

Marks 50	Sub:- Homoeopathic Repertory	Time 1 ½ Hrs.
-------------	------------------------------	------------------

- Instructions:-**
- 1) All Question are Compulsory.
 - 2) All Question carry equal Marks.
 - 3) The number to the **right** indicates **full** marks.
 - 4) Draw diagrams **wherever** necessary.
 - 5) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

SECTION – A

- Q. 1. Write appropriate answers (any 5 out of 8) (5x2=10)
- a) Define Repertory with its word meaning
 - b) Define Rubric with its word meaning.
 - c) Define repertorization
 - d) Explain Rubric “ Reveries” of BBCR under following heading
 - i) Word meaning
 - ii) Any 4 important Remedies
 - e) Pre-requisite of case taking §83
 - f) Define pathological general with examples.
 - g) Alternating symptom
 - h) Mention 1) year of publication 2) Total No. of Remedies
- In – “sensations “ as if “Repertory of H. A. Robert
- Q. 2. Write short answers (any 2 out of 4) (2x5=10)
- a) General Repertory
 - b) Record Keeping
 - c) Borland’s pneumonia
 - d) Advantages & Disadvantages of card Repertory
- Q. 3. Long answer Question (any 1 out of 2) (1x10=10)
- a) Relationship between repertory, HMM & Organon
 - b) Classification of Repertory in details
- Q. 4. Long answer question (any 1 out of three) (5X4=20)
- a) Write puritan Repertory in detail under following headings.
 - i) Historical evolution
 - ii) Definition, word meaning & another name.
 - iii) Comparative study of gentry’s & knerr’s – Repertory.
 - iv) Scope & Limitations
 - b) Write in detail BBCR under following heading
 - i) Philosophical background & concept of totality
 - ii) Plan & construction
 - iii) “Sensation & complaints in general” section
 - iv) “Fever” section
 - c) Write down steps of repertorization in i) Schematic way ii) Repertorial totality
 - iii) Anamnesis iii) Synthesis in details

Write in detail about any one question from Q.5, Q.6, and Q.7

Marks 20

Q.5 Write in detail about Hyperthyroidism with respect the following

- a) Scope and limitations
- b) Acute prescription
- c) Chronic prescription
- d) Any 2 Indicated remedies

Q.6 Write in detail about Dwarfism with respect the following

- a) Scope and limitations
- b) Acute prescription
- c) Chronic prescription
- d) Any 2 Indicated remedies

Q.7 Write in detail about Chronic Myeloid Leukaemia with respect the following

- a) Scope and limitations
- b) Acute prescription
- c) Chronic prescription
- d) Any 2 Indicated remedies

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

PRELIMINARY EXAMINATION (Nov. - 2013)

YEAR:- IV B.H.M.S. (Reg.)

**Marks
100**

Sub:- Medicine –I

**Time
3 Hrs.**

Instructions:-

- 1) The number to the **right** indicates **full** marks.
- 2) Draw diagrams **wherever** necessary.
- 3) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 4) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

SECTION – A (SAQ)

Q.1 Write appropriate answers (any 10 out of 15)

(10x2=20)

- a) Define clubbing. Enumerate 4 respiratory causes of clubbing.
- b) Define Hypercapnia. Give 2 causes of it.
- c) Write the physical signs of lobar pneumonia.
- d) Complications of whooping cough.

e) Name 4 common bacterias causing bacillary dysentery.

f) Write 4 common causes of persistent vomiting.

g) Enumerate 4 causes of malabsorption syndrome.

h) Clinical features of giardiasis.

i) Clinical features wet beriberi

j) Risks associated with obesity.

k) Enumerate the pituitary hormones

l) What is diabetes insipidus? Write the causes of it.

m) What is exophthalmopathy?

n) What are the ECG changes in hypothyroidism?

o) Name two immune deficiency diseases.

Q. 2. Write short answer (any 4 out of 6) (4x5=20)

a) Discuss clinical features and investigations of post primary pulmonary tuberculosis.

b) Discuss scurvy

c) Describe primary hyperparathyroidism.

d) Explain sliding hiatus hernia

e) Describe acute gonococcal urethritis.

f) Describe anaphylaxis.

Q. 3. Write short answer (any 4 out of 6) (4x5=20)

a) Describe empyema

b) Discuss Wernick's Encephalopathy.

c) Explain acute pancreatitis.

d) Discuss various heat related illnesses

e) What are the causes of tetany? Give the clinical picture and diagnosis of tetany.

f) Give the DD of generalized lymphadenopathy.

Q. 4. Long answer questions (any 2 out of 4) (2x10=20)

a) Explain rickets

b) Discuss aetiology, clinical features, complications of classic dengue fever

c) Explain bronchiectasis.

d) Discuss Hodgkin's lymphoma.

Long answer Question (any 1 from 5, 6 & 7)

(1x20=20)

Q. 5. Discuss irritable bowel syndrome under following heads.

- a) Aetiology
- b) Clinical features
- c) Investigations
- d) Diagnostic criteria

Q. 6. Discuss acromegaly under following heads.

- a) Aetiology
- b) Clinical features
- c) Investigations
- d) DD

Q. 7. Discuss Pl vivax malaria under following heads.

- a) Clinical features
- b) Complications
- c) Diagnosis
- d) DD

As It is only for the placement sake, the distribution has been done.

SECTION – A (SAQ)

Q. 1. Write appropriate answer Any 10 out of 15

(10x2=20)

- a) Contributions of Asdepiades
- b) Definition of Drug, Medicine, Remedy
- c) Give principles of Antipathy, Isopathy, Homoeopathy
- d) Define Basic & Determinative symptoms.
- e) CCH – its functions
- f) Diathesis – definition & types

- g) Temperament – definition & types
- h) Disadvantages of Antipathy
- i) What is maze of symptoms
- j) Define Analysis & Evaluation
- k) Robert's rule of repeatation.
- l) Primary & Secondary action
- m) Contributions of Susruta
- n) Hippocrates – contribution
- o) Define Chronic disease & Acute disease.

Q. 2. Write short notes (any 4 out of 6) (4x5=20)

- a) Spread of Homoeopathy to India
- b) Totality of symptoms.
- c) Define Health, factors modifying it. What is WHO'S concept of Health?
- d) Spread of Homoeopathy to America.
- e) Concept of life & living environment.
- f) Contributions of Hahnemann in the field of Medicine.

Q. 3. Write (any 4 out of 6) (4x5=20)

- a) Scope & limitations of Homoeopathy
- b) Keynote symptom & pathological generals.
- c) Indications & Contra – indicatiosns of High & Low potency
- d) Suppression & palliation
- e) General symptoms
- f) Status Quo.

Q. 4. Write any 2 out of 4 (10x2=20)

- a) Discuss Pre-historic Era of Medicine
- b) Describe an account of H/o Homoeopathy in India
- c) Describe dark age.
- d) What is Prophylaxis, give the detailed account of it.

LAQ any 1 out of Q. No. 5, 6 & 7 (4x5=20)

Q. 5. Explain Reniassance period

- a) Reniassance Age – its Era.
- b) Features of this age

- c) Contributions of Leonardo-d-vinci
- d) Contributions of Paracelsus & Andreu, Vasalius

Q. 6. Discuss susceptibility under following headings.

- a) Definition of susceptibility
- b) It plays imp. role in which factors
- c) Factors affecting susceptibility
- d) Kent's & Robert's view of susceptibility.

Q. 7. Discuss Remedy reaction under following headings

- a) What are remedy reactions – give diff. types.
- b) What is status Quo.?
- c) What is Homoeopathic Aggravation? Give types of Homoeopathic aggravation.
- d) What is disease aggravation?

SECTION – A (SAQ)

Q. 1. Write appropriate answer Any 10 out of 15

(10x2=20)

- a) Define 1st grade & 2nd grade symp. According to Dr. Kent.
- b) Define Inductive logic
- c) Define cure & recovery
- d) What is trinity of life?
- e) What is Eliminating symptom?
- f) What is formative intelligence?
- g) Second Best remedy according to Stuart Close
- h) What is Dynamic antidote?

- i) What do you mean by doctrine of latency?
- j) Mentals of syphilitic miasms.
- k) Mentals of Sycotic miasms.
- l) Define second prescription, write its types.
- m) Indisposition.
- n) What is metastasis according to Stuart Close?
- o) Why Homoeopathy is art?

- Q. 2. Write any 4 out of 6 (4x5=20)
- a) Scope of Homoeopathy
 - b) Limitations of Homoeopathy
 - c) Logic of Homoeopathy
 - d) Simple substance
 - e) Sick
 - f) The development of Hahnemannian philosophy in the 6th edition of Organon.

- Q. 3. Write short answer (any 4 out of 60) (4x5=20)
- a) Give detail account of Posology.
 - b) What has homoeopathy to offer to young man?
 - c) Vital energy – explain according to Dr. Roberts.
 - d) Write susceptibility – concept in detail
 - e) What is cure & Recovery
 - f) The Law of Cure

SECTION : B (LAQ)

- Q. 4. Long Answer Question (10x2=20)
- a) Explain General pathology of Homoeopathy
 - b) What is Theory of Chr. Disease?
 - c) What is relation of Homoeopathy to Bacteriology?
 - d) What is Psora & Tuberculosis?

LAQ (any 1 from Q. No. 5, 6 & 7) (4x5=20)

- Q. 5.
 - a) Explain Kent's observation 1-4
 - b) Explain Kent's observation 4-8
 - c) Explain Kent's observation 8-12
 - d) Define Homoeopathic aggravation.
- Q. 6. a) Explain Psora as deficiency according to Dr. Roberts

- b) Mentals of Psora
- c) Skin symptoms of Psora
- d) Heart & GIT Symptoms of Psora.

Q. 7. Describe Potentization under following headings according to Dr. Stuart Close.

- a) Explain potentization & infinitesimal dose
- b) What is meant by law of Maupertius & Fincke.
- c) What are the examples of Natural potentization
- d) Utility of potentization.

SECTION – A (SAQ)

Q. 1. Write appropriate answer Any 10 out of 15 (10x2=20)

- a) Dr. Hahnemann’s instructions about case taking - §83
- b) General symptom-definition and types.
- c) Regional Repertory – definition and examples.
- d) Explain “Speech” main rubric of Kent’s Repertory.
- e) Repertory – Definition and history of word “Repertory”
- f) Repertorisation- definition and methods.
- g) Clinical general repertory – Definition and examples.
- h) First original French Repertory – year and name of author
- i) First English repertory – name of the author & Repertory
- j) Totality of symptoms – definition

k) Classify the repertory “Time and moon phases” – By Dr. C. M. Boger.

l) Rubric – definition and word meaning.

m) Eliminating symptom – definition

n) Pathological general – definition and examples

o) “Fragmenta de viribus medicamentorum positives ----“

- year of publication and total No. of remedies.

- in second part.

Q. 2. Write short answer (any 4 out of 6) (4x5=20)

a) Scope & limitation of Repertory

b) Steps of repertorisation

c) Prescribing symptoms

d) Dr. Boger’s concept of TOS

e) Homopath software

f) Old and new techniques of repertorisation.

Q. 3. Write short answer (any 4 out of 6) (4x5=20)

a) Bell’s diarrhoea

b) Boericke’s Repertory

c) Borland’s Pneumonia

d) The therapeutics of intermittent fever- Dr. H. C. Allen

e) Evaluation of symptoms

f) Synthesis

Q. 4. Long answer Question (any 2 out of 4) (2x10=20)

a) Dr. Jugal Kishore’s card Repertory

b) Record keeping (Record keeping)

c) Difficulties in taking chronic case

d) Relation of Repertory with HMM & Organon

Long answer question (any 1 from Q. No. 5, 6 & 7) (20 Marks)

Q. 5. Write in details BTPB under following headings.

a) Historical evolution

b) Philosophical background

c) Plan and construction

d) Section : “ Relationship of remedies”

Q. 6. Write in detail BCCR under following headings

a) Classification & Sources of “Repertory” Part.

- b) Philosophical background
- c) Plan and construction
- d) Section : “ Sensation & Complaints”

Q. 7. Write in detail historical evolution of repertory under following headings

- a) Dr. Hahnemann’s Repertory
- b) Era of Regional Repertory
- c) Post Kentian Repertory
- d) Card Repertory

- a) Limitations of Homoeopathy
- b) What has Homoeopathy to offer to young man?
- c) Theory of chronic disease
- d) Dakes Prepositions

- e) Kent's Observations from 1-5
- f) Fundamental laws given by Dr. Roberts.

Q. 4. Long answer Question. Write any 2 (2x10=20)

- a) Describe 'Sick'
- b) Give in detail qualities of simple substance
- c) Describe Kent's concept of psora. Describe important features of Psora as deficiency
- d) potentization is strength & weakness. Explain as given by Dr. Stuart close

LAQ (any 1 from Q. 5, 6 & 7) (4x5=20)

- Q. 5. a) What are meant by remedy reaction? What is Homoeopathic aggravation give its types
 b) What is medicinal aggravation?
 c) What is disease aggravation?
 d) What is arrested progress, relapse & facilitation.

- Q. 6. a) Give in detail account of spread of Homoeopathy to India
 b) Give in detail contributors in the field of Homoeopathy in Maharashtra
 c) Homoeopathic concept of health
 d) WHO'S concept of Health & factor modifying health

- Q. 7. a) What is general pathology of Homoeopathy?
 b) Doctrine of latency
 c) Metastasis
 d) Toxicological theory of disease

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD
1st Term End EXAMINATION (2013 – 2014 Batch)
YEAR:- IV B.H.M.S.

Marks 50	Sub:- Repertory	Time 1 ½ Hrs.
--------------------	------------------------	-------------------------

Instructions:-

- 1) All Question carry equal Marks.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.

5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

SECTION – A (SAQ)

- Q. 1. Write appropriate answers (Any 5 out of 9) (5x2=10)
- a) Qualities of Homoeopathic physician - §83
 - b) Define Repertory
 - c) Define General symptom
 - d) Clinical Repertory
 - e) Define Rubric
 - f) Define Repertorisation
 - g) Meaning of Rubric “libertinism”
 - h) Concomitant symptom
 - i) Don't of case taking
- Q. 2. Write short answer (2 out of 4) (5x2=10)
- a) Dr. Kent's Repertory – Plan & Construction
 - b) Steps of Repertorisation
 - c) Software – Radar
 - d) Total addition & eliminating process of Repertorisation
- Q. 3. Long Answer Question (any 1 out of 2) (1x10=10)
- a) Phatak's Repertory & Boger's synoptic key
 - b) Describe relationship between Repertory, Materia Medica & Organon
- Q. 4. Long answer question (any 1 out of 3) (1x20=20)
- a) Write down BTPB under following headings
 - i) Philosophical background
 - ii) Plan & construction
 - iii) Difference between original & Allen's edition
 - iv) SECTION “Sensation & complaint”
 - b) Write down BBCR under following headings
 - i) Philosophical Background
 - ii) Plan & construction
 - iii) Advantages & limitations
 - iv) “Fever” section
 - c) Write down Historical evolution of Repertory under following headings.
 - i) Dr. Hahnemann's Repertory
 - ii) Pre Kentian Repertory
 - iii) Card Repertory
 - iv) Computer Repertory

Instructions:-

- 1) All Question carry equal Marks.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.

5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q.1 Write in short (any 10 out of 15) 10 X 2 = 20

- (a) Vincent's angina. (b) Differences between Carotinaemia and Jaundice
- (c) Definition of Bronchiectais (d) Four clinical features of hypervitaminosis D
- (e) Four causes of Gastric ulcer. (f) Four clinical features of Patau's syndrome
- (g) Four causes of Malena. (h) Four clinical features of Pituitary Dwarfism
- (i) Heaf test in Tuberculosis (j) Definition of SLE
- (k) Four causes of Acute respiratory Failure
- (l) Four clinical features of Wet Beriberi (m) Four causes of Hyperthermia
- (n) Four types of Cyanosis (o) Four causes of Malnutrition

Q.2 Write short answers of the following: (any 4) 4 X 5 = 20

- (a) Clinical features of Grave's Disease
- (b) Definition and Clinical features of chronic Bronchitis
- (c) Clinical features and management of Frost bite
- (d) Etiology and Clinical features of Diverticulitis
- (e) Klinefelter's syndrome (f) Clinical features of Measles

Q.3 Write Short notes on: (any 4) 4 X 5 = 20

- (a) Clinical features and management of Dengue fever
- (b) Kwashiorkar
- (c) Clinical features and management of Hypothermia
- (d) Folic acid deficiency
- (e) Differential diagnosis of Peritonitis
- (f) Etiology and Clinical features of Down's Syndrome

Q.4 Write in Brief about: (any 2) 2 X 10 = 20

- (a) Describe in detail about Etiology, Pathogenesis, Pathology, Clinical features and Management of Pleural effusion.
- (b) Describe in detail about Etiology, Pathology, Clinical features and investigations of Cushing's disease.

(c) Describe Inflammatory Bowel Disease in detail.

(d) Describe Autoimmune disorder 'Rheumatoid Arthritis in detail.

Write long answer Question any 1 from Q.5, Q.6, and Q.7 (1 X 20 = 20)

Q.5 Describe in detail about Etiology, Pathogenesis, Types, Clinical features
Investigations of Diphtheria.

Q.6 Describe in detail about Obesity.

Q.7 Describe in detail Etiology, Pathophysiology, Clinical features and management of Chronic Respiratory
Failure.

been done.

Q.1 Any 10 out of 15 (2x10 = 20)

- a) Mention criteria for the diagnosis of rheumatoid arthritis (at least 4)
- b) Define cardiac failure
- c) What are the features suggestive of severity of mitral stenosis.
- d) What is sickle cell trait and sickle cell anaemia.
- e) Mention 4 types of glomerulonephritis
- f) What is spider naevi? What is its significance?
- g) What are the features of tetralogy of Fallots?
- h) What are the types of schizophrenia?
- i) Mention 4 important characteristics of Psoriatic lesions.
- j) Mention 4 causes of proteinuria
- k) Mention 4 important causes of cirrhosis of liver.
- l) Clinical features of psychosis
- m) What are 4 important features of lesions of primary syphilis.
- n) Write 4 causes of hypertonia of muscle
- o) What is waddling gait? Mention 2 causes.

Q. 2. Answer following question any 4 out of 6 (4x5=20)

- a) Explain osteoporosis
- b) Explain ventricular ectopic beats
- c) Explain tinea versicolor
- d) Explain personality disorders
- e) Describe Minimal change glomerulopathy
- f) Explain ascites

Q. 3. Answer any 4 out of 6 (4x5=20)

- a) Explain c/f, investigations of ureteric stone
- b) Describe hepatitis A
- c) Describe urticaria
- d) Apgar score
- e) Viral meningitis
- f) Osteo arthritis.

LAQ

Q. 4. Any 2 out of 4 (2x10=20)

- a) What is cyanosis? What are the types & causes of cyanosis & how will you clinically differentiate types of cyanosis.
- b) Ankylosing spondylitis.

- c) Define diarrhoea what are the various causes of acute diarrhoea in children
 d) Describe aetiology, histopathology, c/f of atopic eczema.

Any 1 from Q. No. 5, 6 & 7

(20 marks)

- Q. 5. Describe parkinsonism under following heading
 a) Aetiology b) Pathology & Pathophysiology
 c) c/f d) Investigation & management
- Q. 6. Hodgkin's lymphoma
 a) Aetiology b) Pathology & Pathophysiology
 c) c/f d) Investigation & management
- Q. 7. Mitral regurgitation
 a) Aetiology b) Pathology & Pathophysiology
 c) c/f d) Investigation & management

Q.1 Any 10 out of 15

(2x10 = 20)

- a) Causation - Anacardium
 c) 2 GIT symptoms - Phos.

