DEPARTMENT OF GYNAECOLOGY & OBSTETRICS

SYLLABUS & CURRICULUM

S.Y.B.H.M.S. – GYNAECOLOGY - 1st Term	
•	Terminology
•	Applied anatomy & physiology (female genital tract & pelvic organ)
•	Physiology & endocrine mechanism of menstruation
2nd Term	
•	Gynaecology examination
•	Development abnormalities
•	Puberty & menopause & climacteric
OBSTETRICS - 1st Term	
•	Terminology
•	Reproduction organs
•	Fertilization, placenta, foetus & apandages
•	Normal pregnancy – physiological changes, diagnosis of pregnancy
2nd Term	
•	Normal labour
•	Normal puerperium
•	Infant care
•	Maternal pelvis
•	Foetal skull
•	Obstretic examination
•	Fetus in utero

STAFF		
•	Dr. S. S. Sangale	
•	Teaching Programme	
•	Theory	80 – weekly two lectures

DEPARTMENT OF GYNAECOLOGY & OBSTETRICS

TEACHING PROGRAMME (CONTENTS & TEACHING OBJECTIVES) II YEAR

Month	No. of lectures	Topic	Teaching & Learning Method
GYNAECOLOGY			
January	04	Terminology	Chalk – Talk method (black board / Lecture) Group Discussion Seminar Tutorials Debate Multimedia presentation
		Anatomy of female genital organs External female genital organs	
	04	Uterus	
		Cervix	
		Fallopian tubes	
February	04	Ovaries	
		Other pelvic organs	
	02	Physiology & endocrinal axis of menstruation	
March	04	Physiology: menstruation	
	04	Gynaecological examination	
April	04	Puberty – types with theraps	
	04	Menopause and climaxis, with theraps	
June	04	Developmental defect	
	04	Uterine displacement (Introduction)	
July	08	Menstrual disorder (introduction)	
		Reproduction - Reproductive organ - Development of different steps of reproduction (Gametogenesis, fertilization, zygote, placenta, amniotic, fluid, foetal membrane, umbilical cord, foetus, appendages)	
August	08	Normal pregnancy - Definition	
September	06	Normal labour – Definition causes, physiology, clinical stages & its management (1 st stage, 2 nd stage & 3 rd stage of labour with therapeutics)	

DEPARTMENT OF GYNAECOLOGY & OBSTETRICS

Month	No. of lectures	Topic	Teaching & Learning Method
October	08	Normal puerperium Definition, clinical stages, physiology, uterus – changes and management with therapeutics	Debate Multimedia presentation
November	08	Infant care <ul style="list-style-type: none">■ Normal neonate – clinical features■ Management of normal neonate & infant care■ Immediate care + remote care	

DEPARTMENT OF GYNAECOLOGY & OBSTETRICS SYLLABUS & CURRICULUM

T.Y.B.H.M.S. – GYNAECOLOGY - 1st Term

•	Menstrual disorders <ul style="list-style-type: none"> ■ Amenorrhoea ■ Dysenorrhoea ■ D. U. B. ■ Menorrhagia ■ Metrorrhgia
•	Puberty disorders <ul style="list-style-type: none"> ■ Precaucious ■ Delayed
•	Menopausal disorders <ul style="list-style-type: none"> ■ Early and delayed ■ Post menopausal P/V bleeding ■ Syndrome
•	Uterine displacement <ul style="list-style-type: none"> ■ Genital prolapse – Aetology clinical stages, clinical types, diagnosis D/D, management ■ Retroverted uterus – Aetiology, clinical stages, Diagnosis D/D management
•	Inflammation, ulceration & traumatic lesion of the female genital organs (Aetiology, clinical stages, diagnosis D/D complication, management) <ul style="list-style-type: none"> ■ Vaginitis ■ Cervicitis ■ Cervical erosion ■ P. I. D. ■ Genital tuberculosis
2nd Term	
•	Benign tumour of genital tract – (Aetiology, clinical stages diagnosis D/D, complication, management) <ul style="list-style-type: none"> ■ Uterine fibromyoma ■ Uterine polyp ■ Endometrosis
•	Benigh breast diseases – (Mastalgia, fibrodenosis, fibroadenoma)
•	Genital malignancies – (Aetology, clinical stages, diagnosis D/D, management) <ul style="list-style-type: none"> ■ C. A. Cervix ■ C. A. body of uterus ■ C. A. Vagina vulva ■ Fallopian tube
•	Overian tumor – (Aetiology, clinical stages, diagnosis D/D, management)

