Cara
professional

from Miccant Ltd.

Designed and written by

David Witko & John Stevenson

Cara Professional ©1999 Miccant Ltd.
All rights reserved.

Earlier this was known as **CARA**. Later they added lot of information with rearranging the entire structure of the software and came in the form of **ISIS**.

VERSIONS

- **CARA Lite**
- **CARA Standard**
- **CARA Professional**

REPERTORIES

- Complete Repertory
- **Combined** Repertory
- Murphy's Repertory
- Phatak's Repertory
- Clarke's Clinical Repertory
- BBCR
- Boericke's Repertory
- My Repertory

- **Combined repertory** which is a combination of **Kent's Repertory, Final General Repertory and Synthetic Repertory** is one of the primary sources of information in the program.

MM

- **Comparison of remedies** is an important feature of CARA in the form of compare remedies tool

Dictionary

1. Tabers Cyclopedic Medical Dictionary, 1981
2. Craigs Dictionary London 1852
3. Websters American Dictionary 1892
4. Concise English Dictionary, 1906
5. Obstetrics Glossary Philadelphia 1886
6. Ruddock Homoeopathic Vade Mecum 1893
7. Allen, Diseases of the Skin 1897
8. Morris, Langmead & Holmes, Dictionary of Practical Medicine 1921

Cases and Visits

Separate area for entering the case data, prescription and follow ups

1. **Intuitive Book Tabs:** When you want reference of different books all you do is click the mouse on a book tab and CARA takes you straight to it
2. **Cross references and Synonyms:** 16836 CR and auto functioning of cross references.
3. **Search Rubric:** CARA has the ability to search for rubrics in all installed repertories simultaneously
4. **Thematic Search:** This feature helps in finding the exact rubric relevant to theme of the patient.

Acute

Praful Vijaykar's acute chart remedies can be seen and Repertorization can be done through that chart.

ISIS Features

- Streamlined ease of use-Repertories, Materia Medica and Dictionary all on the screen.
- Latest Homoeopathic thinking built-in (including a feature of using Sankaran's new Insights).
- Direct internet connection-into homoeopathic **chat rooms or to pick up software updates** and new provings automatically.
- **Use of latest technology** e.g.: attach photographs to rubrics, remedies or patient record notes-even run videos in the new Rx screen section.
- On-screen Tutorials. Hear and watch David Witko.
- Keynotes and Rx relationships that are amendable-make them your own and exchange them with others.
- Huge library of books-including many contemporary authors (e.g. **Vermeulen, Scholten, Sankaran** etc.)
- **Latest provings** as they are released.
- Listen to over 120 lectures on Rx and view over 400 photographs of Rxs.
- Space to add your own notes
- Corrections made to botanical classifications of Rxs.

ISIS Homoeopathic software renamed as Vision

MERCURIUS- HOMOEOPATHIC SOFTWARE

It was developed by **AEON GROUP**

Mercurius is a **modern repertorization and materia medica software** for homeopathic practitioners, providing you the highest quality information on which you can base your prescriptions confidentially.

Mercurius supports a range of repertories (including the most advanced **Complete Repertory from Roger van Zandvoort**) and **thousands of pages of materia medica.**

It presents a different approach when compared to competing products. The program offers ***quick and precise searching and evaluation of symptoms***, also without the knowledge of any particular repertory structure.

FEATURES....

- This software combines repertory, materia medica and the patient management system in a single piece of software.
- It provides compensated repertory model for all supported repertories
- All supported Materia Medicae are fully integrated, spellchecked and corrected.
- Superior searching capabilities of the symptoms with the best-in-the-industry support of synonyms.
- Book-style 'tree-structured repertory'

Mercurius Basic Edition includes:

Repertories:....

- Kent's final repertory with additions and corrections (exclusively in Mercurius)
- Boger's Synoptic key with supplemental reference table
- Boger's General Analysis and Card Index Repertory
- Boger-Boenninghausen's Repertory with corrections
- Boenninghausen's Repertory with corrections

Materia Medicae:...