- b) Pathophysiology - Actea racemosa
 d) 2 keynote - Borax

- e) 2 Indications - Bromium
- g) Sphere of action - Fer. Met
- i) Causation - Ignatia
- k) Common Name – Bufo Rana
- m) Discharge - Graphites
- o) 2 Generalities - Belladonna

- f) 2/2 (< / >) - Conium Mac.
- h) Pathophysiology - Gelsimium
- j) 2/2 (</>) - Baryta Carb
- l) Constitution – Calc. Carb
- n) Tongue - Merc. Sol.

Q. 2. Write any 4 (4x5=20)

- a) Phy. Gen. - Hep. Sulf.
- b) Modalities - Nat. Carb
- c) Guiding Ind. - Opium
- d) Sphere of action - Lachesis
- e) Phy. Gen. - Acid Phos
- f) Guiding Ind. – Plb. Met.

Q. 3. Write any 4 out of 6 (4x5=20)

- a) Indication of Physostigma in eye ball disorders
- b) Indication of Pic. Acid in spinal disorder
- c) Indication of Podophyllum in GIT. c/o
- d) Indications of Petroleum in skin c/o
- e) Indication of Anacardium in GIT c/o
- f) Mind - Ignatia

Q. 4. Any two compare / contrast (Any 2) (10x2=20)

- a) Heart c/o - Digitalis and Cactus G.
- b) Renal Colic – Tabacum and Berb. Vul
- c) Typhoid fever – Baptisia and Acid Phos

d) Mind - Hyoscymus and Stramonium

Any one from Q. No. 5, 6 & 7

(20 marks)

Q. 5. D. P. of Ignatia under following heading

a) Clinical / Non clinical information

b) Guiding indications

c) Applied Materia Medica

d) Modalities

Q. 6. D. P. of Lyco under following heading

a) Clinical / Non clinical information

b) Guiding indications

c) Applied Materia Medica

d) Modalities

Q. 7. D. P. of Calc. Flour. under following heading

a) Clinical / Non clinical information

b) Guiding indications

c) Applied Materia Medica

d) Modalities

f) Word meaning of rubric i) Insolent ii) Capriciousness

g) Define – eliminating symptom

h) Define – complete symptom

i) Name and year of publication of any four regional Repertory

j) Define – Repertorial analysis & Repertorial totality

k) Name any four clinical general Repertory

l) Define – Totality of symptom

m) Name and year of publication of any two puritan repertory

n) Define – Repertorization

o) Name and year of publication of any four card Repertory.

Q. 2. Write short answers (any 4 out of 6) (4x5=20)

a) Scope and limitation of Repertory

b) Steps of Repertorization

c) Total addition and eliminating process of repertorization

d) Homoeopathic software – RADAR

e) Dr. Boger's concept of totality

f) Prescribing symptom

Q. 3. Write short answers (any 4 out of 6) (4x5=20)

a) Plan and construction, year of publication and special features of Bell's diarrhea.

b) Historical evolution, classification, plan and construction of Allen's fever

c) Conceptual image

d) Berridge's eye Repertory

e) Borland's pneumonia

f) Analysis of symptom

Q. 4. Long answer question (any 2 out of 4) (2x10=20)

a) Difference between Gentry's concordance repertory and dr. Knerr's the Repertory to Hering's guiding symptoms.

b) Write in detail Historical evolution of card Repertory

c) Relationship between Repertory, HMM, Organon & therapeutics.

d) What are the difficulties in taking chronic case?

Long answer question (any 1 from Q. No. 5, 6 & 7) (4x5=20)

Q. 5. a) Need of Repertory b) Hahnemann's Repertory and early Repertory

c) Era of Regional Repertory d) Kent's and post Kentian Repertory

- Q. 6. a) Sources and classification of BBCR b) Plan and construction of BBCR
 c) Special features of BBCR d) "Sensations and complaints" section of BBCR
- Q. 7. a) Historical evolution and classification of BTPB b) Plan and construction of BTPB
 c) Difference between original & Allen's edition d) "Mind Rubrics" of BTPB.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

PRELIMINARY EXAMINATION (May - 2014)

YEAR:- IV B.H.M.S. (Odd)

Marks 100	Sub:- Community Medicine	Time 3 Hrs.
----------------------------	---------------------------------	------------------------------

Instructions:-

- 1) All Question carry equal Marks.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

- Q. 1. Write appropriate answers of following (any 10 out of 15) (10x2=20)
- a) What are functions of Community Medicine?
 - b) Name modes of intervention
 - c) Classify Human reservoir
 - d) Write significance of incubation period
 - e) Name cold chain equipments
 - f) Write principle of chlorination
 - g) mention types of ventilation
 - h) Write types of purification in storage of water
 - i) What are preventive measures for airpollution
 - j) Mention steps in descriptive epidemiology.
 - k) Write features of cohort study.
 - l) Name things added in cereals & milk for adulteration

- m) Classify arthropods
- n) Write the functions of PHC
- o) Name four voluntary health organization.

Q. 2. Write answer any 4 (4x5=20)

- a) Determinants of health b) Iceberge phenomena
- c) Levels of prevention
- d) Modes of transmission of infection
- e) Immunity of vaccination
- f) Vaccination

Q. 3. Write answer any 4 (4x5=20)

- a) Pneumoconiosis b) Gen measure of occupational health
- c) ESIS d) Lead poisoning
- e) Principle in health education f) Teaching method of health education to group

Q. 4. Write answer any 2 (10x2=20)

- a) Maternal mortality measures & causes.
- b) Infant mortality causes & prevention
- c) School health services
- d) Demographic cycles

Write any 1 from Q. No. 5, 6 & 7 (20 marks)

Q. 5. a) Safe water definition & characteristics

- b) Sources of water
- c) Water Hazzards.
- d) filteration of water.

Q. 6. a) Solid waste classification

- b) Composting method of solid waste disposal
- c) Septic tank
- d) Oxidation pond

Q. 7. a) Community Nutrition programmes

- b) Vitamin – D
- c) IUD method
- d) Hormonal Method.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD
1st Term End EXAMINATION (Nov. 2014 Batch)
YEAR:- IV B.H.M.S.

Marks	Sub:- Repertory	Time
50		1 ½ Hrs.

Instructions:-

- 1) All Question carry equal Marks.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

SECTION – A (SAQ)

- Q. 1. Write appropriate answers (Any 5 out of 8) (5x2=10)
- a) Define i) Repertory ii) Repertorisation
 - b) Classify following Repertory
 - i) Repertory of sensations as if ii) Borland’s pneumonia
 - iii) Repertory on Biochemic remedies iv) RADAR
 - c) Write the appropriate section, subsection of BTPB-for the rubric
 - i) Mammary gland ii) Plethora
 - d) Word meaning & definition of “Rubric”
 - e) Write down the requisites for case taking as in § 83
 - f) Year of publication and total no. of remedies of
 - i) Bell’s Diarrhoea ii) Knerr’s Repertory
 - g) Define i) Totality of symptom ii) Eliminating symptoms
 - h) Name i) process ii) Techniques of repertorisation.
- Q. 2. Write short answer (any 2 out of 3) (2x5=10)
- a) Scope & limitations of Repertory
 - b) Borland’s pneumonia
 - c) Concept of TOS of Kent’s Repertory
- Q. 3. Long answer Question (Any 1 from 2)
- a) Relationship of Repertory with organon, HMM & Clinical practice.
 - b) Difficulties in taking chronic case.
- Q. 4. Long answer question (Any 1 from 2) (4x5=20)
- a) Write down BTPB under following headings

- i) Philosophical background & TOS ii) Plan & construction
 iii) Historical evolution & classification iv) Difference between original & Allen's edition.
- b) Write down historical evolution of Repertory under following headings
 i) Early repertories ii) Kent & contemporaries & Regional repertories
 iii) Post Kentian Repertory iv) Computer based software programmes.

1st Term End EXAMINATION (Nov. 2014 Batch)

YEAR:- IV B.H.M.S.

Marks 100	Sub:- Organon of Medicine	Time 3 Hrs.
----------------------------	----------------------------------	------------------------------

Instructions:-

- 1) The number to the **right** indicates **full** marks.
- 2) Draw diagrams **wherever** necessary.
- 3) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 4) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q. 1. Write Appropriate answer (any 10 out of 15) (10x2=20)

- a) what is meant by dominant miasm & fundamental miasm?
- b) Which pillars of Medicine did Paracelsus believe in?
- c) Define idiosyncrasy given in apho. 117
- d) What is meant by 'Repeatation of first prescription' in second prescription
- e) What are basic & determinative symptoms?
- f) What is 'pathologicalGeneral" symptoms?
- g) What is 'Inner world' according to Dr. Kent?
- h) Intercurrent remedy – define
- i) Define complementary remedy with examples
- j) What do you mean by 'Old symptoms return'
- k) 4 contributions of Mesopotamian medicine
- l) 3 contributions of Rhazes & Avicenna each
- m) Define Homoeopathic aggravation
- o) Define logic & its types.

Q. 2. Write short notes on (any 4 out of 6) (4x5=20)

- a) Contributions of Dr. Hahnemann.
- b) Spread of Homoeopathy to india

- c) Explain Egyptian medicine d) what is analysis & evaluation, explain Kent's view
e) What is law & government from centre according to Dr. Kent f) Indisposition

Q. 3. Write short notes on (any 4 out of 6) (4x5=20)

- a) Kent's concept of 'sick' b) Kent's concept of simple substance
c) Individualization & characteristic symptoms d) Fundamental laws of Dr. Roberts
e) Kent's 1-4 observation f) Koct's postulates

Q. 4. Write any 2 out of 4 (10x2=20)

- a) What is prophylaxis explain
b) What is simple substance
c) What is suppression & palliation
d) what are indications & contraindications of high potency

Q. 5. LAQ any 1 out of Q. No. 5, 6 & 7 (20 Marks)

Explain renaissance period

- a) Renaissance Age – describe Era
b) Describe features of Renaissance Era
c) Give contributions of Leonardo-da-vinci
d) Give contributions of Lord bacon

Q. 6. Describe susceptibility under following points

- a) Definition of susceptibility. What is increased & decreased susceptibility
c) Factors affecting susceptibility.
c) It plays important role in which factors?
d) Kents view of susceptibility

Q. 7. What are remedy reactions discuss under following heading

- a) Give different types of remedy reaction
b) what is status Ques.?
c) What is Homoeopathic aggravation
d) What is diseased aggravation.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

SECTION – A (SAQ)

- Q. 1. Write appropriate answers (Any 10 out of 15) (10x2=20)
- | | |
|--------------------------------|---------------------------------------|
| a) Constitution of sepia | b) Common name & sources of Cantharis |
| c) leucorrhoea of Carboic Acid | d) Name of 4 remedies from nosodes |
| e) Constipation Lac. Deflo | f) Common name / source of Nux. Mosch |
| g) Constipation – Bryonia | h) A.F. – Cinchona |
| i) Laryngitis – Allium CEPA | j) Rheumatism – RHUS. TOX |
| k) Cough – STAN. MET | l) Discharge – Calc. Phos |
| m) Defination – H.M.M. | n) Constitution – Ammonium Carb |
| o) Discharge – Ars. Alb. | |

- Q. 2. Write short answers (Any 4 out of 6) (4x5=20)
- a) Phy. Generals of Hepar Sulf
 - b) Sphere of action of Lachesis
 - c) Biochemic indication of Calc. Sulf
 - d) Phy. Gneral of Bryonia
 - e) Liver complaints - Chelidonium
 - f) Skin c/o Graphits.

- Q. 3. Write short answers Any 4 out of 6) (4x5=20)
- | | |
|--------------------------------------|-------------------------|
| a) Cholera – Cup. Met | b) Child – Chamomilla |
| c) Oldage c/o – Carbo. Veg. | d) Fever - Pyrogenium |
| e) Guiding indications Merc. Cynatus | f) Arg. Nit- G.I.T. c/o |

- Q. 4. L.A.Q. (Any 2 out of 4) (4x5=20)
- a) Injury – Bellis per & Hypericum
 - b) Compare heart c/o – Gelcimum & Digitalis
 - c) Constipation – Allumina & Nux.Vom.
 - d) Headache – Silicea & Spigelia

- Q. 5. L.A.Q. (Any 1 out of 2) (20 Marks)

Define H.M.M. explain clinical type of M.M. explain group study way of M.M. with examples.

OR

Describe the drug picture of Pyrogenium under the following heading

- a) Introduction
- b) Guiding sign / Symptoms
- c) Mentals
- d) Important particulars & modalities

Instructions:-

- 1) All Question carry equal Marks.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q. 1. Write appropriate ans (any 10 out of 15) (10x2=20)

- a) Define pleurisy. Write 4 important clinical features of pleurisy.
- b) What is cor-pulmonale? Write 4 causes of it.
- c) Write 4 respiratory causes of central cyanosis.
- d) Write 4 clinical features of leptospirosis.
- e) Write 4 complications of mumps.
- f) Write 4 causes of chielosis
- g) What is steatorrhoea? What is the clinical significance of it.
- h) Indications of ERCP.
- i) Physiological effects of insulin in males
- j) Clinical significance of serum TSH level
- k) Write 4 causes of Cushing's syndrome
- l) Explain hypoglycaemia.
- m) Causes of ulcerative colitis.
- n) Effects of vitamin B₁ deficiency.
- o) Clinical features of acute mountain sickness.

Q. 2. Write short answer (any 4 out of 6) (5x4=20)

- | | |
|--|-------------------------------|
| a) Acute laryngitis | b) Osteomalacia |
| c) Aetiology and complications of hyperparathyroidism. | d) Gastro intestinal bleeding |
| e) Humoral immunity | f) Measles. |

Q. 3. Write short ans (any 4 out of 6) (5x4=20)

- a) Investigations in acute bronchial asthma

- b) Classification of anaemia
- c) Diabetic ketoacidosis.
- d) Acute pancreatitis
- e) Heat stroke
- f) Autoimmune diseases.

LAQ

(40 Marks)

Q. 4. Long answer questions (any 2 out of 4)

(10x2=20)

- a) Pellagra
- b) AIDS
- c) Enteric fever
- d) Pleural effusion.

Long answer question (any 1 from Q. No. 5, 6 & 7)

(20 marks)

Q. 5. Describe malaria in detail under following heads.

- a) Aetiology & Pathology
- b) Clinical features
- c) Investigations & DD
- d) Management & prevention

Q. 6. Describe irritable bowel disease under following heads.

- a) Aetiology
- b) Clinical features
- c) Diagnosis
- d) Management

Q. 7. Describe grave's disease under following heads.

- a) Aetiology
- b) Patho physiology
- c) Clinical features
- d) Investigations

Instructions:-

- 1) All Question carry equal Marks.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.

Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q. 1. Write appropriate ans (any 10 out of 15) (10x2=20)

- a) Describe plantar reflex
- b) What is Austin flint murmur? In which condition it is observed?
- c) What is orthostatic proteinuria?
- d) What are the grades of muscle power?
- e) What is pulse pressure? Give 2 causes of increased pulse pressure.
- f) What is renal osteodystrophy?
- g) What is spider telangiectasia? What is its clinical significance?
- h) Four causes of increased jugular venous pressure.
- i) Name four LFTSs with their normal values.
- j) What is the causative organism of lymphogranuloma venereum.
- k) Explain Fallot's spells.
- l) Describe lesions of lichen plannus.
- m) What is bulimia nervosa?
- n) What is Philadelphia chromosome? Which disease is caused due to it?
- o) Write four causes of osteoporosis.

Q. 2. Write short answer (any 4 out of 6) (4x5=20)

- a) Explain focal and segmental glomerulosclerosis
- b) Describe hyponatraemia
- c) Write mile stones in the development of first year of child.
- d) Describe aetiology and clinical features of primary syphilis.
- e) Osteomyelitis.
- f) Third and fourth heart sounds

Q. 3. Write short answer (any 4 out of 6) (4x5=20)

- a) Describe trigeminal neuralgia
- b) Explain vesico ureteric reflux

- c) Describe impetigo
- d) Explain acute hepatitis – A
- e) Explain neonatal jaundice
- f) Explain schilling test

LAQ

(40 Marks)

- Q. 4. Long answer questions (any 2 out of 4) (2x10=20)
- a) Aetiology, clinical features, investigations of acne vulgaris.
 - b) Describe causes, clinical features & investigations of chronic interstitial nephritis.
 - c) Explain unstable angina
 - d) Describe post traumatic stress disorder

Long answer question (Any 1 from Q. NO. 5, 6 & 7)

(20 Marks)

- Q. 5. Describe Aetiology, Pathology, clinical features and investigation of Alzheimer's disease.
- Q. 6. Describe aetiology, Pathophysiology and clinical features of heart failure.
- Q. 7. Describe Aetiology, clinical features, staging, investigations of chronic lymphocytic leukaemia.

- 1) All Question are Compulsory.
 - 2) All Question carry equal Marks.
 - 3) The number to the right indicates full marks.
 - 4) Draw diagrams wherever necessary.
 - 5) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

- Q. 1. Answer any 5 out of 8 (05x2=10)
- a) Word Meaning & Definition of Repertory
 - b) Word Meaning & Definition of Rubric
 - c) Define Cross Reference
 - d) Define Repertorization

- e) Define Complete Symptom
- f) Define Negative General
- g) Classification of Bell's Diarrhea
- h) §83

Q. 2. Write short answers (any 2 out of 4) (2x5=10)

- a) Borland's Pneumonia
- b) Steps of Repertorization – Schematic Presentation.
- c) BSK
- d) Berridge's eye repertory.

Q. 3. Write long answer (any 3 out of 5) (3x10=30)

- a) Scope & Limitations of Repertory
- b) Difficulties while taking a chronic case
- c) Historical Evolution of Dr. Hahnemann's & his Student's Repertory & also Boenninghausen's several repertories.
- d) Write in detail about Phatak's Repertory
- e) RADAR and its clinical applications.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

1st TERM END EXAMINATION (Nov. 15)

YEAR:- IV B.H.M.S.

Marks 50	Sub:- Medicine – I	Time 1 ½ Hrs.
--------------------	---------------------------	-------------------------

- Instructions:-**
- 1) All Question are Compulsory.
 - 2) The number to the right indicates full marks.
 - 3) Draw diagrams wherever necessary.
 - 4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q. 1. Write shot answer any 5 out of 8 (05x2=10)

- a) Write 4 causes of pleuritis.
- b) Write 4 causes of emphysema.
- c) Write the causes of Exertional dyspnoea.
- d) Write etiology & c/f of scabies.
- e) Write 4 causes of upper gastro-intestinal tract bleeding.
- f) Write 4 causes of weight loss in lower gastro-intestinal tract bleeding.
- g) Write names of 4 autoimmune diseases.
- h) Write clinical significance of antibodies.

- Q. 2. Write short answers (any 2) (2x5=10)
- Describe sore throat
 - Describe etiopathogenesis of COPD.
 - Explain indications of investigations; Barium-swallow, Barium meal, Barium follow through, Barium enema.
 - Explain dysphagia under its classification.

LAQ

- Q. 3. Long answer question (any 1) (1x10=10)
- Explain, Etiology, Pathology, clinical features of bronchiectasis.
 - Describe amoebic dysentery
- Q. 4. Write in details (any 1) (1x20=20)
- Describe CA gastrum under
 - Etiology with risk factors
 - Pathology
 - Clinical features
 - Management.
 - Describe bronchial asthma, under following heads.
 - Etiology
 - Pathology, iii) Clinical features
 - iv) Management

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

1st TERM END EXAMINATION (Nov. 15)

YEAR:- IV B.H.M.S.

Marks 50	Sub:- Medicine – II	Time 1 ½ Hrs.
--------------------	----------------------------	-------------------------

- Instructions:-**
- All Question are Compulsory.
 - The number to the right indicates full marks.
 - Draw diagrams wherever necessary.
 - Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

- Q. 1. Write appropriate answers (Any 10 out of 15) (10x2=20)
 - a) Constitution of sepia
 - b) Common name & sources of Cantharis
 - c) leucorrhoea of Carbolic Acid
 - d) Name of 4 remedies from nosodes
 - e) Constipation of Nux vom.
 - f) Common name / source of Nux. Mosch
 - g) Constipation – Bryonia
 - h) A.F. – Cinchona
 - i) Laryngitis – Allium CEPA
 - j) Rheumatism – RHUS. TOX
 - k) Cough – Ant. Tart.
 - l) Discharge – Calc. Phos
 - m) Defination – H.M.M.
 - n) Constitution – Medorrhinum
 - o) Discharge – Psorinum.

