

SNJB's Late Sau KBJ, College of Engineering, Chandwad
Academic Year 2023-24
Institute Distinctiveness

Thrust Area: Vision of encouraging students for the welfare of society

SNJB follows gurukul culture where students are not just learners but part of a collaborative learning community, where they engage in personalized mentorship, experiential learning, and character development. Institute Introduces sessions on ethics, sustainability, and the philosophy of technology, ensuring students use engineering for societal good also incorporates courses in curriculum for mindfulness practices like yoga and meditation to enhance focus, reduce stress, and promote overall well-being.

Students actively address pressing societal issues in their local communities by integrating them into their project work, fostering real-world impact and innovation within their academic endeavors. The Institute is located in a rural area with a blend of urban and tribal areas. Most of the students and stakeholders represent these underprivileged domains. The problems of nearby society and these domains are taken up by the students as a project. It provides the solution to society and hence embarks on a good societal impact. Also, it creates the opportunity to leave footprints for IPR generation in terms of patents, research publications, copyrights etc. In addition, it gives global exposure to the Institute as well as stakeholders.

Institute has a fascinating infrastructure and well-furnished and well-equipped laboratories available for students 24X7. A technologically full-fledged auditorium, spacious classrooms, and a well-developed central library with thousands of volumes constitute the profound features of the college. Every department has a separate departmental library. Health point of View, Green Gym is available on a college campus. The institute has a deep empathy and concern for quality education and infrastructure. It has taken meaningful initiatives for the students' benefit by providing a conducive environment for productive and inspiring learning experiences.

As a result, today institute has become one of the promising engineering institutions in the vicinity, carrying a rich legacy of more than 19 years under the aegis of Shree Neminath Jain Brahmcharyashram (SNJB), which is celebrating 95 years and has become synonymous with quality technical Education. SNJB's Late Sau. K.B.J. College of Engineering students are known to exhibit unwavering commitment toward their responsibilities upon graduating,

owing to the Institution's emphasis on holistic development. They are intellectually competent and possess moral uprightness, spiritual inspiration, and social commitment.
