

1.3 Curriculum Enrichment

1.3.1 (QIM) Institution integrates cross cutting issues relevant to gender, environment and sustainability, human values, health determinants, right to health & emerging demographic issues and professional ethics in to the Curriculum prescribed by the university

Our institute SMT K B Abad Homoeopathic Medical college is an unit of Shri Neminath Jain Bramhacharyashrm, a "GURUKUL" which established in 1928 which believes in complete development of the each and every student of the institute. Every member of the institute continuously involved to achieve the same goal. Complete development involves not only the excellence in the Academics but it also includes development of moral values, sense of responsibilities and ethics in the mind of every student.

So with this aim our institute implements various activities throughout the year for betterment of the students and societies. Now a day most important issues in the society are related to gender, environment & sustainability, human values And professional ethics. To nurture our student with respect to all these issues we implement following activities.

- **GENDER** – It includes fairness of treatment in terms of right, benefits, obligation and opportunities. VISHAKHA COMMITTEE implemented to resolve the matter related to the females. Equal opportunities are given to every member of institute to participate in various activities like spandan, ashwamedh, college events etc. irrespective of gender. Campaign related to female feticide, dowry death etc are propagated through students in the society.
- **ENVIRONMENT AND SUSTAINABILITY** – We must consider about the ill effects of Environment degradation in our lives. We must consider the economic cost of environmental degradation. **Sustainable development** is the organizing principle for meeting human development goals while at the same time sustaining the ability of natural systems to provide the natural resources and ecosystem services upon which the economy and society depend. The economic benefits of Sustainable Development must be understood by the student. So we conduct various programs to fulfill the above need e.g. Tree plantation, Vanmohastav, Tree plantation, Swachhata abhiyan, Swachhata hi seva, pani bachav etc activities. Our institute was honored with first prize in swachhata sarvekshan competition.
- **Human values** – **Human values** are the virtues that guide us to take into account the **human** element when we interact with other **human** beings in the manner especially respect, acceptance, consideration, appreciation, listening, openness, affection, empathy and love towards other **human** beings. Considering the above criteria our institute conducts the following events.
e.g. – personality development course like The power of healing, Discover yourself, Inspirational speech on life of Dr. Abdul Kalam Azad, Yoga activity, meditation programs etc so that they should understand the human values and should able to respect themselves as well to others.
- **Health determinant** – the range of the behavioral, biological, source of economic and environmental factors that influence the health state of individual & population. To fulfill the above points we conduct diabetic camp, swine flu rally, T B rally, M R rally etc student participates in all these programs. They are trained for such activities so that they can train to the society.

➤ **Right to health** – The enjoyment of the highest attainable standard of health is one of the fundamental rights of every human being without distinction of race, religion, political belief, economic or social condition". Health facilities should be good and accessible to all. There should not be any discrimination to avail these facilities. Our institute provides best health facilities to our student like pure water supply, good ventilated classrooms, restroom, recreation room, yoga training, personality development course, boys hostel and girls hostel with good quality food and medical services at free of cost, etc. For the community our institute organizes different health checkup camps, health surveys, gynecology camps at villages in periphery. During epidemics we provide preventive homeopathic medicines at free of cost to the community.

➤ **Emerging demographic issues** –The basic emerging issues are poverty, gender inequity, malnutrition, food and water related issues and other social and cultural problems. Education and health care are also challenging issues. Our institute conducts different programs to overcome these problems at some extent. Our institute implement different scholarship schemes of government and non government organization for needy students e.g. Savitribai Phule scholarship, Dhanvantari Vidyadhan yojana etc.

During epidemics we provide preventive homeopathic medicines free of cost & free medical facility to students as well to the community. Our institute conducts different programs like "beti bachavo" andolan, street plays against female feticide etc to educate community regarding issues like gender inequity.

Our institute planted solar plant to generate electricity from natural resources which help to minimize the use of electricity from other resources. Student participates in programs like "Save water" and also develops habits to save the water etc.

➤ **Professional ethics** - Professional ethics and etiquettes are inculcated in every student whenever it is required by all faculty members during their academic activity.

The subject Forensic Medicine and Toxicology includes forensic jurisprudence which deals with law in relation to medical practitioner through which students acquires the knowledge of professional ethics and etiquette. The homoeopathic practitioner's professional conduct, Etiquette and ethics regulations are taught to the student during their academics. They observe these practices during their clinical postings in hospital and are adviced. are given oath to implement all these practices as their habits. giving the Oath the students during their farewell ceremony so that they should respect their noble profession and follow all the Etiquette and ethics in their practice in future life.