Q. 2. Write short answers (Any 4 out of 6)

(4x5=20)

- a) Phy. Generals of Hepar Sulf
- b) Sphere of action of Lachesis
- c) Biochemic indication of Calc. Sulf
- d) Phy. General of Bryonia
- e) Liver complaints - Chelidonium
- f) Skin c/o Graphits.

Q. 3. Write short answers (Any 4 out of 6)

(4x5=20)

- a) Cholera – Cup. Met
- b) Child – Chamomilla
- c) Oldage c/o – Carbo. Veg.
- d) Fever - Pyrogenium
- e) Guiding indications Merc. Cynatus
- f) G.I.T. c/o – Arg Nit.

Q. 4. Compare & contrast (Any 2 out of 4)

s

(4x5=20)

- a) Injury – Bellis per & Hypericum
- b) Heart c/o – Gelsimium & Digitalis
- c) Constipation – Allumina & Opium.
- d) Headache – Silicea & Spigellia

Q. 5. L.A.Q. (Any 1 out of 2)

(20 Marks)

Define

H.M.M. & Explain clinical types of M.M., Explain group study way of M.M. with examples.

OR

Describe the drug picture of Pyrogenium under the following heading

- a) Introduction
- b) Guiding sign / Symptoms
- c) Mentals
- d) Important particulars & modalities

 - 3) The number to the right indicates full marks.
 - 4) Draw diagrams wherever necessary.
 - 5) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

Q. 1. Write appropriate answers (any 10) (10x2=20)

- a) Define Hom. Materia Medica.
- b) Pains – Glonoine
- c) Causetion – Lyssin
- d) Discharge / sensation – Anthracinum
- e) Constitution – Calcarea Carb baby
- f) Mind – Chamomilla
- g) Common names and family – Euphresia
- h) Cough – Stan. Met.
- i) Causetion – Collinsonia
- j) Modalities – Rhus. Tox.
- k) Lithium Carb – Joint c/o
- l) Discharge and pain – Allium Ceba
- m) Modalities – Bryonia
- n) Causetion – Carbo. Anamalis
- o) Discharge – Calc. Phos.

Q. 2. Write short answers (4 out of 6) (4x5=20)

- a) Phy. Gen. Nux. Vom.
- b) Giding indications Bryonia
- c) Biochemic Indications – Nat. Phos
- d) Modalities (3/3) – Colochicum Aut.
- e) Phy. Gen. – Eup. Per.
- f) Phy. Gen. – Aconitum N.

Q. 3. Short answers (any 4 out of 6) (4x5=20)

- a) Fer. Phos. – in Anemia
- b) Indications of Psorinum – in skin c/o

- c) Indications of Rhodo – in Orchitis
- d) Indications of Sepia – in female c/.o
- e) Spigelia in migraine
- f) Ver. Vir. In hypertension.

Q. 4. Any 2 out of 4 (2x10=20)

- a) Injury Calendula and Nat. Sulph.
- b) R.T. c/o Ant. Tart. And Lob. Infl.
- c) Haemorrhoids Rathania and collinsonia
- d) Discuss remedy relationship in detail.

Write any 1 out of Q. No. 5, 6 & 7 (20 Marks)

Q. 5. Definition of Materia Medica – types of Materia Medica different ways of studying Materia Medica – sources of Materia Medica

Q. 6. Describe drug picture of ‘Silicea’ under following heading – clinical – non clinical information, guiding indications – applied Materia Medica and modalities.

Q. 7. Describe drug picture of ‘Capsicum’ under following heading. information, guiding indications – applied Materia Medica and modalities.

As it is only for the placement sake, the distribution has been done.

Q. 1. Write appropriate answers (any 10 out of 15) (10x2=20)

- a) Indications of Spongia in whooping cough.
- b) Indications of Natrum Sulph in asthma.
- c) Indications of Belladonna in acute tonsillitis
- d) Indication of Robinia in hyperchlorohydia.
- e) Indications of Capsicum in pyrosis.
- f) Indications of Dulcamara in diarrhea.
- g) Indications of Rhus Tox in chicken pox
- h) Indications of Nux Vomica in jaundice
- i) Indications of Kreosotum in scurvey
- j) Indications of Calc. Phos in Malnutrition
- k) Indications of Nat. Mur in hyperthyroidism.
- l) Belladonna in exophthalmic goiter
- m) Nat. Carb in heat stroke
- n) Apis Mel in lymphangitis
- o) Ceanothus in spleen affections.

Q. 2. Any 4 out of 6 (4x5=20)

- a) Pneumonia of Ferrum Phos.
- b) Marasmus of Sanicula.
- c) Pellegra of Bovista.
- d) Peritonitis of Apis Mel.
- e) Urticaria of Rhus Tox.
- f) Furuncle of Hepar Sulph.

Q. 3. Any 4 out of 6 (4x5=20)

- a) Write indication of Nat. Mur in Thyrotoxicosis.
- b) Write indication of croton tig in scabies.
- c) Indication of Ars. brom in Diabetes.
- d) Give indications of Abrotanum in Marasmic disease.
- e) Mercurius in lymphatic affections.
- f) Indications of Natr. Carb in Bronchial asthma.

- Q. 4. Long answer Question (any 2 out of 4) (2x10=20)
- a) Write indications of Aur. Met & Baryta mur in Hypertension.
 - b) Write indications of Abisinthium & Aethusa cynapium in Grand mal epilepsy.
 - c) Indications of Ars. alb & phos in Proteinuria.
 - d) Indications of Gnaphalium & Guaicum in sciatica.

Long answer question any 1 from Q. No. 5, 6 & 7 (20 marks)

- Q. 5. Write Homoeopathic approach in treatment of Hemiplegia under following heads.
- a) Scope & limitations.
 - b) Acute prescribing
 - c) Chronic prescribing
 - d) Auxillary / preventive measures, & indications of two important remedies for the same.
- Q. 6. Write Homoeopathic approach in the treatment of Heart failure with LVH under following heads.
- a) Scope & limitations.
 - b) Acute prescribing
 - c) Chronic prescribing
 - d) Auxillary / preventive measures, & indications of two important remedies for the same.
- Q. 7. Describe Homoeopathic approach in treatment of (PAN) i.e. polyarthritis nodosa under following heads.
- a) Scope & limitations.
 - b) Acute prescribing
 - c) Chronic prescribing
 - d) Auxillary / preventive measures, & indications of two important remedies for the same.

- e) Important features of Syphilitic miasm.
- f) Palliation.

Q. 3. Write short answer (any 4 out of 6) (4x5=20)

- a) Symptoms of Psora.
- b) Law of Minimum.
- c) Primary & Secondary action.
- d) Prophylaxis.
- e) Potentization.
- f) Idiosyncrasy.

Q. 4. Long answer questions (any 2 out of 4) (2x10=20)

- a) Decreased susceptibility - Explain.
- b) Types of acute diseases - Discuss.
- c) Describe Concept of health factors affecting health.
- d) Describe Posology in detail.

Long answer question (Any 1 from Q. NO. 5, 6 & 7) (20 Marks)

Q. 5. Describe susceptibility as

- a) It plays important role in which areas.
- b) Factors affecting susceptibility.
- c) Susceptibility & Drugs.
- d) Susceptibility & Remedies.

OR

Q. 6. Describe following systems of medicine with their merits & demerits

- a) Antipathy .
- b) Isopathy.
- c) Homoeopathy.
- d) Allopathy.

OR

Q. 7. Describe in short.

- a) Totality of symptoms.
- b) Individualization.
- c) Case Taking.
- d) Drug proving.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

1st TERM END EXAMINATION (May. 16)

YEAR: - IV B.H.M.S.

Marks 50	Sub:- Community Medicine	Time 1 ½ Hrs.
---------------------------	---------------------------------	--------------------------------

- Instructions:-**
- 1) All Questions are Compulsory.
 - 2) The number to the right indicates full marks.
 - 3) Draw diagrams wherever necessary.
 - 4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

- Q. 1. Write appropriate answer (any 5) (5x2=10)
- a) Define Epidemiology & write its aims.
 - b) Complications of Plasmodium Falciparum Malaria.
 - c) Objective of health Education.
 - d) Define Census.
 - e) Give Dimensions of health.
 - f) What is Fertility?
 - g) Write investigations for diagnosis of AIDS.
 - h) Clinical classification of Dengue infection.

- Q. 2. Write short notes (any 4) (4x5=20)
- a) Demography.
 - b) Obesity.
 - c) Control of AIDS.
 - d) Dog bites treatment.
 - e) Types of Communication
 - f) Holistic concept of Health.

Long Answer Questions (any 2) (2x10=20)

- Q. 3. What is Epidemiology? & write in detail about Descriptive Epidemiology.
- Q. 4. Write in detail about CVD.
- Q. 5. Define Epidemiology & control of Malaria.
- Q. 6. Define Health. Write in detail about determinants of Health.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD
PRELIMINARY EXAMINATION (Nov - 2016)
YEAR: - IV B.H.M.S.

Marks 100	Sub:- Medicine – I	Time 3 Hrs.

Instructions:- .

- 1) All Question carry equal Marks.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q. 1. Write appropriate answers (any 10 out of 15) (10x2=20)

- a) Write four physical signs of Pleural Effusion.
- b) Write four clinical features suggestive of severe acute Bronchial Asthma.
- c) Four Aetiological factors of Brochiectasis.
- d) Write any two possible congenital malformations of Rubella infection.
- e) Describe Forchheimer spots.
- f) Write four causes of Occult blood in stool.
- g) Write four causes of Acute Pangreatitis.
- h) Write four clinical features of Acute Peritonitis.
- i) Write in brief Diabetic Retinopathy.
- j) Write Four clinical features of Pellagra.
- k) Write about Hypothyroidism Coma.
- l) Explain weight loss in IDDM.
- m) Write on Xerophthalmia.
- n) Name two functions of Antibodies.
- o) What investigations you would advice in female patient having Hirsutism?

Q. 2. Write short answer (any 4 out of 6) (4x5=20)

- a) Describe Acute Pharyngitis
- b) Explain Beri Beri
- c) Describe Giardiasis.
- d) Explain C/F & Lab investigations of Hyrerthyroidism.

e) Hypothermia

f) Systemic Lupus Erythematosus.

Q. 3. Write short answer (any 4 out of 6)

(4x5=20)

a) Tropical Pulmonary Eosinophilia.

b) Acromegali.

c) Marasmus.

d) Acute Bacillary Dysentery.

e) Causes of Splenomegali

f) Hazards of radiation

Long Answer Questions

(40 Marks)

Q. 4. Long answer questions (any 2 out of 4)

(2x10=20)

a) Obesity.

b) Define & Explain DD of generalized Lymphadenopathy.

c) Write Aetiology, Pathology, Clinical features, Investigations of Dengue shock syndrome.

d) Describe Aetiology, Pathology, Clinical features, Investigations of COPD .

Long answer question (any 1 from Q. No. 5, 6 & 7)

(20 marks)

Q. 5. Explain Irritable bowel syndrome under following heads

a) Aetiology 5 marks

b) Clinical Features 5 marks

c) Diagnosis 5 marks

d) D.D.& Management 5 marks

Q. 6. Explain Graves disease under following heads

a) Aetiology 5 marks

b) Pathophysiology 5 marks

c) Clinical Features 5 marks

d) Diagnosis 5 marks

Q. 7. Explain Malaria under following heads

a) Aetiology 5 marks

b) Pathophysiology 5 marks

c) Clinical Features 5 marks

d) Diagnosis 5 marks

As it is only for the placement sake, the distribution has been done.

SECTION A

Q.1 Answer the following Questions (Any 10 out of 15) (2x10=20)

- a) Define Case Taking
- b) Objectives of Case Taking
- c) Define Suggestive/Leading questions with examples
- d) Define Negative Generals
- e) Eliminating symptoms
- f) Define Pathological General Symptoms
- g) Name two Alphabetical Repertories with examples
- h) What are the Logico utilitarian repertories? Mention with examples
- i) Define Regional Repertories with examples
- j) Explain and define word meaning of Repertory
- k) Give Word Origin and Definition of Rubric
- l) Define Repertorial Analysis
- m) Define Repertorization
- n) Define Cross References with examples
- o) Synthesis

Q.2 Write Short Answers (any 4 out of 6) (4X5=20)

- a) Mention steps of Repertorization
- b) Explain methods and techniques of Repertorization

- c) Prescribing symptoms
- d) Kent's Concept of Totality
- e) Scope and Limitations of Repertory
- f) Advantages and Disadvantages of Homoeopathic Softwares

Q.3 Write Short Answers (any 4 out of 6) (4X5=20)

- a) Requisites of Repertorization
- b) Borland's Pneumonia
- c) Evaluation of Symptoms
- d) Concise Repertory of Homoeopathic Medicines by Dr. S. R. Phatak
- e) Bell's Diarrhoea
- f) Berridge's Eye Repertory

SECTION B

Q.4 Write long answer (any 2 out of 4) (2x10=20)

- a) What are the difficulties occurred while taking a chronic case
- b) What is Record Keeping? Explain Advantages of it
- c) Gentry's Concordance Repertory
- d) Relationship between Repertory, HMM & Organon

Long answer questions (any one from Q. No. 5, 6, and 7) (5x4=20)

Q.5 Define and classify the following repertories with examples

- a) Philosophical Repertories 5
- b) Non Philosophical Repertories 5
- c) Clinical Repertories 5
- d) Regional Repertories 5

Q.6 Describe Kent's Repertory under following headings

- a) Philosophical Background 5
- b) Plan and Construction 5
- c) Special Features 5
- d) Generalities Section 5

Q.7 Describe BTPB under following headings

- a) Philosophical Background 5
- b) Plan and Construction 5
- c) Difference between Original and Allen's edition 5
- d) Section "Relationship of Remedies" 5

SECTION : A (SAQ)

Q. 1. Write appropriate answer Any 10 out of 15 (10x2=20)

- a) Contributions of Asclepiades
- b) Definition of Drug, Medicine, Remedy
- c) Give principles of Antipathy, Isopathy, Homoeopathy
- d) Define Basic & Determinative symptoms.
- e) CCH – its functions
- f) Diathesis – definition & types
- g) Temperament – definition & types
- h) Disadvantages of Antipathy
- i) What is maze of symptoms
- j) Define Analysis & Evaluation
- k) Robert's rule of repeatation.
- l) Primary & Secondary action
- m) Contributions of Susruta
- n) Hippocrates – contribution
- o) Define Chronic disease & Acute disease.

Q. 2. Write short notes (any 4 out of 6) (4x5=20)

- a) Spread of Homoeopathy to India
- b) Totality of symptoms.
- c) Define Health, factors modifying it. What is WHO'S concept of Health?
- d) Spread of Homoeopathy to America.
- e) Concept of life & living environment.
- f) Contributions of Hahnemann in the field of Medicine.

- Q. 3. Write (any 4 out of 6) (4x5=20)
- a) Scope & limitations of Homoeopathy
 - b) Keynote symptom & pathological generals.
 - c) Indications & Contra – indications of High & Low potency
 - d) Suppression & palliation
 - e) General symptoms
 - f) Status Quo.

- Q. 4. Write any 2 out of 4 (10x2=20)
- a) Discuss Pre-historic Era of Medicine
 - b) Describe an account of H/o Homoeopathy in India
 - c) Describe dark age.
 - d) What is Prophylaxis, give the detailed account of it.

LAQ any 1 out of Q. No. 5, 6 & 7 (4x5=20)

- Q. 5. Explain Renaissance period
- a) Renaissance Age – its Era.
 - b) Features of this age
 - c) Contributions of Leonardo-d-vinci
 - d) Contributions of Paracelsus & Andreu, Vasalius
- Q. 6. Discuss susceptibility under following headings.
- a) Definition of susceptibility
 - b) It plays imp. role in which factors
 - c) Factors affecting susceptibility
 - d) Kent's & Robert's view of susceptibility.
- Q. 7. Discuss Remedy reaction under following headings
- a) What are remedy reactions – give diff. types.
 - b) What is status Quo.?
 - c) What is Homoeopathic Aggravation? Give types of Homoeopathic aggravation.
 - d) What is disease aggravation?

 - i) Causation Ignatia
 - j) 2/2 modalities of Baryta Carb (</>)
 - k) 2 Generalities Belladonna
 - l) Common Name of Bufo Rana
 - m) Constitution of Cal. Carb
 - n) Discharge of Graphites
 - o) Tongue of Merc sol.
- Q. 2. Write short answers (Any 4 out of 6) (4x5=20)
- a) Phy. General s of Hep sulf.
 - b) Modalities of Nat. Carb
 - c) Guiding indications of opium
 - d) Sphere of action of Lachesis
 - e) Phy. Gen. of Phos. Acid
 - f) Guiding indications of Plb. Met.

- Q. 3. Write Any 4 out of 6) (4x5=20)
- a) Indications of physostigma in eye ball disorder
 - b) Indications of Pic. Acid in spinal disorder
 - c) Indications of Podophyllum in GIT c/o
 - d) Indication of petroleum in skin c/o
 - e) GIT C/o Anacardium
 - f) Mind – Ignatia

- Q. 4. Compare & contrast (4x5=20)
- a) Heart c/o of digitalis and Cact. G.
 - b) Renal Colic of Tabacum & Berb. Vul.
 - c) Typhoid fever of Baptisia & Acid Phos
 - d) Mind of Hyoscyamus and Stramonium

Any one from Q. No. 5, 6 & 7. (20 Marks)

- Q. 5. Drug picture of IGNATIA under following heading
Introduction, constitution, Guiding symptoms, Particulars with modalities

- Q. 6. Drug picture LYCOPODIUM under following heading
- a) Clinical / non clinical information
 - b) Guiding indication
 - c) Applied Mat. Med.
 - d) Causation / Modalities .

- Q. 7. Drug picture “CALC FLOUR” under following heading
- a) Introduction
 - b) Biochemic indication
 - c) Causation / Modalities
 - d) Applied M.M.

PRELIMINARY EXAMINATION (Nov.: - 16 Batch)

YEAR: - IV B.H.M.S.

Marks 100	Sub:- H.M.M. -II	Time 3 Hrs.
--------------	------------------	----------------

- Instructions:-**
- 1) All Question carry equal Marks.
 - 2) The number to the **right** indicates **full** marks.
 - 3) Draw diagrams **wherever** necessary.
 - 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
 - 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

SECTION : A (SAQ)

- Q. 1. Write appropriate answer Any 10 out of 15 (10x2=20)
- a) Define Hom. Mat. Medica
 - b) Constitution of Chamomilla Baby
 - c) Modalities of Rhux. Tox.
 - d) Characteristic pain and discharge of Allium Cepa
 - e) Discharge of Calc Phos
 - f) Write down the common name and family of Euphresia
 - g) mental symptoms of Aethuja – C
 - h) Anthracinum Discharge and sensation
 - i) Carbo animals causation
 - j) Corallium – R cough
 - k) Collinsonia causation
 - l) Medorrhinum constitution
 - m) Psorinum discharge
 - n) Radium Brom Pains
 - o) Lithium Carb pains
- Q. 2. Write short answer (4 out of 6) (4x5=20)
- a) Physical general - Nux Vomica
 - b) Guiding indications - Ant- crud.
 - c) Biochemic indication – Nat. Mur.
 - d) Modalities (3Agg and 3 amoel) – Colochicum Aut.

e) Physical generals – Eup. Per

f) Physical generals Aconitum. N.

