

### 2.6.3 QIM - The teaching learning and assessment processes of the institution are aligned to the stated learning outcomes (within 500 words)

Following steps are regularly monitored for teaching learning & assessment processes to achieve the generic & program specific outcomes/ learning outcomes :

- MISSION & VISION- our institute stated & uploaded both the things on our college website, a great help to the beginners
- CURRICULUM – each year, especially first B.H.M.S all details of syllabus, examination pattern, practical/viva is explained
- TEACHING & LEARNING PROCESS- academic calender & academic time table is very strictly followed. Adjustment lectures is the uniqueness of us. Regular lesson plan, topic distribution are done by each teacher. Analysis of students for their betterment is done very vigoursly.
- PROGRAM OUTCOME, COURSE OUTCOME, PROGRAM SPECIFIC OUTCOME- all these are stated on every departmental notice board as well as uploaded on college website. Due care is taken for the assessment of the same.
- EVALUATION PROCESS- internal examination i.e. term-end & prelims are conducted as like M.U.H.S exam. At the same time, each subject department plan test/ tutorial/ seminar regularly for the benefit of student.
- STUDENT SATISFACTION SURVEY- feedback system is used for the same. We have complain box also which is monitered by feedback committee under the guidance of Principal
- ALUMNI- this gives feedback as well as motivation for pesent students.

Along with this GUEST SPEAKER are invited to update subject knowledge. Students are also attending outside seminars. Students take participation in N.S.S., SPANDAN, ASHWAMEDH, DEBATES etc. activities.

## PROGRAMME SPECIFIC OUTCOME

Homoeopathic prescription is based on INDIVIDUALISATION.

Uncommon, peculiar, strange, rare symptoms of patient are most important, when we have got knowledge of our subject (ANATOMY), we can easily separate out uncommon of the Patient from common (ANATOMICALLY EXPLAINED) symptoms & prescribed the similimum To sick, to cure as it is termed (MISSION OF HOMOEOPATHIC PHYSICIAN).

It should be taught with the following aims:-

1. To provide understanding of the morphological physiology & psychological principles Which determine & influence the organism of the living body as a functional unit & hence we can understand psycho-neuro-endocrino-reticuloendothelial (immunological) axis of Homoeopathy
2. To correlate the structural organism & normal physiology of the human body, thus Provide the data on which to anticipate disturbance of functions will help to a graduate for understanding common aetiopathogenesis of disease
3. To recognize the anatomical & physiological basis of the clinical signs & symptoms of disorders due to injury, disease & maldevelopment, this will help for miasmatic analysis in Homoeopathy of different cases.
4. To give the student such knowledge of preclinical subject as will enable him ultimately employ competently & rationally all the methods of examination & treatment (of some surgical cases)

Physiology including Biochemistry  
**Programme specific outcomes**

- 1) Homoeopathic system of medicine is based on individualization, uncommon, peculiar, rare and strange symptoms. These are the base of Homoeopathic prescription by the knowledge of Physiology graduate can easily understand what are normal or common sensation and symptoms so it is easy for him/her to differentiate uncommon from normal or common.
- 2) Knowledge of physiochemical process of homoeopathic medicine is easily grasp from knowledge of biochemistry
- 3) Normal standards or reference for use while diagnosis and treating deviations from normal to a homoeopath the human organism is an integrated whole of body, life and mind, and through life includes all the chemico-physical processes it transcends them.

## PROGRAMM SPECIFIC OUTCOME

### HOMOEOPATHIC PHARMACY

- Importance of Homoeopathic Pharmacy in relation to study of homoeopathic Materia medica(eg.Doctrine of signature)
- Importance of Homoeopathic Pharmacy in relation to study of National economy ,As 85% of the sources of Hom. Medicines can be procured and may be manufactured at comparatively much less cost ,by considering the population of India, Hom. Medicines are much useful & reasonable.
- Homoeopathic Pharmacy can help for research in field of homoeopathy.
- Originality and speciality of hom. Pharmacy and its relation to pharmacy of other recognised system of medicine.
- Homoeopathic pharmacy is the subject which laid on the fundamental topics that form the basis of homoeopathy.

### PROGRAMME SPECIFIC OUTCOME

- 1) Graduates should be able to diagnose disease by on the basis of pathology.
- 2) Graduates should be able to Understand Identification of various pathological conditions useful for diagnosis of genus epidemicus.
- 3) Graduates should be through in pathology in order to advice investigation for diagnosis.
- 4) Graduates should be able to understand the pace of disease through pathology to understand susceptibility.
- 5) Graduates should be able to understand depth and severity of disease in order to prescribe similimum in correct potency.
- 6) Graduates must have knowledge of microscopic features in detail in order to diagnose neoplasia.
- 7) Graduates can able to utilise in his homoeopathic practice Boger synoptic key which is based on pathological general.
- 8) On the basis of pathological condition graduates can able to differentiate between curable and incurable diseases.
- 9) Pathology will help graduate to understand scope and limitation of homoeopathy
- 11) Students must able to all Laboratory test for diagnosis and prognosis of patient (ESR, C-REACTIVE PROTEIN).

