

## 2.3 Teaching – Learning Process

### 2.3.1 QIM Student- centric methods are used for enhancing learning experiences by – (500 Words)

#### 1) Experiential learning-

Experiential learning is the process of learning through experience, and is more specifically defined as "learning through reflection on doing."

An experiential learning activity must include exploration, sharing, processing, generalizing, and application. This requires the student to perform an activity or task, share the results and observations, discuss and then reflect on the process, connecting it with real world examples and applying it to another situation. These steps help demonstrate to the student that while the traditional content is important, a major factor is the learning process, which is at the center of experiential learning.

examples

- Clinical time- table
- Procedures done by super specialists
- CD
- Students clinical difficulty etc.

#### 2) Integrated interdisciplinary learning

- Integrated learning programs operate on the premise that, in the real world, adults are required to perform tasks and demonstrate skills that are not defined in a single academic discipline. We naturally look for connections between ideas and often learn best when we identify such connections.

Some students of our college are learning pharmacology by attending private classes. For this we are providing nearby available sources.

- Interdisciplinary learning-

Examples

- PG-research methodology seminar where student from different medical courses get together.

#### 3) Participatory learning-

participatory learning and Action is a family of approach, methods, attitude, behaviors and relationships, which enable and empower people to share and analyses and enhance their knowledge of their life and conditions and to monitor, evaluate and reflects

examples-

- seminar attended by students inside or outside the institute
- Attending NSS: SPANDAN, ASHWAMEDH, Debate competition etc.

#### 4) Self-directed learning (SDL)

is an instructional strategy where the students, with guidance from the teacher, decide what and how they will learn it, can be done individually or with group learning, but the overall concept is that students take ownership of their learning.

examples:

- PG-observation and synopsis by pg, students under guidance of MUHS allotted guide
- Thesis/project by intern student under guidance of their guide

#### 5) Patients centric and evidence based learning

refers to any concept or strategy that is derived from or informed by objective evidence—most commonly, educational research or metrics of school, teacher, and student performance. Among the most common applications are evidence-based decisions, evidence-based school improvement, and evidence-based instruction.

Example

- regular clinical

#### 6) Project based learning- is an instructional methodology that encourages students to learn and apply knowledge and skills through an engaging

experience. PBL presents opportunities for deeper learning in context and for the development of important skills tied to college and career readiness.

Examples

- writing articles

#### 7) Role play-

Role playing is defined as pretending to be someone else or pretending to be in a specific situation that you are not actually in at the time.

#### 8) Learning in the humanities – For the same different activities like health camps, rural visits, rallies like world tuberculosis day, saame-thu etc., NSS program are regularly conducted in our college.

SNJB'S Smt. K.B. Abad Homoeopathic Medical College, Shri R. P. Chordiya Hospital and Bhamashah Shri V. D. Mehta Dev Vijay P.G. Institute of Homoeopathy & Research Centre Chandwad  
Department of forensic medicine and toxicology

2.3.1. (DIM)

Our department uses following student-centric methods for enhancing learning experiences

Sr. N o.	Student-centric methods	Evidence	File/ Register No.
1.	Experiential Learning	• To observe legal procedure which is a part of curriculum department of FMT arrange visit to JUDICIAL MAGISTRATE COURT FIRST CLASS Chandwad	11
2.	Integrated Learning	• Gynecology, surgery, anatomy department visit to study related topics	
3.	Participatory Learning	• For postmortem study we visit to sub district hospital at Chandwad • Charts and model preparation activity by the students on different topics • Seminars by student with the help of power point presentation	12
4.	Problem solving methodology	• Curriculum includes different acts, for easy understanding of these acts-seminars are organized by resource person from Chandwad Court, Chandwad court lawyer association. • Orientation program for student -- at beginning of the academic year	11
5.	Self directed Learning	• Medico legal News collection and discussion	24
6.	Project Based Learning	• Project done by different students on medico legal cases	25
7.	Role Play	• Planning for this academic year

## Experiential Learning

Thank you, Deans

Date: 10/9/18

All the School BMS students (Nov-2017-18) and (June 18-19) attended Chandigarh District Judicial mag-istrate court on 11<sup>th</sup> Sept 2018 at 12.30 pm to 2.30 pm.

Magistrate J. J. Dhillon & J. J. Dhillon with BMS students held the office at two different chambers.

Students observed the evidence handling in court trial room. They know what is obtained. Case of vehicular accident was treated. Witness & P.S.T. was observed importance of all documents like Police Inquest, arrest notice, arrest warrant, P.M. request, P.M. report etc are verified in the trial.

Students were benefited by this visit.

# Problem Solving in Microbiology

DATE - 17-12

An introductory lecture was arranged for  
5th June 12-13 before students at 1<sup>st</sup>  
4<sup>th</sup> class room on 17<sup>th</sup> July 2017.

