

#### 2.6.4 Follow up report on action taken and outcome analysis.

Periodic meeting for parent teacher interaction is the vital process for the upliftment of institute. Here as our institute is situated at rural place, we have little difficulty for conducting such meetings regularly. Still we are doing following things at our best:

- As per suggestions from the parents about infrastructural facilities, academic facilities / environment, other opportunities for learning & overall personality development tools has been considered & executed.
- Student welfare committee also play a vital role to bridge the gap between student & teacher
- Hostel girls have compulsory to go with parents during vacation period. During this time parent can meet to subject teacher.
- Internal examination progress report & students attendance sent by post regularly.
- Parents are suggested to attend meeting/ counseling of those students who failed in M.U.H.S. examination
- Sometime tele-communication to parent is made for emergency purpose
- Parents also suggested doing compulsion to their son/ daughter to attend repeaters classes which will help them to get through examination.
- It is decided to strengthen more the mentor mentee concept.
- As all above discussion carried during parent teacher meet as action taken extra classes for repeater students are arranged time to time.

A handwritten signature in blue ink, appearing to read "B. B. Chordia".