DEPARTMENT OF GYNAECOLOGY & OBSTETRICS

	<ul style="list-style-type: none"> ■ Benign & Malignant
•	Genito urinary fistula – (Aetiology, clinical stages, diagnosis D/D, management)
•	Sterility & Infertility – (Aetiology, clinical stages, diagnosis D/D, management)
•	Minor Gynaecological disorder <ul style="list-style-type: none"> ■ White discharge ■ Pruritus vulvae ■ Low backache ■ Dyspareunia ■ Vaginismus
•	Common gynaecological operation <ul style="list-style-type: none"> ■ D & C ■ Endometrial biopsy ■ Hysterectomy – vaginal, abdominal
	OBSTETRICS - 1st Term
•	Abnormal pregnancy
•	Haemorrhage in early pregnancy
•	Antepartum haemorrhage
•	Toxaemia of pregnancy
•	Common disorders & systemic disease in pregnancy
•	Disorders of genital tract
•	Multiple pregnancy
•	Abnormalities of placenta & membrane
	2nd Term
•	Abnormal labour
•	Post maturity
•	Complication of 3 rd stage of labour
•	Injuries to birth canal
•	Abnormal uterine action

DEPARTMENT OF GYNAECOLOGY & OBSTETRICS

•	Abnormal position & presentation
•	Abnormal perperium
•	Infant care <ul style="list-style-type: none">■ Breast feeding■ Disorders■ Birth injuries
•	ANC
•	Commn obstetrical operation – suction evacuation D & E version, CS. Hysterectomy

STAFF		
•	Dr. Mrs. J. R. Suryawanhi & Dr. Mrs. S. R. Kale	
•	Teaching Programme	
•	Theory	150 – weekly four lectures
•	Tutorial	Monthly once

DEPARTMENT OF GYNAECOLOGY & OBSTETRICS
TEACHING PROGRAMME (CONTENTS & TEACHING OBJECTIVES)
III YEAR

Month	No. of lectures	Topic	Teaching & Learning Method
GYNAECOLOGY			
January	12	A) Revision and completion of remaining II year syllabus with theraps	Chalk – Talk method (black board / Lecture) Group Discussion Seminar Tutorials Debate Multimedia presentation
		B) Uterine displacement & retroverted uterus with theraps	
		C) Breast diseases	
		D) Dyspareunia with theraps	
		E) Vaginismus with theraps	
		F) Pruritus with theraps	
		G) Vulvae with theraps	
		H) Ulcerations with theraps	
		I) Backache with theraps	
February	12	Menstrual disorder with theraps	
		A) Dysmenorrhoea	
		B) Amenorrhoea	
		C) Menorrhoea	
		D) Hypomenorrhoea	
		E) Oligomenorrhoea	
		F) Premenstrual disorder	
		G) Dysfunctional uterine bleeding	
		H) Post menopausal bleeding	
		I) Polymenorrhoea	
J) Polymenorrhagia			
March	12	Sexually transmitted diseases with theraps	
April	12	P.I.D. upper genital & Lower genital with theraps	
June	12	Radiotherapy and commn gynaecological operations	
July	06	Sterility and infertility with theraps	
August	12	Uterine behigh lesions with theraps	
		Cervical benigh lesions with theraps	
		Vaginal benigh lesions with theraps	

DEPARTMENT OF GYNAECOLOGY & OBSTETRICS

Month	No. of lectures	Topic	Teaching & Learning Method	
September	12	Genital malignancies with theraps	Chalk – Talk method (black board / Lecture) Group Discussion Seminar Tutorials Debate Multimedia presentation	
October	12	A) Ovarian tumors with theraps ■ Benign ■ Malignant		
		B) Endormertriosis, Adenomyosis with theraps		
November	24	Miscellaneous ■ Fistulae ■ Premalignat lesions ■ Urinary tract diseases ■ Hirsutism, Virillism ■ Intersex		
OBSTETRICS				
January	16	Abnormal Pregnancies ■ Hyperaemic gravid arum ■ Polyhydramnios ■ Toxaemia of pregnancy		
February	32	Haemorrhage of early pregnancy ■ Abortion ■ Vesicular Mole ■ Ectopic pregnancy		
March	16	Ante – partum haemorrhage ■ Abruption placenta ■ Placenta praevia		
April	16	Disorder of genital tract		
		Multiple pregnancy		
		Abnormalities of placenta & membrane		
June	04	Abnormal labour ■ Preterm ■ Post – maturity ■ Obstructed & prolonged labour		
	04	Complication of 3 rd stage of labour ■ Retained placenta ■ Inversion of uterus		
July	16	Injuries to birth canal		
		Abnormal uterus action		
		Contracted pelvis		
August	16	Abnormal position & presentation		
		Abnormal puerperuim		

DEPARTMENT OF GYNAECOLOGY & OBSTETRICS

Month	No. of lectures	Topic	Teaching & Learning Method
September	16	Infant care ■ Breast feeding	Chalk – Talk method (black board / Lecture) Group Discussion Seminar Tutorials Debate Multimedia presentation
October / November	32	Disorders ■ Premature child ■ Neonatal asphyxia ■ Other common disorders	
		Birth injuries