# GYNAECOLOGY AND OBSTETRICS DEPARTMENT

## PROGRAMME SPECIFIC OUTCOMES

1. Homoeopathic Physician must be trained in special clinical method of investigations for Diagnosing local condition & individualising cases, the surgical intervention either as a life saving measure or for removing mechanical obstacals, if necessary.
2. Should have knowledge of preventive measures in normal & abnormal conditions
3. Thorough understanding of homoeopathic approach in various cases.
4. Pregnancy is the best time to eradicate genetic dyscrasias in women & this should be specially stressed.
5. Should work on specific area or topic and get experience of Homoeopathy and publish in journals.(research)
6. Paper presentation at national and international level.
7. Should develop proper communication skill with patient and attendant .
8. Homoeopathic physician should be a good human being so that he can give proper justice to the patient.

### Program Specific Outcome (U G)

Here the overall assessment of the student at the end of the course is inferred. As far as medicine is concerned the following specific course outcome is expected from passing out UG student:

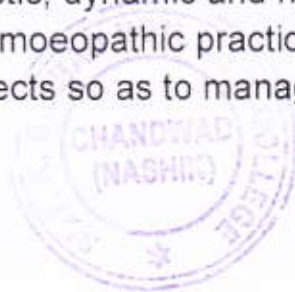

- Knowledge of Medicine, a successful Homoeopathic graduate could be able to differentiate curability and incurability in his day to day practice.
- Identification of uncommon, peculiar or individualistic symptoms of a diagnosed case with the help knowledge of medicine.
- This will help the passed out student to build the totality of symptoms as per the principles of Homoeopathy, which will help to make a sensible Homoeopathic prescription, considering diagnosis disease and diagnosis of patient as a person.
- Knowledge of Homoeopathic posology will be correctly applied by the Homoeopathic physician through correct knowledge of diagnosis.
- Miasmatic analysis of a case can be made possible by the knowledge of disease entity.
- A physician is enabled by the knowledge of medicine as a subject to chalk-out the Homoeopathic therapeutic plan when the uncommon symptoms are deficient in the case.

### Program Specific Outcome (PG)

Here the overall assessment of the student at the end of the course is inferred. As far as medicine is concerned the following specific course outcome is expected from passing out PG student:

- Utilize homoeopathic science as a medical discipline considering the treatment in holistic, dynamic and humanitarian way.
- Should indulge in homoeopathic practice considering bio-socio-psycho-spiritual aspects so as to manage and preserve Health.

PRINCIPAL  
Smt. K B Abad Homoeopathic  
Medical College & Hospital, Chandwad  
(Nashik) & Bhimashankar Shri V. D. Mahadev Vajay  
R. G. Institute of Homoeopathy & Research  
Centre, Chandwad Dist. Nashik

- Must utilize the opportunity to take the case in skillful manner to retrieve the uncommon peculiar in patient causing illness.
- Must practice the reason-gifted mode of medicine in manner which provides proofs and evidences of result brought forward after consumption of Homoeopathic medicine.
- Must utilize the standard methods termed in organon of Medicine for documenting the case treated with the use of principles of Homoeopathy.
- Characteristic features in chronic and acute cases must be identified and utilized in its management.
- Should be able to understand the role of vital force in altered susceptibility in disease and health
- Miasmatic analysis of each case must be drawn so as to understand the influence of Miasm in diseases.
- One must practice the method of processing clinical data collected from the patients to reach to Hahnemann totality, utilizing the principles.
- Must be able to identify the acute, chronic and intercurrent phases of totality in the case
- Must utilize the knowledge of repertory and its proper selection in different types of cases.
- Must possess the immense knowledge of posology, repetition of doses appropriately with time management.
- Must utilize knowledge of management of the case with respect to diet and regimen.
- Must always be in position to identify the limitations of the pathy with respect to curability.

## DEPARTMENT OF HOMOEOPATHIC MATERIA MEDICA

### SPECIFIC PROGRAM OUTCOME

1. To understand the schematic arrangements of symptoms produced by each drugs
2. Each drugs to be studied analytically , clinically , and comparatively to be a good prescriber
3. Commonly used drugs to be studied 1<sup>st</sup> and in detail to enable to apply the knowledge clinically
4. Therapeutic parts in relation to ~~relation to~~ HMM emphasized for better clinical application
5. Application of MM should be studied by demonstrating its application on cases
6. Teaching should be with the help of adequate specimen , herbarium , charts , audio-visual aids , etc.
7. Regular seminars , tests , exams , and tutorials to be conducted to assess and evaluate and enhance the quality of student
8. By the end of 4 1/2 year of curriculum students will be made aware of 250 drugs in detail and their relations
9. Final outcome is to successfully apply the knowledge of HMM clinically on patients outdoor and indoor and so also benefit the suffering mankind

## DEPARTMENT OF HOMOEOPATHIC MATERIA MEDICA

### SPECIALITY COURSE OUTCOME PG 1<sup>ST</sup>

1. The purpose of this course is to train the basic homoeopathic graduate in the field of HMM , the entire experience of basic and applied aspects of HMM including philosophical background and conceptual framework necessary to understand different approaches and their clinical application
2. He should understand the functional structural psychological and causative aspect of HMM – useful in his residential posting
3. Should have profound knowledge of rare and uncommon remedies to achieve restoration of health at any level
4. To be able to deliver the knowledge guided to the students in form of lectures
5. Have high degree of proficiency both in theoretical and practical aspect of HMM backed by scientific knowledge and philosophy
6. He should be able to evolve matching methods and technique that will help him understand MM by forming the portrait of disease to bring about cure