- Practical Materia Medica for the Consulting room by Tinus Smits, M.D.
- Materia Medica part of Boger's Synoptic key (Synopsis)
- Kent's Lectures on Homeopathic Materia Medica
- Wadstories by Jan Scholten
- Boericke's Pocket Manual of Homeopathic Materia Medica
- Twelve Tissue Remedies of Schussler from Boericke W. and Dewey W.

- Materia Medica Explorer is one of the major modules of Mercurius homeopathic software.
- You can use it to easily access the Materia Medica text of any remedy of any author available in your purchased MM pack.

KENTIAN

Dr. Ramanlal P. Patel

Repertorisation: Entry of symptoms by,

- Chapter method.
- Symptoms by search method
- Symptoms by code method.

The whole Kent's Repertory from Mind to Generalas, from General Rubric to Sub-rubric is coded.

There are 4 different types of repertorisation

1. Normal usual method of Repertorization.
2. **RUPS method (Rare, uncommon, Peculiar, Striking or Singular or Strange** or the artistic method of Repertorization of Hahnemann and Kent.
3. Miasmatic method of repertorisation. (Hahnemann and Allen)
4. Homoeopathic Expert“ System method of repertorisation.

Complete Dynamics

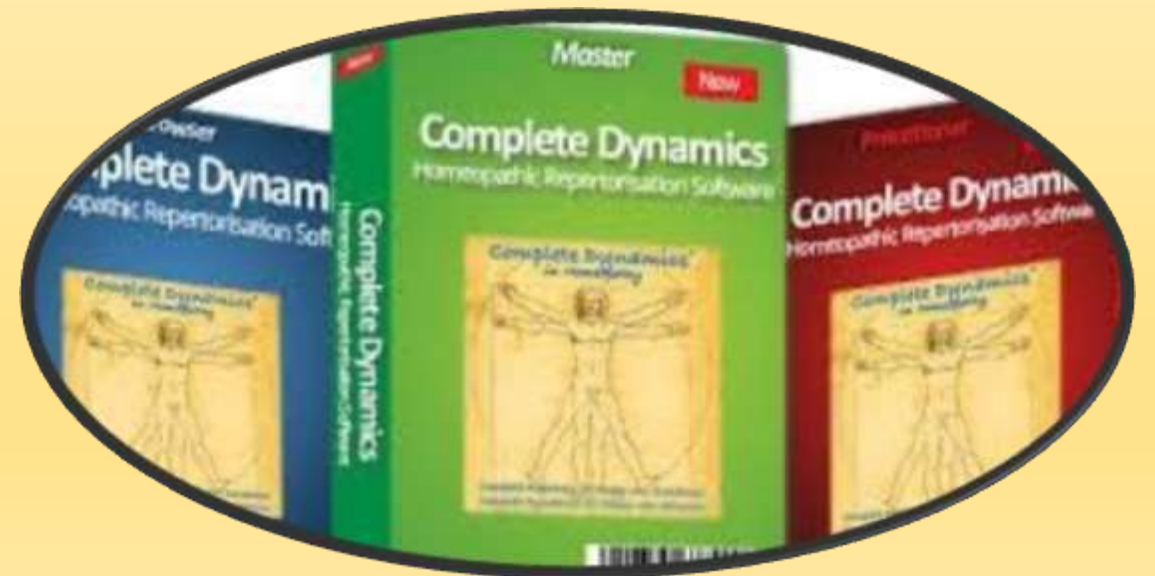

Complete Repertory

Book Version

Software

Based on Complete Repertory -2019

Complete Repertory - completeness, accuracy and coverage of original sources.

Work in Apple ® Mac, Microsoft ® Windows, Android, iOS and Linux platforms.

The Complete Dynamics development team:

Edwin van Grinsven

Roger van Zandvoort

This project work is done by the **Institute of Research in Homoeopathic Information and Symptomatology.**

Index module provides quick access to the book's chapters, using both a textual as well as a graphical representation.

Stimulare

Qu-bit Homoeo Technologies
Bangalore

A **simplified** Homoeopathic Software Program that gives you a **single screen approach**

- ❖ Cases
- ❖ Repertory work
- ❖ Repertorisation
- ❖ Materia Medica etc., & many more..

Avoid flipping to different pages

Unique case-taking method in the software.