Q. 3. Short answer (Any 4 out of 6)

(4x5=20)

a) Indication in Anemia – Fer. Phos.

b) Indications of 'Ran Bulbo' in Herpes zoaster

c) Indication of pyrogenium in septic conditions

d) Indications of carbolic acid in malignancy

e) Spigellia in "Migraine"

f) Ver. Album in "Diarrhoea"

LAQ

Q. 4. Any 2 out of 4

(10x2=20)

a) Injury of Arnica Mont & Led. Pal.

b) Git c/o of 'Aloe. Soc.' & Nux. Vom.

c) Resp. tract c/o of 'Ant. Tart/ & "Lob inf"

d) Haemorrhoids of "Rathania" & "collinsonia"

Write Any 1 out of Q. No. 5, 6 & 7

(20 marks)

Q. 5. Definition of Mat. Medica, Types of Mat. Medica, different ways of studying M.M., sources of M.M.

Q. 6. Describe Drug picture – "SILICEA" under following heading clinical/ Non clinical information, guiding indications; applied Mat. Medica & modalities.

Q. 7. Describe drug picture – "Bacillinum" under following headings;

i) Clinical / Non clinical information

ii) Guiding indications / causations

iii) Applied Mat. med.

iv) Modalities.

and vice versa. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

Q.1 Answer any 5 out of 8 (5x2=10)

a) Prerequisites of Physician for case taking as per Aphorism No. 83 of Organon

b) Definition and types of Cross References

c) Year of Publication of

1) Berridge's Eye Repertory

2) The Therapeutics of Intermittent Fever – Dr. H. C. Allen

d) Define: 1) Repertory 2) Rubric

e) Mention the following regarding Boericke's Repertory

1) Total No. of Medicines 2) No. Of Chapters

f) Year of Publication of

1) Kishore's Card Repertory

2) Shashi Mohan Sharma's Card Repertory

g) Full Name of BTPB as written on first page

h) Mention following about BTPB

1) No. of medicines in Repertory Part in Original and Allen's Edition

2) No. of Medicines in ROR part in Original and Allen's Edition

Q.2 Write short answers (any 2 out of 4) (2X5=10)

a) Steps of Repertorization – Schematic Presentation

b) Construction and Classification of Berridge's Eye Repertory

c) Borland's Pneumonia

d) Bell's Diarrhoea

Q.3 Write long answer (any 3 out of 5) (3x10=30)

a) Scope and limitations of Repertory and Repertorization

b) Relation between HMM, Organon and Repertory

c) Classification, Historical Evolution and sources of BTPB

- d) What is record keeping? What are the different methods of it? Explain advantages of record keeping
- e) Historical Evolution, Advantages and Disadvantages of Card Repertory

As It is only for the placement sake, the distribution has been done.

SECTION : A (SAQ)

Q. 1. Write appropriate answer (Any 10 out of 15) (10x2=20)

- a) Complete symptom
- b) Diet & Regimen
- c) Secondary action.
- d) Koch's Postulates.
- e) Local maladies.
- f) Primary action.
- g) Drug proving.
- h) What happens when two similar disease meet together?
- i) Homoeopathic specific remedy.
- j) Genus Epidemicus.
- k) Indisposiition.
- l) Chronic disease
- m) Acute disease.
- n) Infinitesimal dose
- o) Contributions of Leonardo-da Vinci.

Q. 2. Write short notes (any 4 out of 6) (4x5=20)

- a) Contributions of Dr.Hahnemann.
- b) Chinese medicine.
- c) Mesopotamian medicine?
- d) Drug medicine & Remedy.
- e) Second prescription.
- f) Boroque medicine.

Q. 3. Write (any 4 out of 6) (4x5=20)

- a) Suppression.
- b) Contributions of Hippocrates..
- c) Prehistoric medicine.
- d) Antipathy.
- e) Spread of Homoeopathy in Maharashtra.
- f) CCH.

Q. 4. Write any 2 out of 4 (10x2=20)

- a) Describe Health & factors affecting it.
- b) Discuss Prophylaxis.
- c) Discuss Susceptibility in detail..
- d) Discuss Posology in detail.

LAQ any 1 out of Q. No. 5, 6 & 7

(4x5=20)

Q. 5. Explain Symptomatology in detail,with importance of each symptom.

Explain characteristic symptom in detail.What is Analysis & Evaluation of symptom?

OR

Q. 6. Discuss Kent's 12 observation in detail.

OR

Q. 7. Explain Indian system of medicine - Ayurveda.,Siddha.

PRELIMINARY EXAMINATION (May - 2017)

YEAR: - IV B.H.M.S.

Marks 100	Sub:- Community Medicine	Time 3 Hrs.
----------------------	---------------------------------	------------------------

Instructions:-

- 1) All Questions are Compulsory.
- 2) All Question carry equal Marks.
- 3) The number to the right indicates full marks.
- 4) Draw diagrams wherever necessary.
- 5) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
- 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q. 1. Write appropriate answers (any 10 out of 15)

(10x2=20)

- a) Define Health as per WHO.
- b) Mention Risk Factor.
- c) Classify Disease Agent.
- d) Comprehensive Health care means what?
- e) Mention goals of "Health for all".
- f) What are Epidemiological parameter?
- g) Define Scurvy.
- h) Mention Nutritional Health Programme.
- i) Distinguish Sewage & Sullage.
- j) Write sources of Health information.

k) Classify Disinfectants.

l) Mention sources of water.

m) Write Benefits of E.S.I.S.

n) What are the stages of studying Descriptive Epidemiology?

o) What are the methods of Pasteurisation?

Q. 2. Write short notes (any four out of 6) (4x5=20)

a) Ice bergs

b) Stages of Demographic cycle

c) Clinical features of measles.

d) BCG vaccination.

e) Fertility.

f) Tools in Epidemiology.

Q. 3. Write short notes (any 4 out of 6) (4x5=20)

a) Preventive measure for Maternal Mortality.

b) Under Five clinic.

c) Composting.

d) Vit. A

e) Arthropod control methods

f) Air Pollution.

Q. 4. Long Answer Questions (any 2 out of 4) (2x10=20) a)

Immunising Agents. b) Occupational Hazards.

c) Neonatal care.

d) Steps of Epidemiological investigation of Epidemic.

Long answer question (any 1 from Q. No. 5, 6 & 7) (20 Marks)

Q. 5. Write about "Malaria" in following points

a) Malarial parasite & signs & symptoms.

b) Host & environmental factors.

c) National malaria control programme.

d) Mosquito control method.

Q. 6. Describe Epidemiological features of Rabies in following headings

a) Definition & causative agents.

b) Modes of transmission & clinical features

c) Treatment & Prevention.

d) Laboratory diagnosis method in man.

Q. 7. Write about Diabetes Mellitus in following headings

a) Define Diabetes Mellitus & classification.

b) Host & Environmental factors of Diabetes.

c) Screening of Diabetes

d) Prevention & Cure.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

PRELIMINARY EXAMINATION (Winter - 2017)

YEAR: - IV B.H.M.S.

Marks 100	Sub:- Community Medicine	Time 3 Hrs.
----------------------	---------------------------------	------------------------

- Instructions:-**
- 1) All Questions are Compulsory.
 - 2) All Question carry equal Marks.
 - 3) The number to the right indicates full marks.
 - 4) Draw diagrams wherever necessary.
 - 5) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q. 1. Write appropriate answers (any 10 out of 15) (10x2=20)

- a) Define Preventive medicine with example.
- b) What is Super natural theory?
- c) What are Epidemiological triad?
- d) Name Live vaccines.
- e) Write methods of studing Epidemiology.
- f) Name Malarial parasites.
- g) What are Measles complication?
- h) Mention Carriers in Cholera.
- i) What is Botulism?.
- j) What are symptoms of Hansens disease?
- k) Classify Insecticides.
- l) Mention method of communication.
- m) What are the methods Pasturisation?
- n) What are Sources of Health information?
- o) Define Demography & suggest processes of Demographic.

Q. 2. Write short notes (any four out of 6) (4x5=20)
a) Air Pollution. b) Septic Tank.
c) Composting. d) Dietary Goals.
e) Stages of Demography. f) Cholera control methods.

Q. 3. Write short notes (any 4 out of 6) (4x5=20)
a) Modes of Intervention. b) Health for All.
c) Immunity. d) Cold chain.
e) Dog bite wound treatment. f) MTP act.

Q. 4. Long Answer Questions (any 2 out of 4) (2x10=20) a) Case
control study. b) Food Intoxication.
c) Universal Immunisation programme. d) Intranatal Care.

Long answer question (any 1 from Q. No. 5, 6 & 7) (1X20=20)

Q. 5. Write in detail Hormonal & IUDS methods of Family Planning

Q. 6. Write in details about Under Five Clinics & Postnatal Care.

Q. 7. Defence Cancer. Write its categories, Environmental causes, Danger signals & Preventive measures.

Instructions:-

- 1) All Question carry equal Marks.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q. 1. Write appropriate answer (any 10 out of 15)

(2x10=20)

- a) Define cyanosis, explain various types.
- b) Describe vesicular breath sound.
- c) Define respiratory failure
- d) What are the probable congenital malformations of rubella infection?
- e) Describe shigellosis
- f) What are the contraindications of colonoscopy?
- g) Write 4 causes of occult blood in stool
- h) Describe Vincent's angina
- i) Write 4 causes of hyperthyroidism
- j) Write 4 cardiovascular manifestations of hypothyroidism
- k) Write 4 manifestations of Addison's disease
- l) Explain Insulin tolerance test
- m) Thermoregulation in extreme cold.
- n) What are the physiological effects of high altitude?
- o) Explain C-reactive protein.

Q. 2. Write short answer (any 4)

(5x4=20)

- a) Write clinical features of acute severe bronchial asthmatic attack

b)

Describe pellagra

- c) Write clinical features of acute amoebic dysentery
- d) Write clinical presentation of acute severe hypoglycemia
- e) Explain hazards of ionizing radiation
- f) Explain Clostridial food poisoning

Q. 3. Write short answer (any 4)

(5x4=20)

- a) Write clinical features of acute hepatitis A
- b) Describe acute bronchitis
- c) Explain rickets
- d) Explain hyperparathyroidism
- e) Explain hypothermia

f) Explain Widal test and its clinical significance

Section B-LAQ

Q 4) **Long answer questions** (any 2 out of 4)

(10x2=20)

- a) Explain obesity
- b) Explain measles in detail
- c) Explain pneumothorax
- d) Explain Turner syndrome

Long answer questions (any one from q no 5, 6 and 7)

(1x20=20)

Q 5) Explain ulcerative colitis in detail under following heads

- a) Aetiological factors
- b) Pathophysiology
- c) Clinical features
- d) Complications

OR

Q 6) Explain Cushing's syndrome in detail under following heads

- a) Aetiological classification
- b) Clinical features
- c) Differential diagnosis
- d) Investigations

OR

Q 7) Explain dengue fever in detail under following heads

- a) Aetiology & pathophysiology
- b) Clinical features
- c) Complications
- d) Investigations

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD
Prelim EXAMINATION (winter 2017 Batch)
YEAR: - IV B.H.M.S.

Marks 100	Sub:- Medicine – II	Time 3 Hrs.
Instructions:- 1) The number to the right indicates full marks. 2) Draw diagrams wherever necessary. 3) Do not write anything on the blank portion of the question paper . If written anything, such type of act will be considered as an attempt to resort to unfair means. 4) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.		

SECTION – A (SAQ)

Q. 1. Write appropriate answer (any 10 out of 15)

(10x2=20)

- a) Define osteoarthritis
- b) Define porphyria enumerate its two causes.
- c) Define sinus tachycardia, enumerate its two causes.
- d) Define sick sinus syndrome with its characteristic feature.
- e) Define ventricular tachycardia, with ECG changes.
- f) Define dementia enumerate its two causes.
- g) Define epilepsy enumerate its two causes.
- h) Define oliguria enumerate its two causes.
- i) Good pasture syndrome.
- j) Enumerate four causes of Hepatomegaly.
- k) What is salt-deficient Hyponatraemia enumerate its four causes.
- l) Define plaque enumerate its four examples.
- m) Depression, enumerate its causes.
- n) Define delirium enumerate its four causes.
- o) Define physiological jaundice enumerate its primary management.

Q. 2. Write short answers (any 4 out of 6) (4x5=20)

- a) Acute nephritic syndrome.
- b) Wilson's disease.
- c) Schizophrenia.
- d) Scabies
- e) Hemolytic anaemia
- f) Fallot's tetralogy.

Q.3. Write short answers (any 4 out of 6) (4x5=20) a) Acute

- pyelonephritis.
- b) Hypokalaemia.
- c) Obsessive compulsive disorder.
- d) Lichen planus.
- e) Thrombocytopenia.
- f) Migraine.

Q.4. Long answer question (any 2 out of 4) (2x10=20)

- a) Eczema.
- b) Glomerulonephritis.
- c) Anxiety neurosis.
- d) Mitral regurgitation.

Long Answer Question (any 1 from Q. No. 5, 6 & 7) (1x20=20)

Q.5. Describe Parkinson's disease under following heads

- a) Aetiopathogenesis
- b) Clinical manifestations
- c) Clinical diagnosis

d) Management.

OR

Q.6. Describe under following heads:

- a) Name the Lipoproteins which are clinically important with their normal serum values.
- b) Aetiology of Hyperlipidemia
- c) Long term consequences of Hyperlipidemia
- d) What are the guidelines of management?

OR

Q.7. Describe Ankylosing spondylitis:under following heading

- a) Aetiopathogenesis
- b) Clinical manifestations
- c) Clinical & Lab diagnosis
- d) Management.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD
PRELIMINARY EXAMINATION (Winter. - 2017)
YEAR:- IV B.H.M.S. (Regular)

Marks: 100

Sub:- Medicine –III

Time : 3 Hrs.

Instructions:-

- 1) All Question carry equal Marks.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q. 1. Write appropriate answer (any 10 out of 15)

(10x2=20)

- a) Indication of Kali carb in Pleurisy.
- b) Write indications of Spongia tosta in Whooping Cough.
- c) Write indications of Antim tart in Pneumonia.
- d) Give indication of Baptisia in typhoid fever.
- e) Give indications of Eupatorium perfoliatum in Malarial Fever.
- f) Indication of Aconite in acute diarrhoea.
- g) Write indications of Carbo veg in Constipation.
- h) Indication of Asafoetida in Flatulence
- i) indications of Rhus tox in Beri Beri.
- j) indications of Acetic acid in scurvy.

- k) indications of Belladonna in diabetes insipidus..
- l) Indication of Natrum Mur in Hyperthyroidism.
- m) indication of Ceanothus in spleenomegaly.
- n) indications of Belladonna in exophthalmas goiter.
- o) Write indications of Causticum in Aponia.

Q. 2. Write short answer (any 4 out of 6)

(4x5=20)

- a) Asthma :Arsenic alb.
- b) Rickets :Calc phos.
- c) Marasmus :Sanicula.
- d) urticaria : Rhus tox
- e) Furuncle :Hepar sulph.
- f) Haemoptysis :Ipecac .

Q. 3. Write short answer (any 4 out of 6)

(4x5=20)

- a) Malnutrition :Calc. phos.
- b) Scabies :Croton tig.
- c) Diabetes :Ars. brom.
- d) Lymphangitis :Merc. sol.
- e) Measles : Puls.
- f) Chilblains :Abrotanum.

Section B (LAQ)

Q. 4. Long answer questions (any 2 out of 4)

(2x10=20)

- a) Renal calculi in Berberis vulg. & lycopodium.
- b) Epilepsy with indication of Cuprum met & Aethusa cynapium.
- c) Angina pectoris with indication of Glonine & Cactus grandiflorus.
- d) Arthritis with indication of Rhus tox & Bryonia.

Long answer question (Any 1 from Q. NO. 5, 6 & 7)

(1x20=20)

Q. 5. Write Homoeopathic approach in treatment of rheumatic heart disease, under following heads.

- a) Scope & Limitations. 5 marks
- b) Acute prescription 5 marks
- c) Chronic prescription. 5 marks
- d) Auxiliary Measures with indications of any two remedies for the same 5 marks

OR

Q. 6. Describe Homoeopathic approach in treatment of Osteoarthritis under following head

- a) Scope & Limitations. 5 mark
- b) Acute prescription 5 mark
- c) Chronic prescription. 5 marks
- d) Auxiliary Measures with indications of any two remedies for the same 5 marks

OR

- Q. 7. Describe Homoeopathic approach in treatment of multiple sclerosis under following heads
- | | | |
|---|---------|---------|
| a) Scope & Limitations. | 5 marks | |
| b) Acute prescription | 5 marks | |
| c) Chronic prescription. | 5 marks | |
| d) Auxiliary Measures with indications of any two remedies for the same | | 5 marks |

SECTION : A (SAQ)

- Q. 1. Write appropriate answers (Any 10 out of 15) (10x2=20)
- a) Causation Anacardium
 - b) Patho physiology actea racemosa
 - c) Two differences of Ars. Alb. & Phos. Git c/o
 - d) 2 important key notes Borax
 - e) 2 Guiding symptoms of Bromium
 - f) 2 modalities of Conium Mac.
 - g) Sphere of action of fer. Met.
 - h) Patho physiology of Gelsimum
 - i) Causation Ignatia
 - j) 2/2 modalities of Baryta Carb (</>)
 - k) 2 Generalities Belladonna
 - l) Common Name of Bufo Rana
 - m) Constitution of Cal. Carb
 - n) Discharge of Graphites
 - o) Tongue of Merc sol.

- Q. 2. Write short answers (Any 4 out of 6) (4x5=20)

a) Phy. General s of Hep sulf.

b) Modalities of Nat. Carb

c) Guiding indications of opium

d) Sphere of action of Lachesis

e) Phy. Gen. of Phos. Acid

f) Guiding indications of Plb. Met.

Q. 3. Write Any 4 out of 6)

(4x5=20)

a) Indications of physostigma in eye ball disorder

b) Indications of Pic. Acid in spinal cord disorder

c) Indications of Podophyllum in GIT c/o

d) Indication of petroleum in skin c/o

e) GIT C/o Anacardium

f) Mind – Ignatia

Long Answer Questions

Q. 4. Compare & contrast (any 2 out of 4)

(10x2=20)

a) Heart c/o of digitalis and Cact. G.

b) Renal Colic of Tabacum & Berb. Vul.

c) Typhoid fever of Baptisia & Acid Phos

d) Mind of Hyoscymus and Stramonium

Long Answer Questions (Any one from Q. No. 5, 6 & 7)

(1x20 =20)

Q. 5. Drug picture of IGNATIA under following heading

Introduction, constitution, Guiding symptoms, Particulars with modalities

Q. 6. Drug picture LYCOPODIUM under following heading

a) Clinical / non clinical information

b) Guiding indication

c) Applied Mat. Med.

d) Causation / Modalities .

Q. 7. Drug picture "CALC FLOUR" under following heading

a) Introduction

b) Biochemic indication

c) Causation / Modalities

d) Applied M.M.

PRELIMINARY EXAMINATION (Winter 2017)

YEAR: - IV B.H.M.S.

Marks 100	Sub:- H.M.M. -II	Time 3 Hrs.
--------------	------------------	----------------

- Instructions:-**
- 1) All Question carry equal Marks.