Aim:- to make acquainted about subject  
to give direction to study the subject.  
The following points were discussed.

- ① Syllabus
- ② Question paper pattern
- ③ Practical pattern
- ④ Rules & duties towards patient, in  
clinical case.
- ⑤ What is ethics & etiquettes etc.

All the above points were discussed with  
students. Students came forward  
with their queries which were discussed  
at the same time.

Students feedback was taken  
verbally - What is their opinion about session  
All were satisfied with it.

सर्व संलग्नित महाविद्यालये,

महाराष्ट्र, नाशिक

**विषय :** विद्यार्थ्यांकरिता "Towards a More Meaningful Life" या एकदिवसीय कार्यशाळेचे आयोजन करण्याबाबत...

**महोदय / महोदया,**

महाराष्ट्र आरोग्य विज्ञान विद्यापीठातील संलग्नित महाविद्यालयांमध्ये विविध अभ्यासक्रमांचे वैयक्तिक शिक्षण घेत असलेल्या विद्यार्थ्यांच्या अंगी अभ्यासाचा शुभ मुलांना याच विद्यापीठात या व्यक्तीमत्त्व विकास याचा यासाठी विद्यापीठातील विविध उपक्रम राबविले जाताना. यासाठी विद्या विषयक राज्यस्तरीय किंवा महानगर, सांस्कृतिक विषयक "दृष्ट्युच्च" व "स्पंदन" "विद्यापीठ विद्यार्थी परिषद" तसेच संशोधन विषयक "अविष्कार" तसेच, गरीब व गरजू विद्यार्थ्यांसाठी विविध योजना विद्यापीठमार्फत राबविल्या जातात. तसेच, विद्यार्थ्यांना सामाजिक कामांचे महत्त्व कळावे, यासाठी विद्यापीठ नेहमीच प्रयत्नशील असते.

त्याचसुचाने, दि. ०१/०८/२०१८ रोजी सर्व संलग्नित महाविद्यालयांतील विद्यार्थ्यांसाठी विद्यापीठमार्फत "Towards a More Meaningful Life" या एकदिवसीय कार्यशाळेचे आयोजन विद्यापीठ मुख्यालय, नाशिक येथे आयोजित केले आहे.

सर्व कार्यशाळेतील विद्यार्थ्यांच्या नावांमध्ये कुठरी व्हावी व त्यांच्या व्यक्तिमत्त्वाचा विकास व्हावा, सामाजिकदृष्टी आयुष्य निर्माण व्हावी व त्यांच्यात नेहमीच मुलांना विकसन याचा, यासाठीचा उपक्रम या कार्यशाळेमुळे केला जाणार आहे.

सर्व कार्यशाळेसाठी नावाजलेले व प्रविष्ट व्यक्तीमत्त्व असलेले छात्रीय वकीत सहभागी होणार असून, त्यांच्या मार्फत उपस्थित विद्यार्थ्यांना मार्गदर्शन करण्यात येणार आहे.

## STUDY OF ANACARDIUM & RHUS TOX FROM "MIND" SECTION OF KENT'S REPERTORY

Miss. Komal G. Pawar  
HMM Student

GUIDED BY:

Dr. A. S. PAREEK MD (Hom)  
Dr. S. I. CHORDIYA MD (Hom)

### INTRODUCTION :-

In our HMM, there are many symptoms recorded under each drug and it is difficult to recollect each and every symptom of the drug and hence Repertory had taken birth. In homeopathic science, we work out the case on the basis of individualization and we make out the totality in each case, this is only the method our master, founder of homeopathy DR. HAHNEMANN had explained us for prescribing similimum. For all the purpose Repertory and Repertorization has a vital role for a science, unprejudiced homeopathic prescription. Not only this, the way repertory are constructed (especially philosophical group of) have many meritorious features and one of the feature is study of repertory increasing Materia Medica knowledge.

I studied ANACARDIACEAE family from "MIND" section of KENT'S REPERTORY and hence here I am presenting the basic Materia Medica traits of ANACARDIUM & RHUS TOX.

### Abstract :-

Study of HMM through Repertory will make easier to understand specific details of the drugs. Comparative study will help us to (know the similarity & dissimilarity between) the symptoms of each drug even though they belongs to same family.

