची जोड

महिलांवरील वाढते अत्याचार, हल्ले या सर्व प्रकरणांच्या मुळाशी विकृत विचारसरणी दिसते. त्यावर उपाय म्हणून कायद्याची कडक अंमलबजावणी हवी अन् नैतिकतेचे धडे घरातून मिळायला हवेत. संस्काराचीही पेरणी व्हायला हवी.

ज्वलनशील पदार्थ बाटलीत नकोत

प्रत्येक पुरुषाने स्त्रीचा सन्मान करायला हवा. अडचणीच्या वेळी बघ्याची भूमिका न घेता स्त्रीला सहकार्य केले पाहिजे. सरकारनेही पेट्रोल आणि अॅसिड याबद्दल अंमलबजावणी करावी. कायदा सांगतो, की बाटलीत पेट्रोल देऊ नका, मग अंमलबजावणी का होत नाही ?

कठोर शिक्षेतून श्रद्धांजली

पीडित तरुणीला सरकारने न्याय दिला पाहिजे. आरोपीला कठोर शिक्षा देण्यातून तिला खऱ्या अर्थाने श्रद्धांजली मिळेल. तसेच महिलांवरील वाढते अत्याचार अजून किती सहन करायचे ?