SECTION : A (SAQ)

- Q. 1. Write appropriate answer (any 10 out of 15) (10x2=20)
- a) Define Hom. Mat. Medica
 - b) Constitution of Cina Baby
 - c) Modalities of Rhux. Tox.
 - d) Characteristic pain and discharge of Allium Cepa
 - e) Discharge of Calc Phos
 - f) Write down the common name and family of Euphresia
 - g) mental symptoms of Aethuja – C
 - h) Anthracinum Discharge and sensation
 - i) Carbo animals causation
 - j) Sticta Pulmo - cough
 - k) Collinsonia causation
 - l) Medorrhinum constitution
 - m) Psorinum discharge
 - n) Radium Brom Pains
 - o) Lithium Carb pains
- Q. 2. Write short answer (4 out of 6) (4x5=20)
- a) Physical general - Nux Vomica
 - b) Guiding indications - Ant- crud.
 - c) Biochemic indication – Nat. Mur.
 - d) Modalities (3Agg and 3 amoel) – Colochicum Aut.
 - e) Physical generals – Eup. Per
 - f) Physical generals Aconitum. N.
- Q. 3. Short answer (Any 4 out of 6) (4x5=20)

- a) Indication in Anemia – Fer. Phos.
- b) Indications of ‘Ran Bulbo’ in Herpes zoaster
- c) Indication of pyrogenium in septic conditions
- d) Indications of carbolic acid in malignancy
- e) Spigellia in “Migraine”
- f) Ver. Album in “Diarrhoea”

Long Answer Questions

- Q. 4. Compare & contrast (any 2 out of 4) (10x2=20)
- a) Injury of Arnica Mont & Led. Pal.
 - b) Git c/o of ‘Aloe. Soc.’ & Nux. Vom.
 - c) Resp. tract c/o of ‘Ant. Tart/ & “Lob inf”
 - d) Haemorrhoids of “Rathania” & “collinsonia”

Long Answer Questions (Any one from Q. No. 5, 6 & 7) (1x20 =20)

- Q. 5. Definition of Mat. Medica, Types of Mat. Medica, different ways of studying M.M., sources of M.M.
- Q. 6. Describe Drug picture – “SILICEA” under following heading clinical/ Non clinical information, guiding indications; applied Mat. Medica & modalities.
- Q. 7. Describe drug picture – “Bacillinum” under following headings;
- i) Clinical / Non clinical information
 - ii) Guiding indications / causations
 - iii) Applied Mat. med.
 - iv) Modalities.

As It is only for the placement sake, the distribution has been done.		

SECTION – A (SAQ)

Q. 1. Write appropriate answer (any 5 out of 8) (5x2=10)

- a) Write two causes of **focal and segmental glomerulosclerosis**
- b) Enumerate 4 complications of **hemodialysis**
- c) Enumerate 4 important clinical features of **atopic eczema**.
- d) Enumerate types of **psoriasis**
- e) Write a note on **tinea cruris**
- f) Give four causes of **acute renal failure**
- g) Write four causes of **Cushing's syndrome**.
- h) Write two functions of **vasopressin**

Q. 2. Write short answers (any 2 out of 4) (2x5=10)

- a) Describe Aetiology, pathology and clinical features of **minimal change glomerulopathy**.
- b) Explain **urticaria**.

- c) Describe **scabies**
- d) Describe **peritoneal dialysis**

Long answer question

- Q. 3. Long answer question (any 1) (1x10=10)
- a) Describe in details the **iron deficiency anaemia**
 - b) Describe **psoriasis**.

Write any 1 out of Que. 4 & 5

- Q. 4. Describe **chronic renal failure** under following heads (1x20=20)
- a) Aetiology & Pathophysiology.
 - b) Clinical Features
 - c) Investigations
 - d) Differential Diagnosis.

OR

- Q. 5. Describe **Thalassaemia major** under following heads. (1x20=20)
- a) Aetiology
 - b) Pathophysiology
 - c) Clinical Features
 - d) Investigations.

Describe the drug picture of Capsicum under the following heading

- a) Introduction
- b) Guiding indication
- c) Child
- d) Important particulars & modalities

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD
Term End Examination (Summer - 2018 Batch)
YEAR:- IV B.H.M.S.

Marks	Repertory	Time
50		1 ½ Hrs.

Instructions:-

- 1) The number to the **right** indicates **full** marks.
- 2) Draw diagrams **wherever** necessary.
- 3) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 4) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

SECTION – A (SAQ)

- Q. 1. Write appropriate answer (any 5 out of 8) (5x2=10)
- a) Need of Repertory.
 - b) Qualities of Homoeopathic Physician - 53.
 - c) Define Puritan Repertory & give examples.
 - d) Define Pathognomic symptom & give examples.
 - e) What is the meaning of word "Repertory".

f) Define Repertorization?

g) Rubric wise biggest & smallest section of Kent's Repertory.

h) Dr. Hahnemann's Repertory

Q. 2. Write short answers (any 2 out of 4)

(2x5=10)

a) Borland's Pneumonia

b) Scope & Limitation of Repertory.

c) Conceptual Image

d) Different methods of Repertorization

Long answer question

Q. 3. Write long answer (any 3 out of 5)

(3x10=30)

a) Write down in detail comparative study of Dr. Gentry's concordance Repertory & Dr. Knerr's Repertory.

b) Write down in detail Philosophical background & plan of construction of BTPB.

c) Write down in detail Philosophical background & plan of construction of BBCR.

d) Write down in detail Philosophical background & plan of construction of Dr. Kent's Repertory.

e) Write down in detail classification of Repertory with examples.

Term End Examination (Summer - 2018 Batch)

YEAR: - IV B.H.M.S.

Marks	Sub:- Organon of Medicine
Time	
100	3
Hrs.	

Instructions:- .

- 1) All Question carry equal Marks.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

SECTION – A (SAQ)

Q. 1. Write appropriate answer (any 10 out of 15) (10x2=20)

- a) Who is Sick?
- b) What is curable in disease?
- c) Huefeland's comment.
- d) Why Removal of totality is removal of cause.
- e) A case without record is like a -----
- f) Robert's rule of Repetition.
- g) Kent's rule of Repetition.
- h) Define Drug, Medicine & Remedy.
- i) Therapeutic law of nature.
- j) What happens when two similar disease meet in nature.
- k) Acute miasms.
- l) Materia peccans.
- m) Causa Occasionalis..
- n) Medicinal aggravation.
- o) Pathological general symptoms.

Q. 2. Write short answer (any 4 out of 6) (4x5=20)

- a) Homoeopathic aggravation.
- b) Limitation of Homoeopathy.
- c) Substantialism.
- d) Symptoms of Syphilitic miasm.
- e) Fundamental laws according to Dr. Robert.
- f) Sick.

Q. 3. Write short answer (any 4 out of 6)

(4x5=20)

- a) What is curable in disease & What is curable in medicine?.
- b) Homoeopathy is Science & Art.
- c) Unity of medicine.
- d) Simple substance.
- e) Deflected current.
- f) Record keeping.

Q. 4. Long answer questions (any 2 out of 4)

(2x10=20)

- a) Logic of Homoeopathy.
- b) Second Prescription.
- c) Posology.
- d) Potentization & Infinitesimal dose.

Long answer question (Any 1 from Q. NO. 5, 6 & 7)

(20

Marks)

Q. 5. Describe Kent's 12 observations

OR

Q. 6. Explain Susceptibility. What is increased & decreased susceptibility? What are factor affecting susceptibility? Susceptibility plays important role in which fields.

OR

Q. 7. Explain theory of chronic disease. Discuss Psora in detail

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD
1st TERM END EXAMINATION (Summer 2018)
YEAR: - IV B.H.M.S.

Marks 50	Sub:- Community Medicine	Time 1 ½ Hrs.
---------------------------	---------------------------------	--------------------------------

Instructions:-

- 1) All Questions are Compulsory.
- 2) The number to the right indicates full marks.
- 3) Draw diagrams wherever necessary.

PRELIMINARY EXAMINATION (Summer 2018)

Year: IV B. H. M. S.

Marks :- 100

Sub :- Case Taking & Repertory

Time :- 3 Hrs.

Instructions:-

- 1) All Questions are Compulsory
- 12) All Questions carry equal marks
- 13) The number to the right indicates full marks
- 14) Draw diagrams wherever necessary
- 15) Do not write anything on the blank portion of the question paper. If written anything such type of act will be considered as an attempt to resort to unfair means
- 16) Distribution of syllabus Question Paper is only meant to cover entire syllabus within the stipulated frame. The question Paper pattern is a mere guideline. Question can be asked from paper – I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

SECTION A

Q.1 Answer the following Questions (Any 10 out of 15)

(2x10=20)

a) What are don'ts of case taking?

b) Define Hypochondriac patient.

c) What are the main objectives of case taking?

d) Define Evaluation of symptoms with example.

- e) Define Pathological general with example.
- f) Name four Regional Repertories.
- g) What do you mean by the rubric “Delusion”.
- h) Define Puritan Repertory with example.
- i) Meaning of word “Repertus” & “Rubrica” .
- j) Rubric “Pulse” in BTPB & BBCR.
- k) Year of publication of Boger’s & P.Sankaran’s card Repertory.
- l) First Indian Repertory.
- m) Year of publication of different editions of Jahr’s Repertory.
- n) Define Clinical Repertory with example.
- o) Define Eliminating & Negative general symptom.

Q.2 Write Short Answers (any 4 out of 6) (4X5=20)

- a) Scope & Limitations of Repertory.
- b) Why the Prescription based on repertorisation is superior.
- c) Methods of Repertorisation.
- d) Write in brief Kent’s concept of Totality.
- e) Synthesis.
- f) Hompath Software.

Q.3 Write Short Answers (any 4 out of 6) (4X5=20)

- a) Bell’s diarrhoea.
- b) Borland’s pneumonia.
- c) Berridge’s Eye Repertory.
- d) Allen’s intermittent fever.
- e) Pre-requisites of Repertorisation.
- f) Boger’s Synoptic key.

SECTION B

Q.4 Write long answer (any 2 out of 4) (2x10=20)

- a) Write down Historical evolution of Card Repertories in detail.

- b) Explain relationship of HMM & Organon. With Repertory
- c) What are the difficulties in taking chronic case?
- d) Write comparative details of Gentry's concordance Repertory with Knerr's Repertory & also mention special features of Robert's "sensations as if".

Long answer questions (any one from Q. No. 5, 6, and 7) (1x20=20)

Q.5 Describe BTPB in all details.

OR

Q.6 Describe BBCR in all details.

OR

Q.7 Describe classification of Repertory with examples & mention historical evolution of different Homoeopathic Softwares till date.

SMT. K.B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

PRELIMINARY EXAMINATION (Summer 2018)

Year: IV B. H. M. S.

Marks :- 100

Sub :- Medicine I

Time :- 3 Hrs.

Instructions:-

- 1) All Questions are Compulsory
- 2) All Questions carry equal marks
- 3) The number to the right indicates full marks
- 4) Draw diagrams wherever necessary

- 6) Distribution of syllabus Question Paper is only meant to cover entire syllabus within the stipulated frame. The question Paper pattern is a mere guideline. Question can be asked from paper – I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

SECTION A

Q. 1. Write appropriate answers (any 10 out of 15) (10x2=20)

- a) Define respiratory failure.
- b) Write the diagnostic criteria of PFT for the diagnosis of bronchial asthma.
- c) Describe four aetiological factors of sleep apnoea syndrome.
- d) What are the possible congenital malformations of rubella infection.
- e) Mention clinical forms of leprosy.

- f) Write two symptoms and two signs of acute peritonitis.
- g) Explain Cullen's sign.
- h) What are the complications of peptic ulcer disease?
- i) What is the normal body mass index and how it is calculated?
- j) What are the sources of Vit C.
- k) Write four causes of Hyperthyroidism.
- l) What are the causes of Type I diabetes mellitus?
- m) What is the normal serum calcium level?
- n) Explain ACTH stimulation test.
- o) Name two immune deficiency diseases.

Q. 2. Write short answer (any 4 out of 6) (5x4=20)

- a) Describe cystic fibrosis
- b) Explain kwashiorkor
- c) Explain heat Stroke.
- d) Explain diabetic ketoacidosis
- e) Describe acute diarrhoea caused by rotavirus
- f) Explain causes and DD of dysphagia in a adult patient.

Q. 3. Write short answer (any 4 out of 6) (5x4=20)

- a) Describe acute laryngitis.
- b) Explain complications of obesity.
- c) Describe aetiology and clinical features of Addison's disease.
- d) Explain various causes and investigations for relapsing diarrhoea.
- e) Explain the mechanism of immune mediated tissue injury
- f) Explain the assessment of genetic risk of illness.

LAQ

(40 Marks)

Q. 4. Long answer questions (any 2 out of 4) (10x2=20)

- a) Pleural effusion.
- b) Explain DD of splenomegali.
- c) Write daily requirement, sources, physiological action and deficiency state of Vit A
- d) Explain Clinical features, Complications & Investigations of Typhoid fever.

Long answer question (any 1 from Q. No. 5, 6 &7)

(20 marks)

- Q. 5. Explain bronchiectasis under following heads
- a) Aetiology 5 marks
 - b) Pathology 5 marks
 - c) Clinical features 5 marks
 - d) Investigations and management 5 marks
- Q. 6. Describe Grave's disease under following heads:
- a) Aetiology & Pathophysiology 5 marks
 - b) Clinical Presentation 5 marks
 - c) Investigations 5 marks
 - d) Management 5 marks
- Q. 7. Describe tetanus under following heads :
- a) Aetiology 5 marks
 - b) Pathology 5 marks
 - c) Clinical features 5 marks
 - d) Management 5 marks

SMT. K.B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

PRELIMINARY EXAMINATION (Summer 2018)

Year: IV B. H. M. S.

Marks :- 100

Sub :- Medicine II

Time :- 3 Hrs.

- Instructions:-**
- 1) All Questions are Compulsory
 - 2) All Questions carry equal marks
 - 3) The number to the right indicates full marks
 - 4) Draw diagrams wherever necessary
 - 5) Do not write anything on the blank portion of the question paper. If written anything such type of act will be considered as an attempt to resort to unfair means
 - 6) Distribution of syllabus Question Paper is only meant to cover entire syllabus within the stipulated frame. The question Paper pattern is a mere guideline. Question can be asked from paper – I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

- Q. 1. Write appropriate answer (any 10 out of 15) (10x2=20)
- a) Write four features which differentiate joint inflammation from joint damage
 - b) Give 4 causes of monoarthritis.
 - c) Four characteristic clinical features of acute pericarditis.
 - d) Explain pulsus paradoxus and give its 2 causes
 - e) Explain Kerle's B lines.
 - f) Describe gait of Parkinson's disease.

- g) Write 4 causes of wasting of muscles.
- h) What is polyuria & give 4 causes of polyuria.
- i) Name 4 organisms which commonly cause lower UTI.
- j) Explain Lichen Simplex.
- k) Enumerate 4 clinical features of hypovolaemia.
- l) What is the normal plasma level of Na and K.
- m) Write four symptoms of depressive disorder.
- n) Classify anxiety disorders.
- o) Define tinea capitis.

Q. 2. Write short answer (any 4 out of 6) (4x5=20)

- a) Explain aetiology, pathogenesis and clinical features of acute pyelonephritis
- b) Explain hyponatraemia.
- c) Explain criteria for assessing alcohol dependence.
- d) Explain pityriasis versicolor
- e) Explain osteoporosis.
- f) Explain Pathophysiology & clinical features of mitral stenosis.

Q. 3. Write short answer (any 4 out of 6) (4x5=20)

- a) Explain urinary incontinence.
- b) Write acute hepatitis A
- c) Explain delayed bile stones in a child
- d) Explain DD of Stroke & TIA.
- e) Explain iron deficiency anaemia.
- f) Explain pemphigus.

Long Answer Question

(40 Marks)

Q. 4. Long answer questions (any 2 out of 4)

(2x10=20)

- a) Describe vitiligo in detail.
- b) Explain in detail Aetiology, clinical features, and investigations of nephrotic syndrome.
- c) Explain in detail bronchiolitis in paediatric age group.
- d) Write causes, Clinical features & Investigations of aortic regurgitation.

Long answer question (Any 1 from Q. NO. 5, 6 & 7)

(20 Marks)

Q. 5. Explain epilepsy under following heads

- a) Causes 5 marks

- b) Clinical features 5 marks
- c) Investigations 5 marks
- d) Management 5 marks

OR

Q. 6. Explain acute myocardial infarction under following heads

- a) Aetiology 5 marks
- b) Pathophysiology 5 marks
- c) Clinical features 5 marks
- d) Investigations 5 marks

OR

Q. 7. Explain sickle cell anaemia under following heads

- a) Aetiology 5 marks
- b) Clinical features 5 marks
- c) Investigations 5 marks
- d) Complications 5 marks

Question can be asked from paper – I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

Q. 1. Write appropriate answer (any 10 out of 15)

(10x2=20)

- a) Give Indication of Hepar sulph in acute pharyngitis
- b) Give indications of Ars alb in acute bronchitis.
- c) Give indications of Rhus tox in lobar pneumonia.
- d) Write indications of Ars iod in malaria.
- e) Write indications of Eup per in dengue fever.
- f) Indication of Dulcamara in acute diarrhoea.

- g) Write indications of Ratanhia in anal fissure.
- h) Write indications of Robina in GERD.
- i) Indication of Natrum mur in marasmus.
- j) Indication of Natrum sulph in beriberi.
- k) Indication of Calc phos in multinodular goiter.
- l) Indications of Graphites in Cushing's syndrome.
- m) Indications of Sepia in Addison's disease.
- n) Write indications of Glonoine in Sun stroke.
- o) Write indications of Gels in diabetic neuropathy.

Q. 2. Write short answer (any 4 out of 6)

(4x5=20)

- a) Acute Bronchitis: Spongia
- b) Hyponatraemia : Ars alb.
- c) Marasmus : Sanicula.
- d) Puls : Measles.
- e) Lymphadenopathy : Baryta carb.
- f) Heamatemesis : FerrumPhos.

Q. 3. Write short answer (any 4 out of 6)

(4x5=20)

- a) Kwashiorkor: Calc iod
- b) Tropical diarrhoea: Sulph.
- c) Diabetes: Phos. acid
- d) Lymphangitis: Bell.
- e) Aphonia: Causticum.
- f) Chilblains : Abrotanum.

Section B (LAQ)

(40 Marks)

Q. 4. Long answer questions (any 2 out of 4)

(2x10=20)

- a) Indications of Rhus tox and Bryonia in osteoarthritis
- b) Indications of spigelia and Limcifuga in Angina pectoris.
- c) Indication of Naja tripudians & Cicuta in epilepsy.
- d) Indications of Apocyanum and Eupatorium perp. in nephrotic syndrome.

Long answer question (Any 1 from Q. NO. 5, 6 & 7)

(20 Marks)

Q. 5. Write Homoeopathic approach in treatment of acute myocardial infarction under following heads.

- a) Scope & Limitations. 5 marks
- b) Acute prescription 5 marks
- c) Chronic prescription. 5 marks
- d) Auxiliary Measures with indications of two remedies for the same 5 marks

Q. 6. Describe Homoeopathic approach in treatment of rheumatoid arthritis under following heads

- a) Scope & Limitations. 5 marks
- b) Acute prescription 5 marks
- c) Chronic prescription. 5 marks
- d) Auxiliary Measures with indications of any two remedies for the same 5 marks

Q. 7. Describe Homoeopathic approach in treatment of Trigeminal neuralgia under following heads

- a) Scope & Limitations. 5 marks
- b) Acute prescription 5 marks
- c) Chronic prescription. 5 marks
- d) Auxiliary Measures with indications of any two remedies for the same 5 marks

SECTION : A (SAQ)

Q. 1. Write appropriate answers (Any 10 out of 15) (10x2=20)

- a) What is Supernatural theory?
- b) Name four Water borne diseases.
- c) Name any four modifiable risk factors of IHD.
- d) Four uses of Epidemiology.
- e) Different methods of Screening.
- f) Mention major clinical diagnostic criteria for AIDS.
- g) Agents & Host factors of Japanese encephalitis.
- h) Four levels of Prevention.
- i) Define Rehabilitation.
- j) Mention of Goals for HFA 2000.
- k) Classify Arthropodes.
- l) What are the objectives of Health?
- m) Write the function of P.H.C.
- n) Mention benefits of E.S.I.S.
- o) Define family Planning.

- Q. 2. Write short notes on (Any 4 out of 6) (4x5=20)
- a) Case control study.
 - b) Chikenguinya
 - c) Rule of Halves for HTN.
 - d) Causes & Prevention of Accidents
 - e) Prevention & Control of Leprosy
 - f) Epidemiological Triangle.