### KEY WORDS

- MIND, MAIN RUBRIC, SUB RUBRIC, SUB SUB RUBRIC, ANACARDIACEAE FAMILY, ANACARDIUM, RHUS TOX

### REMEDIES BELONGS TO ANACARDIUM FAMILY

Name of the Remedy	Abbreviations
1: Anacardium orientale	Anec.
2: Anacardium Occidentale	Anac-oc.
3: Comocladium dentate	Com
4: Rhus aromatica	Rhus-a
5: Rhus glabra	Rhus-g
6: Rhus radian	Rhus- r
7: Rhus toxicodendron	Rhus- t
8: Rhus venenata	Rhus-v

## CONCLUSION

After studying I understood Anacardiaceae family & its mind symptoms as follow:

- Mental symptoms in general of Anacardiaceae family.
- The specific details (differentiating Materia Medica) of Anacardium & Rhus tox.
- In the same way we can study several families & minerals to get the depth of knowledge in Homeopathy for improving our clinical practice.

**10.6. M.D (Hons) Foundation**

- A. Psychology
- B. Research Methodology in Homeopathy
- C. Advanced teaching of Fundamentals of Homeopathy

**Note:** The subject or Subjects "A" in respect of M.D.(Hons) in each specialty subject named above shall be the same subject and when shall be the subsidiary subjects for M.D. (Hons) Part-I Examination. For M.D. (Hons) Part-II examination there shall be only those specialty subject and its subsidiary subject.

3. In sub-regulation (2) of regulation 4 of the said regulations, the words, "Preference shall be given to candidates who have worked as consultants for two years in respect of one of the above subject or (2) item" shall be omitted.

4. For regulation 5 of the said regulations, the following shall be substituted, namely:—

**"1. A. General Subjects—**

**1. Research Methodology**

- (A) Research in Homeopathy
- (B) Need of Research and Research Challenges in Homeopathy
- (C) Types of Research Studies
- (D) Planning of Research Studies (which includes Research Questions, Research Hypothesis, Aim & Objectives, Literature Review, Study Design, Study Sample, Randomization, Blinding, Allocation, Variables, Outcome Assessment etc.)
- (E) Design and Conduct of Clinical Trials
- (F) Data Collection and Data Management
- (G) Analysis and Reporting Adverse Events
- (H) Ethical Issues in Biomedical Research
- (I) Writing & Publishing Research Studies

**2. Biostatistics—**

- (A) Definition and scope of Biostatistics in Clinical Research
- (B) Types of Data and methods of Data presentation
- (C) Descriptive Statistics (Mean, Median, Mode, SD and Variance etc.)
- (D) Correlation and Regression
- (E) Sampling techniques and sample size estimation
- (F) Measures of Morbidity and Mortality
- (G) Data Analysis
- (H) Use of Statistical Software

**3. Advanced teaching of Fundamentals of Homeopathy—**

Advanced teaching of Fundamentals of Homeopathy shall comprise of integration of knowledge (based on degree level course) in respect of subjects namely, Origin of Medicine and Homeopathic Philosophy, Homeopathic Materia Medica, and Repertory.

**II. SPECIAL SUBJECTS:**

**A. HOMOEOPATHIC PHILOSOPHY**

**(i) Concept of Principles and Practice**

No.	Date	Topic / Title	Subject	Faculty
			HMM	
6	19/8/17	Importance of finding out portrait of disease & finding out the same picture in drugs — as constitutional font		Dr. P.S.A.
September 2017				
1	9/9/17	Understanding of Value/rubor in logos utilitarian Repository	Repository	Dr. S.A.J
2	16/9/17	Symptomatology & its importance in perceiving the totality	Org.	ANK
3	23/9/17	Symptomatology & types of symptoms & its grading & its importance in clinical practice	HMM	S.N.O
October 2017				
1	7/10/17	Understanding of various rubor in clinical Repository	Repository	ASP
2	14/10/17	Symptomatology & its imp in perceiving totality	organon	ANK.
November 2017				
1	10/11/17	Drug proving & its role in evaluating drug pathogenesis.	HMM	SND
2	15/11/17	Understanding the medicines in Value/rubor.	Repository	SJC
3	22/11/17	Knowledge of drug & medicine of drug proving	Dr. ANK	

Sr.	Date	Topic Taught	Subject	Faculty
		December 2017		
1.	2/12/17	Study of drug pathogenesis with few examples like phos acid, Nuro vom, Staphylococci etc.	HMM	SND
2.	9/12/17	Understanding the medicines in various rubrics in different typographies in repertories taken from drug proving, clinical experience	Rep.	ASP
3.	16/12/17	Concept of drug proving & Knowledge of Disease & Medicine.	Organon	AME
4.	23/12/17	Study of drug pathogenesis & response in S.P.E.	HMM	P.S.A
5.	30/12/17	Drug proving records (HMM) & HMM REPERTORIES.	REPERTORY	SIC

JAN 2018

1	06/01/2018	Dr. Hahnermann, Disease Distribution, Origin, General Pathology of Immunology, Scope & Limitations of Immunology	Arise
2	09/01/2018	Study of drug - from HMM, Comparative study	SAD
3	10/01/2018	Day - Cultural night on 10-01-2018	Report 9
