

SNJB's LATE SAU. K. B. JAIN
COLLEGE OF ENGINEERING, CHANDWAD.

Strategic Plan
(2018-19 to 2022-23)

Goal	Strategy
Enhance the Quality of Technical Education	1. Develop and implement innovative teaching methodologies and curriculum enhancements that foster creativity and professionalism.
	2. Establish and maintain partnerships with industry leaders and experts to ensure up-to-date technical knowledge is integrated into the education system.
	3. Continuously assess and improve the quality of teaching, resources, and facilities to meet the highest educational standards.
Technology Transfer for Rural Development	1. Identify key technological needs and opportunities in rural areas.
	2. Develop programs and initiatives for the transfer of suitable technology to rural communities.
	3. Collaborate with government agencies, non-profit organizations, and local communities to facilitate technology adoption and sustainable development in rural areas.
Diversify Career Opportunities.	1. Create a career development center that provides students with resources, counseling, and training to explore diverse career paths.
	2. Establish partnerships with industries, startups, and organizations to facilitate internships, co-op programs, and job placements for students.
	3. Promote entrepreneurship and innovation among students, encouraging them to become job creators and contribute to the nation's economic growth.

Bridge the Gap Between Industry and Academics.	1. Develop industry-academia collaboration programs that facilitate knowledge exchange, research partnerships, and joint projects.
	2. Encourage faculty members to engage in industry-related research and consultancy.
	3. Establish an industry advisory board to provide guidance on curriculum relevance and industry trends.
Promote Values and Societal Welfare.	1. Implement community engagement programs that encourage students and faculty to actively participate in social and community service.
	2. Foster a culture of ethical behavior, empathy, and social responsibility among students.
	3. Recognize and reward initiatives that contribute to the welfare of society, both within and outside the institution.
Continuous Improvement and Assessment.	1. Implement a robust system for monitoring and evaluating progress towards achieving the above goals.
	2. Collect and analyze data on student outcomes, program effectiveness, and community impact.
	3. Use assessment results to make data-driven decisions and refine strategies as needed.