- Q. 3. Write short notes on (Any 4 out of 6) (4x5=20)
- a) Balanced diet.
 - b) Septic Tank.
 - c) Composting
 - d) Demographic cycle
 - e) Hormonal method of family planning
 - f) Statistical methods

- Q. 4. **Long Answer Questions** (any 2) (4x5=20)
- a) Epidemiology of Dengue fever.
 - b) Describe in detail about Causes, Control & Prevention of Cancer.
 - c) Under - five child evidence clinic.
 - d) Universal Immunisation programme.

Long Answer Questions (Any one from Q. No. 5, 6 & 7) (20 Marks)

Q. 5. Write procedure of Descriptive Epidemiology

Q. 6. Describe in detail Filtrate of Water.

Q. 7. Describe in detail Occupational hazards with general, Medical & Legislative measures.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

PRELIMINARY EXAMINATION (Summer 2018)

YEAR:- IV B.H.M.S.

Marks:- 100

Sub:- H.M.M. -I

Time :- 3 Hrs.

- Instructions:-**
- 1) All Question carry equal Marks.
 - 2) The number to the **right** indicates **full** marks.
 - 3) Draw diagrams **wherever** necessary.
 - 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
 - 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

SECTION : A (SAQ)

Q. 1. Write appropriate answers (Any 10 out of 15) (10x2=20)

- a) Causation Anacardium
- b) Patho physiology actea racemosa
- c) Two differences of Ars. Alb. & Phos. Git c/o
- d) 2 important key notes Borax
- e) 2 Guiding symptoms of Bromium
- f) 2 modalities of Conium Mac.
- g) Sphere of action of fer. Met.
- h) Patho physiology of Gelsimium
- i) Causation Ignatia
- j) 2/2 modalities of Baryta Carb (</>)
- k) 2 Generalities Belladonna
- l) Common Name of Bufo Rana
- m) Constitution of Cal. Carb
- n) Discharge of Graphites
- o) Tongue of Merc sol.

Q. 2. Write short answers (Any 4 out of 6) (4x5=20)

- a) Phy. General s of Hep sulf.
- b) Modalities of Nat. Carb
- c) Guiding indications of opium
- d) Sphere of action of Lachesis
- e) Phy. Gen. of Phos. Acid
- f) Guiding indications of Plb. Met.

Q. 3. Write Any 4 out of 6) (4x5=20)

- a) Indications of physostigma in eye ball disorder
- b) Indications of Pic. Acid in spinal disorder
- c) Indications of Podophyllum in GIT c/o
- d) Indication of petroleum in skin c/o
- e) GIT C/o Anacardium
- f) Mind – Ignatia

Q. 4. Compare & contrast (4x5=20)

- a) Heart c/o of digitalis and Cact. G.
- b) Renal Colic of Tabacum & Berb. Vul.
- c) Typhoid fever of Baptisia & Acid Phos
- d) Mind of Hyoscyamus and Stramonium

Long Answer Questions (Any one from Q. No. 5, 6 & 7) (20 Marks)

Q. 5. Drug picture of IGNETIA under following heading

Introduction, constitution, Guiding symptoms, Particulars with modalities

Q. 6. Drug picture LYCOPODIUM under following heading

- a) Clinical / non clinical information
- b) Guiding indication
- c) Applied Mat. Med.
- d) Causation / Modalities .

Q. 7. Drug picture "CALC FLOUR" under following heading

- a) Introduction
- b) Biochemic indication
- c) Causation / Modalities
- d) Applied M.M.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

PRELIMINARY EXAMINATION (Summer 2018)

YEAR:- IV B.H.M.S.

Marks:- 100

Sub:- H.M.M. -II

Time :- 3 Hrs.

- Instructions:-**
- 1) All Question carry equal Marks.
 - 2) The number to the **right** indicates **full** marks.
 - 3) Draw diagrams **wherever** necessary.
 - 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
 - 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

SECTION : A (SAQ)

Q. 1. Write appropriate answer (Any 10 out of 15) (10x2=20)

- a) Define Hom. Mat. Medica
- b) Constitution of Chamomilla Baby
- c) Modalities of Rhus. Tox.
- d) Characteristic pain and discharge of Allium Cepa
- e) Discharge of Calc Phos
- f) Write down the common name and family of Euphresia
- g) mental symptomsof Aethuja .c
- h) Anthracinum Discharge and sensation
- i) Carbo animals causation
- j) Corralium . R cough
- k) Collinsonia causation
- l) Medorrhinum constitution
- m) Psorinum discharge
- n) Radium Brom Pains
- o) Lithium Carb pains

Q. 2. Write short answer (4 out of 6) (4x5=20)

- a) Physical general - Nux Vomica
- b) Guiding indications - Ant- crud.
- c) Biochemic indication – Nat. Mur.
- d) Modalities (3Agg and 3 amoel) – Colochicum Aut.
- e) Physical generals – Eup. Per

f) Physical generals - Aconitum. N.

Q. 3. Short answer (Any 4 out of 6) (4x5=20)

- a) Indication in Anemia – Fer. Phos.
- b) Indications of ‘Ran Bulbo’ in Herpes zoaster
- c) Indication of pyrogenium in septic conditions
- d) Indications of carbolic acid in malignancy
- e) Spigellia in “Migraine”
- f) Ver. Album in “Diarrhoea”

LAQ

Q. 4. Long Answers Questions (Any 2 out of 4) (10x2=20)

- a) Injury of Arnica Mont & Led. Pal.
- b) Git c/o of ‘Aloe. Soc.’ & Nux. Vom.
- c) Resp. tract c/o of ‘Ant. Tart/ & “Lob inf”
- d) Haemorrhoids of “Rathania” & “collinsonia”

Long Answers Questions (Write Any 1 out of Q. No. 5, 6 & 7) (20 marks)

Q. 5. Definition of Mat. Medica, Types of Mat. Medica, different ways of studying M.M., sources of M.M.

Q. 6. Describe Drug picture – “SILICEA” under following heading clinical/ Non clinical information, guiding indications; applied Mat. Medica & modalities.

Q. 7. Describe drug picture – “Bacillinum” under following headings;

- i) Clinical / Non clinical information
- ii) Guiding indications / causations
- iii) Applied Mat. med.
- iv) Modalities.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

TERM END EXAMINATION (Winter 2018)

YEAR:- IV B.H.M.S. (Regular)

Marks 50

Sub:- Medicine – I

Time 1.30 Hrs.

Instructions:-

- 1) All Questions are to be solved.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

Q. 1. Write appropriate answer (any 5 out of 8) (2x5=10)

- a) What is cystic fibrosis? Write 4 important clinical features.
- b) What is Bronchiectasis? Write 4 causes of it.
- c) Define Pyrosis; enumerate its 4 causes.
- d) Define Dementia enumerate its four causes.
- e) Define Hyperbilirubinemia and enumerate its 4 causes
- f) Define epilepsy and seizure.
- g) Four predisposing factors to pneumonia.
- h) Give four causes of angular stomatitis.

Q. 2. Write short answer (any 2 out of 4) (5x2=10)

- a) Parotitis
- b) Acute gastritis
- c) Cell-mediated immunity
- d) Asbestosis

LAQ

(30 Marks)

Q. 3. Long answer questions (any 1 out of 2) (10x1=10)

- a) Alzheimer's disease in detail
- b) Explain pleural effusion in detail

Long answer question (any 1 from Q. No. 4, & 5) (20 marks)

Q. 4. Describe Stroke in detail under following heads.

- a) Aetiopathogenesis
- b) Clinical features
- c) Investigations & DD
- d) Management & prevention

Q. 5. Describe chron's disease under following heads.

- a) Aetiology
- b) Clinical features
- c) Diagnosis
- d) Management

SECTION – A (SAQ)

- Q. 1. Write appropriate answer (any 5 out of 8) (5x2=10)
- a) What is sinus rhythm?
 - b) Write ECG finding of Stable angina.
 - c) Radiological findings in severe mitral stenosis.
 - d) Define and write causes of palmer erythema
 - e) What is Hill's sign?
 - f) What is diabetes insipidus?
 - g) Cardiac manifestations of hyperthyroidism
 - h) Write four modifiable risk factors of atherosclerosis

- Q. 2. Write short answers (any 2 out of 4) (2x5=10)
- a) Clinical features & investigations of unstable angina.
 - b) Schilling test.
 - c) Explain pathophysiology of mitral stenosis
 - d) Explain clinical features and investigations of hyperparathyroidism

Long answer question

- Q. 3. Write long answer (any 1 out of 2) (1x10=10)
- a) Explain hypothyroidism.
 - b) Differential diagnosis of acute chest pain.

Write in detail (any 1 from Q. No. 4. & 5) (1x20=20)

- Q. 4. Describe Aortic stenosis under following heads
- a) Aetiology
 - b) Pathophysiology
 - c) Clinical Features.
 - d) Investigation & management

OR

- Q. 5. Describe Cushing's syndrome under following heads (1x20=20)
- a) Aetiology
 - b) Pathophysiology
 - c) Clinical Features.
 - d) Investigation & management

TERM END EXAMINATION (Winter 2018)

YEAR:- IV B.H.M.S.

Marks 50	Sub:- Medicine – III	Time 1 ½ Hrs.
Instructions:- 1) The number to the right indicates full marks. 2) Draw diagrams wherever necessary. 3) Do not write anything on the blank portion of the question paper . If written anything, such type of act will be considered as an attempt to resort to unfair means. 4) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.		

SECTION – A (SAQ)

Q. 1. Write appropriate answer (any 5 out of 8) (5x2=10)

- Write indications of Ipecac in Acute Bronchial asthma.
- Write indications of spongia in acute bronchitis.
- Write indications of Podophyllum in malabsorption syndrome.
- Write indications of Glonoine in Heat stroke.
- Write indications of Spigelia in angina pectoris.
- Write indications of Cactus grand in arrhythmia
- Write indications of Calcarea carb in peptic ulcer.
- Write indications of Tuberculinum in thyrotoxicosis

Q. 2. Write short answers (any 2 out of 4) (2x5=10)

- Ars alb in chronic bronchitis
- Bryonia in acute pericarditis
- Palpitation –spigellia
- Puls in acute hepatitis

Long answer question

Q. 3. Write long answer (any 1 out of 2) (1x10=10)

- Indications of Bryonia & Phos acid in type I diabetes mellitus.
- Indications of Ars iod & Sulph in acute amoebic colitis.

Write in detail (any 1 out of Q's 4 & 5) (1x20=20)

Q. 4. Write Homoeopathic approach in the treatment of COPD under following heads

- Scope & Limitations.
- Acute prescribing.
- Chronic prescribing.
- Indications of 2 important remedies.

OR

Q. 5. Write Homoeopathic approach in the treatment of atrial fibrillation under following heads

- Scope & Limitations.
- Acute prescribing.
- Chronic prescribing.
- Indications of 2 important remedies.

- a) Discuss various types of Chronic diseases.
- b) Discuss types of Homoeopathic Aggravation.
- c) Discuss Greek medicine in detail. Write 4 contributions of Hippocrates.
- d) Explain Theory of chronic disease. Give 6 important features of Psora .

Long Answer Question (any 1 out of Q. No. 5, 6 & 7) (1x20=20)

Q. 5. What is Indian Medicine? Explain Ayurveda in detail.

OR

Q. 6. Explain Susceptibility plays important role in which fields. What are factors affecting Susceptibility. What is increased Susceptibility & decreased sueceptibility.

OR

Q. 7. What is Nature & Types & Management of Mental Diseases? Explain in detail.

**SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD
PRELIMINARY EXAMINATION (Winter- 2018)
YEAR:- IV B.H.M.S.**

Marks 100	Sub:- Organon of Medicine – II	Time 3 Hrs.
----------------------	---------------------------------------	------------------------

- Instructions:-**
- 1) All Question carry equal Marks.
 - 2) The number to the **right** indicates **full** marks.
 - 3) Draw diagrams **wherever** necessary.
 - 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
 - 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

SECTION : A (SAQ)

Q. 1. Write appropriate answer (any 10 out of 15) (10x2=20)

- a) How to use 'Reason Gifted Mind'.
- b) Laws of Quantity & Quality.
- c) Laws of Drug Proving – 3 statements.
- d) Who is Sick?
- e) Recovery & Cure.
- f) Kent's 7th observation.
- g) Types of Temperaments.
- h) Psychological Point of view.
- i) Tolle Causam.
- j) Laws of Physics & Chemistry applicable for Homoeopathy.
- k) Infinitesimal Dose.
- l) Potentization.
- m) 2nd Best Remedy.
- n) Hering's Law of Cure.
- o) 4 features of Syphilitic Miasm.

Q. 2. Write short notes on (any 4 out of 6)

(4x5=20)

- a) Medical Sciolists & Therapeutic Nihilism.
- b) Dr. Hahnemann's Position 18th century medicine.
- c) Substantialism.
- d) Life Health & Disease – Explain.
- e) Law & Government from centre – Explain.
- f) 'Sick' - Explain.

Q. 3. Write short answer (any 4 out of 6)

(4x5=20)

- a) What Homoeopathy has to offer to young Man.
- b) Facilitation.
- c) Deflected current.
- d) Rules of Posology.
- e) Materialism in Medicine.
- f) Medicinal aggravation.

SECTION: B (LAQ)

Q. 4. Long Answer Question

(10x2=20)

- a) Explain Logic in detail & its application in Homoeopathy.
- b) Discuss 'Sick' Man.
- c) Discuss Removal of Totality is Removal of Symptoms.
- d) Discuss Potentization. Give examples of Natural Potentization. Give Law of Maupertius & Fincke.

LAQ (any 1 from Q. No. 5, 6 & 7)

(1x20=20)

Q. 5. Explain Kent's observation in detail.

OR

Q. 6. Explain Second Prescription. What are Kent's & Robert's rules of Repetition.

OR

Q. 7. Explain features of Psora as deficiency.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

PRELIMINARY EXAMINATION (Winter - 2018)

YEAR:- IV B.H.M.S.

**Marks 100
Hrs.**

Sub:- Medicine – I

Time 3

Instructions:- .

- 1) All Question carry equal Marks.
- 2) The number to the right indicates full marks.
- 3) Draw diagrams wherever necessary.
- 4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

Q.1 Write in short (Any 10 out of 15)

(10 X 2 = 20)

- a) Write four common causes of persistent vomiting
- b) Write four common causes of upper GI bleeding
- c) Write four causes of halitosis
- d) What is the normal daily requirement of iron?
- e) Explain shigellosis.
- f) Write four clinical features of rubella
- g) Write four causes of acute respiratory failure
- h) Write four clinical features of pleurisy
- i) Write four pulmonary causes of clubbing of fingers
- j) Write four physiological functions of insulin
- k) Write four causes of hyperparathyroidism

- l) Write common causes of hypothyroidism
- m) Write four features of tetany
- (n) What are the warning signs of immune deficiency?
- o) Write four common causes of malnutrition

Q.2 Write short answers of the following (any 2 out of 4) (4 X 5 = 20)

- a) Clinical features of acromegali b) Clinical features of chronic Bronchitis
- c) Explain the factors influence iron absorption d) Explain achalsia cardia
- e) Klinefelter's syndrome f) Explain dengue shock syndrome

Q.3 Write Short notes on (any 4 out of 6) (4 X 5 = 20)

- a) Clinical features and management of empyema b) Kwashiorkar
- c) Clinical features and management of heat cramps d) Niacin deficiency
- e) Barret's oesophagus f) Etiology and Clinical features of Down's Syndrome

Q.4 Write in Brief about (any 2 out of 4) (2 X 10 = 20)

- a) Describe in detail about etiology, pathology, clinical features and management of community acquired pneumonia.
- b) Describe in detail about etiology, pathology, clinical features and investigations of Hodgkin's lymphoma.
- c) Describe Vitamin C deficiency.
- d) Describe in detail about etiology, pathology, clinical features and management of Leptospirosis.

Write long answer Question (any 1 from Q.5, Q.6, and Q.7) (1 X 20 = 20)

- Q.5 Describe in detail about etiology, pathogenesis, clinical features and investigations of typhoid fever

OR

- Q.6 Describe in detail about Obesity.

OR

Q.7 Describe in detail etiology, clinical features, investigations, and management of peptic ulcer.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

PRELIMINARY EXAMINATION (Winter 2018)

YEAR:- IV B.H.M.S.

Marks 100	Sub:- Medicine – II	Time 3 Hrs.
----------------------------	----------------------------	------------------------------

Instructions:-

- 1) All Question carry equal Marks.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q.1 Write in short (Any 10 out of 15) (10 X 2 = 20)

- a) Mention any four extra-articular manifestation of **rheumatoid disease**
- b) Define **sinus rhythm**.
- c) What is the ECG features **Atrial Flutter**.
- d) What is **sickle cell trait and sickle cell anaemia**?
- e) **Define polyuria** and give at least four causes.
- f) What is **spider naevi**? What is its significance?
- g) What are the features of **Fallot's tetralogy**?
- h) What is **schizophrenia** mention at least 4 causes?
- i) Mention 4 important **types of Psoriasis**.
- j) Mention 4 causes of **Haematuria**
- k) Mention 4 important causes of **Hyperbilirubinemia**.
- l) **Important causes of psychosis**
- m) What are 4 important features of lesions of **primary syphilis**?
- n) Write **4 causes of hypertonia** of muscle
- o) What is **pyramidal gait**? **Mention 2 causes**.

Q. 2. Answer following question (any 4 out of 6) (4x5=20)

- a) Explain **Osteoarthritis**.
- b) Explain **unstable Angina**.
- c) Explain **Tinea cruris**
- d) Explain **personality disorders**

e) Describe **Proteinuria**

f) Explain **Ascites**

Q. 3. Answer (any 4 out of 6)

(4x5=20)

a) Explain **Oedema**

b) Describe **Hepatitis B**

c) Describe **Nettle rash**

d) Features of **Apgar score**

e) **Meningitis**

f) **spondylosis.**

LAQ

Q. 4. Answer in brief about (Any 2 out of 4)

(2x10=20)

a) What is **cyanosis**? What are the types & causes of cyanosis & how will you clinically differentiate types of cyanosis.

b) Explain nephrotic syndrome.

c) Define **diarrheal disease**? What are the various causes of acute diarrhoea in children?

d) Describe aetiology, histopathology, and clinical features of **lichen planus**.

Write long answer Question (any 1 from Q.5, Q.6, and Q.7)

(1 X 20 = 20)

Q. 5. Describe **Alzheimer's disease under following heading**

a) Aetiology

b) pathogenesis

c) Clinical features

d) Investigation & management

OR

Q. 6. **Hodgkin's lymphoma**

a) Aetiology

b) pathogenesis

c) Clinical features

d) Investigation & management

OR

Q. 7. **Aortic regurgitation**

a) Aetiology

b) pathogenesis

c) Clinical features

d) Investigation & management

SECTION : A (SAQ)

Q. 1. Write appropriate answers (Any 10 out of 15) (10x2=20)

- a) Causation - Anacardium
- b) Patho physiology - Actea Racemosa
- c) Two differences of - Ars. Alb. & Phos. in Git c/o
- d) 2 important key notes Borax
- e) 2 Guiding symptoms of Bromium
- f) 2 modalities of - Conium Mac.
- g) Sphere of action of - Fer. Met.
- h) Patho physiology of Gelsimium
- i) Causation - Ignatia
- j) 2/2 modalities of - Baryta Carb (</>)
- k) 2 Generalities - Belladonna
- l) Common Name of - Bufo Rana
- m) Constitution of - Cal. Carb
- n) Discharge of - Graphites
- o) Tongue of - Merc sol.

Q. 2. Write short answers (Any 4 out of 6) (4x5=20)

- a) Phy. General s of - Hep sulf.
- b) Modalities of- Nat. Carb
- c) Guiding indications of - Opium
- d) Sphere of action of - Lachesis
- e) Phy. Gen. of - Phos. Acid
- f) Guiding indications of - Plb. Met.