When a rubric is graded you will see the repertorisation screen changing, this gives you an idea which rubric has impacted the remedy.

SIMILIA SIMILIBUS CURENTUR

Mac Repertory

Author: David Kent Warkentin

Published and marketed by: Kent Homoeopathic Associates, USA

Present Version: 5.6.0

Year of Publication by Kent Homoeopathic Associates: 1986

Packages consists of:

MAC Repertory
Reference works
Travel Library
Thema Spider
Zizia Philosophy

Acute repertory	Eizayaga Repertory
Allen repertory	Kent's Repertory
Bach Kent Repertory	Knerr's Repertory
Back Mind Repertory	Mirilli's Repertory
Boenninghausen Repertory	Murphy's Repertory
Boericke Repertory	Relationship of Remedies Repertory
Clarke Repertory	Robert's Repertory
Douglas Repertory	Ward's Repertory
	Complete Repertory

Special Features

- There are six clipboards that are from A TO F. So the case can be studied in a cross sectional way.
- For grading of rubrics, select the rubric to be graded and then click 1/2/3/4/ keys depending on which intensity to be given.
- The repertorisation chart will be displayed in varieties of graphs.
- The **minus** sign icon is for the eliminative process of repertorisation and minimum of 20 drugs should be present for the selecting rubric.
- The **plus** sign is for combining rubrics, combining can be done 2 or 3 or n number of rubrics.

Vega's Box

It consists of many terminologies.

Here while Repertorising any one which is suiting for the patient can be selected along with the rubrics and so this will lead the prescriber further and quicker towards a more specific group of remedies.

Thema Spiders

- It is a detailed study of spider group of remedies with their pictures to differentiate among them.

Zizia philosophy

containing
Hahnemann's
Organon, Kent's
Philosophy, Robert's
Principles and Stuart
Close's Genius
Homoeopathy.

**This software is designed and developed by
Respected President of NCH Dr. Tarkeshwar Jain**

It offers a practical application of the Hahnemannian concept in clinical practice, the processing and recording of case studies, as well as assisting in their maintenance.

The patient's symptoms are recorded directly in the software as complete symptoms. Then the program immediately converts the symptoms into rubrics through various repertories.

- The five repertories included in the program:

- *Kent repertory*
- *Boger/Boenninghaus*
sen repertory
- *Boenninghausen*
therapeutic pocket
book
- *O. E. Boericke*
repertory
- *A-Z alphabetical*
repertory.

- All histories AND physical examination and investigation) are recorded in separate windows.

- The evaluation of symptom is made by considering causative, mental, physical and particular symptoms.

- The case is analyzed by creating an acute and chronic totality, determining, dominant and fundamental miasms based on patient's present history, past history and family background.

- Identifies the dominant type of symptom of the case and according to this dominance proposes one of the following reportorial approaches:

Kent's approach, Boenninghausen's/Boger's approach, Regional approach

- Then the most suitable remedy for the case is suggested based on repertorization result, miasmatic dominance, constitutional background and **potential drug affinity.**

- The corresponding potency and frequency repetition of the remedy.
- The continuity of a treatment and the decision on the second prescription is managed by the software, which reviews each symptom according to *Kent's twelve observations* and *Hering's law*.

- There is also the option *quick repertorisation* in which the user can directly select rubrics from the five available repertories and repertorize the case without going to case processing or case taking.

- The 'Physician' menu allows the user to **print** a variety of generated reports as well as **certificates, lab-testing formats**, order sheets for medicines, follow-up appointments etc.

ORGANON 96

This is the software prepared by **Institute of Clinical Research (ICR) Bombay, Mumbai.**

Dr. Dilip Dixit worked for the development of this software.

Present in the **2nd version** of Organon 96.

This is a sort of **processing software** where case taking, data processing, analysis and evaluation of symptoms is possible.

This software contains standardized case record (SCR) that is used at Dr. M. L. Dhawale institution.

Features

- **Recording a case.**
- **Analysis of a case.**
- **Synthesis of a case.**
- **Repertorization.**
- **Planning and programming of the treatment**
- **Follow up.**
- **Help**
- **Other facilities**

Advantages

- **For practitioner**
- **For learner**
- **For Teacher**
- **Research Worker**
