

7.1.2: (QIM) Measures initiated by the Institution for the promotion of gender equity during last five years:

Gender equity:

The Gender equity is necessary to give equal opportunity to both women and men, so as to enjoy the same status and have an equal opportunity to exercise their human rights and realize their full potential to contribute towards political, economic, social and cultural development and to benefit from the results. It is the equal value attributed by society to both the similarities and the differences between women and men and the different roles they play. Gender equality can be promoted when resources, opportunities and support are availed to men and women without regard to their biological sex. This refers to a platform or strategy in the process of achieving gender equality.

Targeted measures are often needed to compensate for historical and social disadvantages that prevent women and men from otherwise being equals. These measures, such as affirmative action, may require a different treatment of women and men in order to ensure an equal outcome. In Smt. K. B. Abad Homoeopathic Medical College during admissions, Counseling sessions are held. We have a good quality security system as well as cleaning system to maintain healthy and secure life of students. Common rooms are available for girls. To describe gender equity initiatives our college had conducted following types of programs. International Women's Day, Anti-Dowry Awareness Program, Cancer Awareness Program, Women's Health Camp, Female feticide Street Play. To sort issues of women our college established Women Grievance Cell i.e. VISHAKA committee as per norms of MUHS.

FACILITIES PROVIDED FOR THE GIRL STUDENTS

Gender equity and sensitization and facilities for women on campus.

1. Safety and Security
2. Counselling
3. Common Room
4. Day care centre for young children

1. **Safety and Security:** Smt. K. B. Abad Homoeopathic Medical College gives prime importance to the Safety and Security of all the girl students and female staff. We are having 24 Hrs. securities for college, hospital and hostels with firm and precise rules especially for girl's hostel. While taking leave it is mandatory presence of their parents,

though they can enjoy freedom of their rights & womanhood. Time to time annual gathering, different motivating lectures organize separately for only girls students in girls hostel. For security we have installed CCTV cameras at all vulnerable areas within the premises of the institute and to limit the entry of outsiders within its premises. While these directions demand a decent amount of accountability from institute, a holistic approach to tackle the student safety is developed. College understands the power of vigilance as the key to protect the students.

2. **Counseling:** In Smt. K. B. Abad Homoeopathic Medical College during admissions, counseling sessions are held for new students. Counseling of students is done as an when needed by the class teachers and medical officers. For any medical emergency and moral help special teacher appointed in girls hostel.
3. **Common Room:** Common rooms are provided for girls with sanitary pad vending machine facility.
4. **Medical care** is provided for the students in hostel as day care facility.