Q. 3. Write (Any 4 out of 6) (4x5=20)

- a) Indications of Physostigma in - eye ball disorder
- b) Indications of Pic. Acid in - spinal cord disorder
- c) Indications of Podophyllum in - GIT c/o
- d) Indication of petroleum in - skin c/o
- e) GIT C/o - Anacardium
- f) Mind – Ignatia

Long Answer Questions

Q. 4. Compare & contrast (any 2 out of 4) (10x2=20)

- a) Heart c/o of - Digitalis and Cact. G.

- b) Renal Colic of - Tabacum & Berb. Vul.
- c) Typhoid fever of - Baptisia & Acid Phos
- d) Mind of - Hyoscymus and Stramonium

Long Answer Questions (Any one from Q. No. 5, 6 & 7)

(1x20 =20)

Q. 5. Drug picture of IGNETIA under following heading
Introduction, constitution, Guiding symptoms, Particulars with modalities

OR

Q. 6. Drug picture LYCOPODIUM under following heading

- a) Clinical / non clinical information
- b) Guiding indication
- c) Applied Mat. Med.
- d) Causation / Modalities .

OR

Q. 7. Drug picture "CALC FLOUR" under following heading

- a) Introduction
- b) Biochemic indication
- c) Causation / Modalities
- d) Applied M.M.

- d) Natrum sulph in Bronchial Asthma

Q. 3. Long answer questions (any 1 out of 2) (10x1=10)

- a) Indications of Antim tart & Ignitia in hyperchlorhydria.
- b) Hypethermia in detail

Long answer question (any 1 from Q. No. 4, & 5) (20 marks)

Q. 4. Describe bronchial asthma in detail under following heads with homoeopathic theraps of 2 drugs.

- a) Aetiopathogenesis & types
- b) Clinical features
- c) Investigations & DD
- d) Management & prevention

Q. 5. Describe Cirrhosis of liver under following heads with homoeopathic theraps of 2 drugs.

- a) Aetiology
- b) Clinical features
- c) Diagnosis
- d) Management

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

Term End Examination (Summer 2019)

YEAR:- IV B.H.M.S.(New+2015)

Marks 50	Sub; Case Taking & Repertory	Time 1 ½ Hrs.
-------------	------------------------------	------------------

Instructions:- .

- 1) The number to the **right** indicates **full** marks.
- 2) Draw diagrams **wherever** necessary.
- 3) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 4) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

SECTION – A (SAQ)

Q. 1. Write appropriate answer (any 5 out of 6) **(5x2=10)**

- a) Qualities of Physician for case taking as per organon of medicine.
- b) Define Eliminating Symptom.
- c) Classification of i. Bell's Diarrhoea ii. Phatak's Repertory
- d) Definition and Types of Cross References.
- e) Meaning of Ruberics I. Cowardice II. Admonition Aggravation.
- f) Define Repertory and Rubric.

Q. 2. Write short answers (any 4 out of 5) **(4x5=20)**

- a) Scope & Limitation of Homoeopathic Repertory
- b) Boericke's Repertory
- c) Berridge's Eye Repertory.
- d) Advantages and Disadvantages of Card Repertory
- e) What are the difficulties in taking chronic case?

Long answer questions

Q. 3. Write long answer (any 1 out of 3) **(1x20=20)**

- a) Explain in detail Kent's Repertory.
- b) Explain in detail Historical Evolution of Repertory.
- c) Explain in detail BTPB.

As it is only for the placement sake, the distribution has been done.

Q.1 Write in short (any 10 out of 15)

10 X 2 = 20

- a) Explain giardiasis
- b) Write four common causes of acute pancreatitis
- c) Write four common contraindication of upper GI endoscopy
- d) Enumerate nephrogenic causes of diabetes insipidus
- e) Write names of any four exanthematous febrile illnesses.
- f) Write four clinical features of German measles
- g) Define respiratory failure
- h) Write three important clinical signs of pleural effusion
- i) Write four pulmonary causes of central cyanosis
- j) Write four clinical manifestations of Vit C deficiency
- k) Write clinical features of primary hyperparathyroidism
- l) Write common causes of hyperthyroidism
- m) Write four features of tetany
- (n) What are the warning signs of immune deficiency?
- o) Write common causes of hypoproteinaemia

Q.2 Write short answers of the following: (any 4)

(4 X 5 = 20)

- a) Explain cor pulmonale

- b) Clinical features of hypothyroidism
- c) Clinical features and management of Frost bite
- d) Write short note on hematemesis
- e) Explain bulimia
- f) Explain clinical features of measles

Q.3 Write Short notes on: (any 4) (4 X 5 = 20)

- a) Clinical features and investigations of lung abscess
- b) Niacin deficiency
- c) Clinical features of ca oesophagus
- d) Clinical features of drowning
- e) Clinical features of hyperthyroidism
- f) Aetiology and Clinical features of Albinism

Q.4 Write in Brief about: (any 2) (2 X 10 = 20)

- a) Describe in detail about aetiology, Pathology, Clinical features and investigations of bronchiectasis.
- b) Describe in detail about aetiology, Pathology, Clinical features and investigations of Crohn's disease.
- c) Describe Obesity in detail.
- d) Describe autoimmune disorder 'SLE' in detail.

Write long answer Questions (any 1 from Q.5, Q.6, and Q.7) (1 X 20 = 20)

Q.5 Describe in detail about aetiology, pathogenesis, clinical features and investigations of celiac disease.

OR

Q.6 Describe in detail about Folic acid deficiency.

OR

Q.7 Describe in detail aetiology, clinical features, investigations, complications of diphtheria

- b) Boericke's Repertory
- c) Berridge's Eye Repertory.
- d) Advantages and Disadvantages of Card Repertory
- e) What are the difficulties in taking chronic case?

Long answer questions

Q. 3. Write long answer (any 1 out of 3) **(1x20=20)**

- a) Explain in detail Kent's Repertory.
- b) Explain in detail Historical Evolution of Repertory.
- c) Explain in detail BTPB.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

1st & 2nd Term End Examination (Winter - 2019 Batch)

YEAR: - IV B.H.M.S.(New+2015)

Marks:-100

Sub:- Organon of Medicine

Time :-3 hrs.

Instructions:- .

- 1) All Question carry equal Marks.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

SECTION – A (SAQ)

Q. 1. Write appropriate answer (any 10 out of 15) (10x2=20)

- a) Preserver of health.
- b) Higher purpose of existence.
- c) Secondary action & its types.
- d) Repetition in intermittent fever.
- e) Name the 4 temperaments.
- f) 4 features of Tubercular miasm
- g) Suppression.
- h) Idiosyncrasy.
- i) 4 features of Syphilis miasm.
- j) Indications of low potency.
- k) Indications of high potency.
- l) Limitations of Homoeopathy.
- m) Scope of Homoeopathy.
- n) Surrogates.
- o) Indisposition.

Q. 2. Write short answer (any 4 out of 6) (4x5=20)

- a) Treatment of local maladies.
- b) 50 millesimal scale
- c) Diet & Regimen in acute & chronic diseases.
- d) Auxillary mode of treatment.
- e) Mode of preparation of medicines.
- f) Homoeopathic specific remedy.

- Q. 3. Write short answer (any 4 out of 6) (4x5=20)
- a) Toxicological theory of diseases.
 - b) Homoeopathic aggravation
 - c) Deflected current.
 - d) What Homoeopathy has to offer to young man? Explain according to Dr. Roberts philosophy.
 - e) Life, Health & Disease according to Dr. Stuart Close.
 - f) Psychological point of view according to Dr. Stuart Close.

- Q. 4. Long answer questions (any 2 out of 4) (2x10=20)
- a) Explain Schools of Philosophy according to Dr. Stuart Close .
 - b) Explain Potentization & infinitesimal doses according to Dr. Stuart Close
 - c) Explain Psora or Deficiency according to Dr. Roberts.
 - d) Explain Sycois as over construction according to Dr. Roberts.

Long answer question (Any 1 from Q. NO. 5, 6 & 7) (20 Marks)

- Q. 5. Explain Logic of Homoeopathy & its applications according to Dr. Stuart Close Philosophy.

OR

- Q. 6. Explain Fundamental laws according to Dr. Roberts Philosophy.

OR

- Q. 7. Explain Schools of Philosophy according to Dr. Stuart Close.

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

YEAR:- IV B.H.M.S.(2015)

Marks 50

Sub:- Medicine – II

Time 1.30 Hrs.

Instructions:-

- 1) All Questions are to be solved.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

Q. 1. Write appropriate answer (any 5 out of 8) (2x5=10)

- g) Aetiology of Iron deficiency anemia and indications of one homeopathic remedy for the same
- h) Explain paroxysmal nocturnal dyspnoea.
- i) ECG changes in first degree AV block.
- d) Write indications of Phos in haemolytic anaemia
- e) Write causes of retention of urine and indications of Apis mel.
- f) Write indications of Lyc in renal pains
- g) Write four manifestations of Vit A deficiency.
- h) Write indications of Spigelia in stable angina.

Q. 2. Write short answer (any 2 out of 4) (5x2=10)

- a) Stable angina
- b) Acute pyelonephritis
- c) Describe Scurvy
- d) Explain causes, signs and symptoms of megaloblastic anemia

LAQ (30 Marks)

Q. 3. Long answer questions (any 1 out of 2) (10x1=10)

- a) Explain mitral regurgitation in detail with indications of two homeopathic medicines
- b) Explain protein energy malnutrition in detail with indications of Calc phos and Abrotanum

Long answer question (any 1 from Q. No. 4, & 5) (20 marks)

Q. 4. Describe chronic renal failure in detail under following heads.

- a) Aetiology
- b) Pathophysiology
- c) Clinical features, investigations
- d) Indications of two homeopathic medicines

Q. 5. Describe acute myocardial infarction in detail under following heads.

- a) Aetiology
- b) Clinical features, Investigations
- c) Complications and
- d) Indications of two homeopathic medicines

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD

1st TERM END EXAMINATION (Winter 2019)

YEAR:- IV B.H.M.S. (2016 Batch)

Marks 50

Sub:- Medicine –II

Time 1.30 Hrs.

Instructions:-

- 1) All Questions are to be solved.
- 2) The number to the **right** indicates **full** marks.
- 3) Draw diagrams **wherever** necessary.
- 4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q. 1. Write appropriate answer (any 5 out of 8) (2x5=10)

- a) Write indications of Aur met in hypertention.
- b) Explain water hammer pulse
- c) Indications of Sepia in Stoke Adam attacks
- d) Explain ataxia with indications of Gels.
- e) Explain indications of Sanuinaria in migraine
- f) Write indications of Glonoine in Heat stroke.
- g) Explain chill blain with indications of Ars alb

Q. 2. Write short answer (any 2 out of 4) (5x2=10)

- a) Explain heart blocks
- b) Explain clinical features of Parkinsonism
- c) Explain complications of hypertention
- d) Differentiate lower and upper motor neuron lesions

LAQ

(30 Marks)

Q. 3. Long answer questions (any 1 out of 2) (10x1=10)

- a) Indications of Lachesis & Ignitia in Hysteria
- b) Hypethermia in detail

Long answer question (any 1 from Q. No. 4, & 5) (20 marks)

Q. 4. Describe epilepsy in detail under following heads with homoeopathic theraps of 2 drugs.

- a) Aetiopathogenesis & types
- b) Clinical features
- c) Investigations & DD
- d) Management

Q. 5. Describe aortic stenosis under following heads with homoeopathic theraps of 2 drugs.

- a) Aetiology
- b) Clinical features
- c) Diagnosis
- d) Management

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD
PRELIMINARY EXAMINATION (Nov - 2019)
YEAR:- IV B.H.M.S. (2015)

Marks 100

Sub:- Medicine – I

Time 3 Hrs.

Instructions:- .

- 1) All Question carry equal Marks.
- 2) The number to the right indicates full marks.
- 3) Draw diagrams wherever necessary.
- 4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q.1 Write in short (any 10 out of 15)

(10 X 2 = 20)

- a) Give indications of Aloe soc for giardiasis
- b) Explain Cullen's sign of acute pancreatitis
- c) Write four common indication of upper gastrointestinal endoscopy
- d) Write indications of Croton tig in acute enteritis
- e) Write indications of Ars iod in acute hepatitis A.
- f) Write names of four important drugs for acute bronchitis
- g) Define respiratory failure
- h) Write four important clinical signs of pleural effusion
- i) Write four important clinical signs of hypovolaemia
- j) Write four pulmonary causes of central cyanosis
- k) Write indications of Mag mur in chronic hepatitis
- l) What is the normal plasma sodium level
- m) Define hypothermia
- (n) Define innate immunity
- o) What are the physiological effects of high altitude

Q.2 Write short answers of the following: (any 4)

(4 X 5 = 20)

- a) Explain **acute gastritis**
- b) Clinical features and management of **Frost bite**
- c) Write clinical types, and their various causes of **jaundice**
- d) Write clinical features and investigations of **lung abscess**
- e) Write symptoms, signs, and investigations of **community acquired pneumonia**
- f) Explain acute **pharyngitis**

Q.3 Write Short notes on: (any 4)

(4 X 5 = 20)

- a) Clinical features of acute bronchitis and indications of **Spongia tosta**
- b) Explain indications of **Sabadilla** in Bronchial asthma
- c) Explain indications of **Hepar sulph** in liver abscess
- d) Explain indications of **Plumbum met** in Cirrhosis of liver
- e) Explain indications of **Iris vers** in acute pancreatitis
- f) Explain indications of **Gels** in heat exhaustion
- g) Explain **Bronchial asthma** in relation with the immunological factors and the susceptibility

Q.4 Write in Brief about: (any 2)

(2 X 10 = 20)

- a) Describe aetiology, clinical features and investigations of **bronchiectasis** and give indications of any two homeopathic drugs.
- b) Describe aetiology, clinical features and investigations of **acute cholecystitis** and give indications of any two homeopathic drugs
- c) Describe aetiology, clinical features and investigations of **coeliac disease** and give indications of any two homeopathic drugs.
- d) Describe the immunological factors involved in **chronic relapsing diarrhoea** with a note on susceptibility

Write long answer Question any 1 from Q.5, Q.6, and Q.7 (1 X 20 = 20)

Q.5 Describe in detail about **chronic obstructive lung disease under following heads**

- a) Aetiology, and pathophysiology
- b) Clinical features and investigations
- c) Miasmatic understanding and
- d) Give indications of two homeopathic medicines for chronic prescribing

Q.6 Describe in detail about **ulcerative colitis under following heads**

- a) Aetiology and pathogenesis
- b) Clinical features and investigations
- c) Scope and limitations of homeopathy
- d) Give indications of two homeopathic medicines for acute presentation of the condition

Q.7 Describe in detail about **cirrhosis of liver under following heads**

- a) Aetiology and clinical features
- b) Investigations
- c) Scope and limitations of homeopathy

- d) Give indications of two homeopathic medicines for acute presentation of the condition
- e)) Add a note on auxiliary mode of treatment

SECTION – A (SAQ)

Q. 1. Write appropriate answer (any 10 out of 15) (10x2=20)

- a) Indications of Rhus tox in Beri Beri.
- b) Indications of acetic acid in scurvy.
- c) Indications of belladonna in diabetes mellitus.
- d) Indications of Ferrum Phos in Anemia.
- e) Indications of Baryta carb in Malnutrition.
- f) Define dementia enumerate its two causes.
- g) Define Creutzfeldt–Jakob disease enumerate its 2 causes.
- h) Define polyuria enumerate its 2 causes.
- i) Define Urethritis, enumerate its 2 causes.
- j) Indications of spigelia in rheumatic Heart Complaints
- K) Indications of Nat Mur in Herpes simplex.
- l) Indications of Bryonia alb in Arthritis.
- m) Indications of sulphur in Tenia cruris.
- n) Indications of Merc Sol in Balanitis.
- o) Indications of antim Tart in Impetigo.

Q. 2. Write short answers (any 4 out of 6) (4x5=20)

- a) Angina Pectoris.
- b) Fallot's tetralogy.

- c) Tinea Versicolor
- d) Keloid.
- e) Anorexia Nervosa.
- f) Nocturnal Enuresis.

Q.3. Write short answers (any 4 out of 6) (4x5=20)

- a) Indications of Phos in Diabetes insipidus
- b) Indications of Cantharis in Glomerulonephritis.
- c) Indications of Bromium in Molluscum contagiosum
- d) Indications of Ruta in Frozen shoulder.
- e) Indications of Arnica in Osteoarthritis.
- f) Indications of Graph in hyperlipidemia

Q.4. Long answer question (any 2 out of 4) (2x10=20)

- a) Describe Obesity in details with Indications of phytolcca D & calc carb.
- b) Describe Beta thalassemia major with indications of Crot.horr. & Lach..
- c) Describe Lichen Planus with indications of Apis & Sarsaparilla.
- d) Describe Herpes Zoster with indications of Hypericum & Rhus Tox.

Write in detail (any 1 from Q. No. 5, 6 & 7)

Q.5. Describe Alzheimer's disease under following heads: (1x20=20)

- a) Aetiopathogenesis
- b) Clinical features
- c) Scope & Limitation
- d) Chronic prescribing.

Q.6. Describe Atherosclerosis under following heads: (1x20=20)

- a) Aetiology
- b) Scope & Limitation
- c) Chronic prescribing
- d) Auxiliary line of Management.

Q.7. Describe Malaria under following heads: (1x20=20)

- a) Clinical diagnosis
- b) Scope & Limitation
- c) Acute prescribing
- d) Auxiliary line of Management.

- a) Salient features of Boger Synoptic Key
- b) Plan of construction of Allen's Fever Repertory
- c) Historical Evolution & Salient features of Bell's Diarrhoea
- d) Plan of construction & Classification of Berridge's Eye Repertory
- e) Plan of construction & Classification of Borland's Pneumonia
- f) Evaluation of symptoms by Dr. Kent

Q.4 Write Long Answers (any 2 out of 4) (2x10=20)

- a) What are the Concordance Repertories & Describe Gentry's Repertory
- b) Describe the Relationship of Repertory with HMM and Organon
- c) Define Record Keeping and its Importance
- d) What are the difficulties in taking the chronic case?

Q. Long Answer Question (any one from Q. No. 5, 6 and 7) (1x20=20)

Q. No. 5. Explain BBCR in detail

Q. No. 6. Write in detail comparative study of Kent's Repertory and BTPB

Q. No. 7. Write the Historical Evolution of Repertory in detail

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD
PRELIMINARY EXAMINATION, [Winter 2019]
YEAR: IV BHMS

MARKS 100	Sub: Community Medicine	Time 3 Hrs.
----------------------------	--------------------------------	------------------------------

- Instructions:*
- 1) Use **blue/black** ball point pen only
 - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All questions are compulsory**
 - 4) The number to the **right** indicates **full** marks.
 - 5) **Draw** diagrams **wherever** necessary.
 - 6) Distribution of syllabus Question Paper is only meant to cover entire syllabus within the stipulated frame. The question Paper pattern is a mere guideline. Question can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

Q.1. Write appropriate answers [Any 10 out of 15] [10x2=20]

- a] Define rehabilitation
- b] Complication of rubella
- c] Four risk factors of CHD
- d] Types of vaccines
- e] What is nosocomial infection
- f] What is pneumoconiosis?
- g] Mention elements primary Healthcare
- h] Write Goals of Health for All
- i] Give four examples of vital statistics
- j] Which are components of quality of life indicator?
- k] Mention objectives of Health education
- l] Distinguish between statistical association and causal association
- m] Define Maternal Mortality Rate
- n] Symptoms of Beriberi
- o] Diagnostic test for AIDS and Syphilis

- Q.2. Write short notes on [Any 4 out of 6] [4x5=20]
- a] Case control study
 - b] Prevention and control of Malaria
 - c] Warning signs of Cancer
 - d] OPV. Vaccine
 - e] Epidemiological Triad
 - f] Vitamine-A

- Q.3. Write short notes [Any 4 out of 6] [4x5=20]
- a] Chlorination
 - b] Immunizing agents
 - c] Suceive Parasitism
 - d] Ice berg
 - e] E.S.I.Sceme
 - f] Red cross

- Q.4. Write LAQ [Any 2 out of 4] [2x10=20]
- a] Define balanced diet, mention dietary goals and write note on Nutritional problems.
 - b] Describe New borne child care and post natal-care
 - c] Describe role of Homoeopathy in General practice

Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for placement's sake, the distribution has been done.

Q. 1. Write appropriate answer (any 10 out of 15)

(10x2=20)

- a) Define Osteomalacia, enumerate its types
- b) Define gout, enumerate its causes
- c) Define sinus tachycardia, enumerate its 4 pathological causes.
- d) Define atrial fibrillation enumerate its 4 causes.
- e) Define ventricular tachycardia enumerate its 3 causes.
- f) Define seizures enumerate its 4 triggering factors.
- g) Define transient ischemic attack enumerate at least 2 differential diagnosis.
- h) Enumerate 4 causes of loin pain.
- i) Define acute pyelonephritis, explain its classic triad.
- j) What is Kayser-Fleischer rings explain its clinical importance.
- K) Enumerate 4 sources of Hepatitis-B infection.
- l) Define schizophrenia, enumerate clinical features of Acute schizophrenia
- m) Define eating disorders, enumerate its 2 types.
- n) Define boil enumerate its 2 causes.
- o) Define dermatitis enumerate its 4 causes.

Q. 2. Write short answers (any 4 out of 6)

(4x5=20)

- a) Anorexia nervosa.
- b) Wilson disease.
- c) Depression
- d) Tenia versicolor
- e) Thrombocytopenia
- f) Aortic aneurysm.

Q.3. Write short answers (any 4 out of 6)

(4x5=20)

- a) Bulimia nervosa
- b) Acute renal failure.
- c) Lichen planus
- d) Polyurea.
- e) Cholelithiasis
- f) Thrombocytosis

Q.4. Long answer question (any 2 out of 4)

(2x10=20)

- a) Chronic eczema
- b) Chronic Renal failure.
- c) Anxiety neurosis.
- d) Myocardial infarction.

Write in detail (any 1 from Q. No. 5, 6 & 7)

(1x20=20)

Q.5. Describe Myasthenia gravis under following heads:

- a) Pathophysiology
- b) Clinical features
- c) Investigations
- d) Management

Q.6. Describe cirrhosis under following heads:

- a) Aetiology.
- b) Pathogenesis
- c) clinical features
- d) Management

Q.7. Ankylosing spondylitis:

- a) Aetiology
- b) Clinical manifestations
- c) Investigation
- d) Management.

YEAR:- IV B.H.M.S. (New)

Marks 100	Sub:- Medicine – III	Time 3 Hrs.
-----------	----------------------	-------------

Instructions:- .

- 1) All Question carry equal Marks.
- 2) The number to the right indicates full marks.
- 3) Draw diagrams wherever necessary.
- 4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

Q.1 Write in short (any 10 out of 15) (10 X 2 = 20)

- a) Mention four important indications of Hepar sulph in croup
- b) Give four characteristic indications of Kali Mur in pneumonia
- c) Write four characteristic features of Cantharis in pleurisy
- d) Write four characteristic features of Puls in mumps
- e) Write indication of Ran bulb in Herpes zoster.
- f) Give four indications of Bry alba for acute peritonitis
- g) Give four indications of Merc sol in Vincet's angina
- h) Write four characteristic features of Ars alb in acute gastritis
- i) Mention four important features of Iodum in Marasmus
- j) Give indications of Gels in Vit B₁₂ deficiency
- k) Give four characteristic indications of Acetic acid in Diabetes Insipidus
- l) Give four characteristic indications of Phos acid in ketoacidosis
- m) Give four characteristic indications of Sulphur in porphyrias
- n) Give four characteristic indications of Baryta carb in Goitre
- o) Mention four important indications of Gels in hyperthermia

Q.2 Write short answers of the following: (any 4) (4 X 5 = 20)

- | | |
|---------------------|--------------|
| a) Acute bronchitis | Kali carb |
| b) Acute enteritis | Ars alb |
| c) Hypokalemia: | Calc card |
| d) Beri beri: | Fluoric acid |
| e) Crohn's disease | Merc sol |
| f) Splenomegali: | China |

Q.3 Write Short notes on: (any 4) (4 X 5 = 20)

- a) Write indications of Ars alb in pulmonary tuberculosis
- b) Write indications of Abrotanum PEM
- c) Indications of Baptisia in typhoid fever
- d) Indications of Phos in Addison's disease
- e) Conium in lymphadenopathy

f) Sun-stroke of glonine

Q.4 Write in Brief about: (any 2) (2 X 10 = 20)

- a) Write indications of Spigelia and Bryonia in stable angina
- b) Write indications of Colchicum and Canth in acute pyelonephritis
- c) Write indications of Phos ac and Caust in Guillain Barresyndrome
- d) Write indications of Calc phos & Calc fluor in osteoarthritis

Write long answer Question any 1 from Q.5, Q.6, and Q.7 (1 X 20 = 20)

Q.5 Write Homoeopathic approach in the treatment of epilepsy under following heads

- a) Scope & Limitations.
- b) Acute prescribing.
- c) Chronic prescribing.
- d) Indications of 2 important Homoeopathic remedies & an approach to its treatment

Q.6 Write Homoeopathic approach in the treatment of heart failure under following heads

- a) Scope & Limitations.
- b) Acute prescribing.
- c) Chronic prescribing.
- d) Indications of 2 important Homoeopathic remedies & an approach to its treatment

Q.7 Write Homoeopathic approach in the treatment of gout under following heads

- a) Scope & Limitations.
- b) Acute prescribing.
- c) Chronic prescribing.
- d) Indications of 2 important Homoeopathic remedies & an approach to its treatment.

PRELIMINARY EXAMINATION (Summer 2021)

YEAR:- IV B.H.M.S.(New+2015)

Marks:- 100

Sub:- H.M.M. -I

Time :- 3 Hrs.

Instructions:- 1) All Question carry equal Marks.

2) The number to the **right** indicates **full** marks.

3) Draw diagrams **wherever** necessary.

4) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an **attempt** to resort to unfair means.

5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q. 1. Write appropriate answers (Any 10 out of 15)

(10x2=20)

- a) Tongue – Nat.Sulph.
- b) Write 4 "Thirstless" remedies.
- c) Write Family & Common name "Arnica Mint".
- d) Write 4 remedies from "Solanaceae" family.
- e) 2 characteristic symptoms of "Ars.Iod".
- f) 2 Mentals of "Cannabis Indica"
- g) 2 remedies for injury - CNS.
- h) 4 remedies from Carbon group.
- i) 2 General modalities of "Fer.Met".
- j) 2 keynotes of headache in "Nat Mur".
- k) 2 keynotes of female complaints "Murex".
- l) 2 keynotes of Teeth complaints "Kreosotum".
- m) 2 Mentals of "Platina".
- n) 2 keynotes of Heart complaints "Digitalis".
- o) 2 keynotes of GIT complaints "Lycopodium".

Q. 2. Write short answers (Any 4 out of 6)

(4x5=20)

- a) Describe Baryta Carb Baby.
- b) Describe headache of Geisimium with modalities.

- c) Describe mental symptoms of “Aur.Met”.
- d) Give physical generals of “Cal.Carb”.
- e) Describe Tonsillitis “Belladona”
- f) Describe guiding indications of “Iodum”.

Q. 3. Write short answer (Any 4 out of 6) (4x5=20)

- a) Skin complaints – Heper sulph..
- b) Heart complaints _ Naja T.
- c) Indications of “Anacardium”.
- d) Constipation – “Opium”.
- e) Rheumatism - Kalmia.
- f) Respiratory complaints – Ant.Tart..

Q. 4. Write Long answer questions (Any 2 out of 4) (4x5=20)

- a) Glandular affection - Conium & Phytolaca.
- b) Female complaints – Alumina & Pulsatilla .
- c) Write in detail guiding symptoms of “Ant.Crud”.
- d) Compare & contrast Thuja & Acid Nit. In skin complaints.

Long Answer Questions (Any one from Q. No. 5, 6 & 7) (20 Marks)

Q. 5. Describe drug picture of “Phosphorus” in detail.

OR

Q. 6. Define Materia Medica? Describe different ways of studying of Homoeopathic Materia Medica.

OR

Q. 7. Write drug picture of “Lachesis” under following heading

- | | |
|-----------------------------|------------------------|
| a) Constitution | b) Guiding indications |
| c) Modalities | d) Mental Symptoms |
| e) Particular & Modalities. | |

6) use only Black Ball point pen for solving MCQs

**Q.1 Solve the following MCQs
marks)**

(10

1. Hospital acquired pneumonia is called

- a) Nosocomial b) Community acquired c) Iatrogenic d) Atypical

2. Following are the Causes of COPD Except

- a) Chronic bronchitis b) Bronchial asthma c) Mitral stenosis d) Empyema

3. Gastritis is caused by bacteria

- a) Escherichia coli b) Helicobacter pylori c) Proteus d) Entamoeba histolytica

4. Infection by all of the following agents can result in cirrhosis of liver except

- a) Hepatitis B virus b) Hepatitis D virus c) Hepatitis A virus d) Hepatitis C virus

5. Fever with mild to severe pain in right hypochondrium is the feature of

- a) Viral hepatitis b) Acute cholecystitis c) Gastritis d) Pleurisy

6. Splenitis with stitching pain at left side, unable to lie on left side

- a) Ceonanthus b) China c) Nux vomica d) Arsenic Alb

7. Remedies for constipation from inactive rectum

- a) Alumina b) Sepia c) Opium d) all of the above

8. Gastralgia ameliorated by bending backward

- a) Bismuth b) Dioscoria c) Both a & b d) None of the above

9. Cough dry, from tickling in the throat as from dust,

- a) Ammonium carb above b) Bryonia c) Aconite d) None of the above

10. C/o asthma aggravated at midnight, by lying down & Ameliorated by sitting up is key note of

- a) Antim tart above b) Antim crude c) Arsenic alb d) None of the above

Section B (SAQ & LAQ)

Q.2 Write short answers of the following (any 2) **(2 X 5 = 10)**

- a) Write in details bacillary dysentery.
- b) Explain community acquired pneumonia
- c) Write about acute cholecystitis.
- d) Explain Ulcerative colitis

LAQ

Q.3 Write in details: (any 1) **(1 X 10 = 10)**

- a) Describe Cirrhosis of liver in details with miasmatic approach & indication of any two medicines.
- b) Describe Peptic ulcers with Miasmatic approach & indications of two homeopathic medicines.

Write long answer Question (any 1 from Q.4 and Q.5) **(1 X 20 = 20)**

Q.4 Describe Acute Bronchial asthma in detail & add a note on homeopathic scope and limitation and acute Homoeopathic therapeutic.

Q.5 Describe in detail Hepatitis A & add a note on homeopathic scope and limitation and acute therapeutic.

Marks 50 mins.

Sub: - Medicine – II

Time: 1 Hr.30

Q.1 Solve the following MCQs **(10 marks)**

1. The structural integrity of bacterial cell wall is destroyed by enzyme----- present in sweat
a) lipase b) Lysozyme c) Pepsin d) None of above
2. B-Lymphocytes are special cells arise from

a) Haemopoetic Bone marrow stem cells b) Spleen c) Lymph Nodes d) All of the above

3. B-Lymphocytes Matures in

a) Blood stream b) Bone marrow c) Thymus d) Spleen

4. T-Lymphocytes are Immune cells which arise from

a) Thymus b) Thyroid c) Haemopoetic Bone marrow stem cells d) None of the above

5. T-Lymphocytes Matures in

a) Spleen b) Thymus c) Pancreas d) Lymph Nodes

6. In lymphangitis following are the remedies of benefit except

a) Glonoine b) Apis c) Bell d) Merc

7. In Enlargement of spleen; following remedies are helpful except

a) China b) Chinin. S c) Nat Mur d) Zincum met

8. Tendency to grow fat

a) Phytolacca D b) Antim crud c) Rhus tox d) Bryonia

9. Sensation as if stomach were swimming in water

a) Arsenic Album b) Abrotanum c) Carbo Veg d) Lachesis

10. Acute Gastritis from alcoholic abuse

a) Phosphorus b) Nux Vom c) Coffea Cruda d) Zincum Met

Section B (SAQ & LAQ)

Q.2 Write short answers of the following (any 2)

(2 X 5 =

10)

- a) Explain amyloidosis.
- b) Explain Anaphylaxis
- c) Explain Hypothermia
- d) Explain Malnutrition

LAQ

Q.3 Write in detail about (any 1)

(1 X 10 =

10)

a) Describe protein energy malnutrition in details with Miasmatic approach & indications of two homeopathic medicines.

b) Describe dermatitis due to Niacin deficiency with Miasmatic approach & indications of two homeopathic medicines.

Write long answer Question (any 1 from Q.4 and Q.5)

(1 X 20 =

20)

Q.4 Describe GERD in detail & add a note on homeopathic scope and limitation and acute therapeutic.

Q.5 Describe in detail Plural effusion & add a note on homeopathic scope and limitation and acute therapeutic.

- a) Pulsatilla b) Borax c) Sepia d) Both "a & c"

12. "Syphillinum" belongs to

- a) Veg.Nosode b) Human being Nosode c) Animal Nosode d) None of the above

13. Which of the Following belongs to "Metal Group"

- a) Cup.Met. b) Platina c) Aur.Met. d) All of the above

14. "Silent Sufferer" is known for

- a) Ignatia b) Lachesis c) Opium d) All of the above

15. Menses of Lachesis

- a) Regular b) Scanty c) Irregular d) None of the above

16. Urine smells like "Horse's urine"

- a) Sepia b) Benzoic acid c) Nitric acid d) Pulsatilla

17. Common name of "Sepia" is

- a) Cuttle fish b) Spurred Rie c) Wind flower d) None of the above

18. Depressive Insanity is commonest feature of

- a) Borax b) Carbo veg. c) Aur.Met. d) Arg.Met.

19. Family name of Chamomilla

- a) Compositae b) Ranunculacea c) Berberideaceae d) None of the above

20. "Changeability" is characteristic of

- a) Nux. Vom. b) Opium c) Sepia d) None of the above

Q.2 Write short answers (any 4 out of 6)

(4x5=20)

- | | |
|---|----------------------------------|
| a) Describe full list of Causations in Cocc.Ind.
"Aur.Met" | b) Describe A.F. & Mind of |
| c) Describe M.S.system c/o of "Arg.Met.
"Belladona" | d) Describe C.N.S. complaints of |
| e) Describe C.V.S. complaints of "Lachesis"
"Crot.H." | f) Describe Liver complaints of |

Q.3 Write Long Answers (any 4 out of 6)

(4x5=20)

- | | |
|--|---------------------------------|
| a) Describe A.F. & Mind of "Ignatia"
"Phosphorus" | b) Describe blood complaints of |
| c) Describe roll of "Fer.Met." in anemia.
in injury | d) Describe roll of "Symphytum" |
| e) Describe roll of "Staphysagria" in newly married women's complaints | |
| f) Define Homoeopathic Materia Medica & name the different sources of drugs. | |

Q. 4 Compare & Contrast

(2x10 = 20)

- Compare the child of "Borax" & "Chamomilla"
- Compare female of "Pulsatilla" & "Sepia"
- Write down indications of "Syphillinum"

Write Long Answers (Any one Q 5, Q6, Q7)

(1x20 = 20)

Q. 5 Describe full drug picture of "Opium"

OR,

Q. 6 Describe full drug picture of "Cocc.Ind"

OR

Q. 7 Describe full drug picture of “Crot.H”

SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD
1ST TERM END EXAMINATION, SUMMER 2022
YEAR: IV BHMS (2015)

MARKS	Sub: Community Medicine
Time	
50	1 ½
Hrs.	

Instructions: 1) Use **blue/black** ball point pen only

2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.

3) **All** questions are **compulsory**

4) The number to the **right** indicates **full** marks.

5) **Draw** diagrams **wherever** necessary.

6) Distribution of syllabus Question Paper is only meant to cover entire syllabus within the stipulated frame. The question Paper pattern is a mere guideline. Question can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

Q.1 Write Multiple Choice Questions
(1x10=10)

1. Pneumoconiosis caused due to coal is known as?
 - a. Silicosis
 - b. Byssinosis
 - c. Anthracosis
 - d. Bagasosis

2. Commonest occupational hazard caused due to cold exposure is?
 - a. Heat stroke
 - b. Chilblains

c.Erythrocyanosis d.Hypothermia

3. Intake of 1.5mg/L of fluorine causes?

a.Skeletal Fluorosis b.Dental Fluorosis
c.Iodine deficiency disorder d.GenuVulgum

4. Which is most common consequence of Iodine deficiency in pregnant women?

a.Congenital Anomaly b.Premature birth
c.Hyperthyroidism d.hypothyroidism

5. Which medicine intake causes Vitamine-B12 deficiency?

a.Metformin b.Paracitamol
c.Doxicyclin d.Ofloxacin

6. As per Gomez Classification weight between 75-89% is which degree Malnutrition?

a.First degree b.Second degree
c.Third degree d.Normal

7. Which is commonest cancer caused due to occupational Radiation exposure?

a.Liver Cancer b.Lung Cancer
c.Leukemia d.None of the above

8. Germ theory of disease is introduced by?

a.Robert Koch b.Einstein
c.Simon Cook d.Luise Pasteur

9. Which of the following is first symptom of Vitamin A deficiency?

a.Xerophthalmia

b.Night blindness

c.Corneal Ulcer

d.Keratomalacia

10. What size dust is called as respirable dust responsible for Pneumoconiosis?

a.1-5cm

b. 5-10mm

b. 1-5 μ m

d.6-25 μ m

Section-B

Q.2 Write Short Notes

(Any-4)

(4x5=20)

a. Endemic Fluorosis

b. LBW

c.PEM

d. Occupational Hazards

e. Obesity

f. Nutritional Anaemia

Q.3 Long answer question

(Any-1)

(1x20=20)

a. Write in detail epidemiology of **Pneumoconiosis** with clinical features, types, diagnosis, treatment and control.

OR

b. Define **Health** and write different **determinants** and their impact on health.

OR

c. Write in detail about **Balanced diet** and write a note on Food Pyramid.

PRELIMINARY EXAMINATION (Summer 2021)

YEAR:- IV B.H.M.S. (2015)

**Marks 100
Hrs.**

Sub:- Organon of Medicine – I

Time 3

Instructions:- .

- 1) All Question carry equal Marks.
- 2) The number to the right indicates full marks.
- 3) Draw diagrams wherever necessary.
- 4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.

Q1 Write in short (ANY 10 OUT OF 15)

(10x2=20)

- A] Aude sapere
- B] Paucity of symptoms
- C] Keynote symptoms
- D] What happens when 2 similar disease meet in nature
- E] Surrogates
- F] Suspended animation
- G] Theoretic medicine
- H] Paid prover
- I] Preserver of health
- J] Clinical symptom
- K] Complete symptoms
- I] Materia Peccans
- M] Antidotes
- N] Homoeopathic aggravation
- O] Lucid Interval

Q2 Write any 4 out of 6

(4x5=20)

- A] LM Potency
- B] Conditional and Unconditional forces

C] Superiority of medicines over natural disease curing forces D] Antipathy

E] Define acute diseases and types
diseases

F] Case taking in chronic

Q3 Write (any 4 out of 6)

(4x5=20)

A] Homoeopathic view of specific remedy
treatment

B] Auxiliary mode of

C] Intermittent fevers and their types

D] Local diseases

E] Types of intermittent fevers
aggravation

F] Homoeopathic

Q4 LAQ Write (any 2 out of 4)

(2x10=20)

A] Mental diseases and its management.

B] Discuss one sided diseases

C] Discuss Secondary action

D] Discuss indisposition with examples

LAQ Write (any one out of Q 5, Q6, Q7)

(1x20=20)

Q 5 Discuss Vital force in health, cure, disease and recovery. Add a note on its qualities

OR

Q6 Explain drug proving in Homoeopathy in detail

OR

Q7 Discuss second prescription in detail
