

**SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD**

**Prelim EXAMINATION (summer 2022)**

**YEAR: - IV B.H.M.S. (2015 batch)**

**MCQ**

**Marks 20**

**Sub: - Medicine – I**

**Time: 20 mins.**

**Instructions: -**

- 1) All questions are compulsory
- 2) select only one correct option out of 4 distractors
- 3) erasing or overwriting or selecting more than 1 correct answer will be considered as wrong answer
- 4) Do not write anything on the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.
- 6) use only Black Ball point pen for solving MCQs

**Section-As**

**Q.1 Multiple Choice Questions**

**(1x20=20)**

1. Aetiology of Hemoptysis include all of the following conditions EXCEPT
  - a. Ca bronchus
  - b. Goodpasture`s syndrome
  - c. Pulmonary tuberculosis
  - d. Mallory Weiss tear
2. Which of the following condition is caused due to Allergens?
  - a. Bronchial asthma
  - b. Bronchiectasis
  - c. Mesothelioma of pleura
  - d. Pulmonary infarction
3. Aetiology of Exudative Pleural Effusion include all of the following conditions EXCEPT
  - a. Rheumatoid disease
  - b. Pulmonary tuberculosis
  - c. Cardiac failure
  - d. Malignant lung disease.
4. Aetiology of bronchiectasis include all of the following conditions EXCEPT
  - a. Cystic fibrosis
  - b. Ciliary dysfunction
  - c. Primary hypogammaglobulinemia
  - d. Cardiac tamponade
5. Dry, sibilant cough like a saw driven through a pine board, is the characteristic feature of which of the following remedies
  - a. Hepar sulph
  - b. Spongia tosta
  - c. Arnica Montana
  - d. Kali carb
6. During asthmatic attack, patient is unable to lie down for fear of suffocation is the characteristic feature of which of the following remedies
  - a. Psorinum
  - b. Arsenic album
  - c. Aconite
  - d. Bryonia alba
7. Profuse watery acrid nasal discharge with profuse bland lachrymation is the characteristic feature of which of the following remedies
  - a. Allium cepa
  - b. Euphrasia
  - c. Borax
  - d. Pulsatilla
8. "Periodic " pain is commonly seen in which of the following condition?
  - a. Duodenal ulcer
  - b. Gastric ulcer
  - c. Acute Gastritis
  - d. chronic gastritis

9. Which of the following is the indications of colonoscopy?
- a. Unexplained rectal bleeding
  - b. Peritonitis
  - c. Pregnancy
  - d. Suspected intestinal perforation
10. Following are the causes of Pancreatitis EXCEPT
- a. Gallstones
  - b. Alcohol
  - c. Mumps
  - d. Local GI bleed
11. Stools-Green like Chopped spinach, very offensive with shreddy mucus & distention of abdomen is a key symptom of which of the following remedy
- a. Argentum Nitricum
  - b. Aurum met
  - c. Apis Melifica
  - d. Sulphur
12. Sensation as if the anus remained open is a characteristic feature of which of the following remedy?
- a. Mer Cor
  - b. Phosphorus
  - c. Murex
  - d. Sulphur
13. Following are the causes of obstructive jaundice EXCEPT
- a. Primary biliary cirrhosis
  - b. Cholelithiasis
  - c. Chronic right heart failure
  - d. Viral hepatitis
14. Mode of transmission of Hepatitis A & E is?
- a. Blood products
  - b. Sexual contact
  - c. Faeco-oral
  - d. Transplacental
15. Cholelithiasis with sharp pain in liver, shooting upwards to right nipple which is better by bending backwards
- a. Calcarea Carbonica
  - b. Dioscorea Villosa
  - c. Graphites
  - d. Nux Vomica
16. Which of the following chromosomal anomaly is seen in Down's syndrome
- a. Trisomy 18
  - b. Trisomy 13
  - c. Trisomy 21
  - d. 45xo
17. Following are the features of severe hypothermia EXCEPT
- a. Muscle stiffness
  - b. Failed vasoconstriction
  - c. Dehydration
  - d. Bradycardia
18. Following are the causes of metabolic acidosis EXCEPT?
- a. Renal Failure
  - b. Primary Hyperaldosteronism
  - c. Diabetic ketoacidosis
  - d. Diarrhea
19. Following are the causes of Hyponatremia EXCEPT
- a. Burns
  - b. Vomiting
  - c. Diarrhea
  - d. Excessive sweating
20. The natural form of Vitamin D is called as?
- a. Calciferol
  - b. Cholecalciferol
  - c. Tocopherol
  - d. None of the above

**SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD**

**Prelim EXAMINATION (summer 2022)**

**YEAR: - IV B.H.M.S. (2015)**

**Marks 80**

**Sub: - Medicine – I**

**Time: 160 mins**

Instructions: -

- 1) All Questions are to be solved.
- 2) The number to the right indicates full marks.
- 3) Draw diagrams wherever necessary.
- 4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
- 5) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from paper-I syllabus to Paper-II and vice versa. Students can not claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

**Section B (SAQ & LAQ)**

**Q.2 Write short answers of the following: (any 4) (4 X 5 = 20)**

- a) Frost bite
- b) Acute Gastroenteritis
- c) Cystic Fibrosis
- d) Describe cell-mediated immunity
- e) Dyspnoea
- f) Wilson's disease

**Q.3 Write Short notes on: (any 4) (4 X 5 = 20)**

- a) Heat Stroke-Natrum Carb
- b) Acute gastroenteritis-Nux Vomica
- c) Acute Abdomen-colocynths
- d) Laryngitis-Argentum Met
- e) Acute Respiratory Distress-Aconite
- f) Acute Bronchitis-Kali Bich

**Q.4 Write long answers: (any 2) (2 X 10 = 20)**

- a) Describe in detail about aetiology, Pathology, Clinical features and investigations of chronic Bronchitis add a note on Droscera&Corallium rub
- b) Describe in detail about aetiology, Pathology, Clinical features and investigations of chronic Hepatitis, add a note on Cardus Mar &Nat sulph.
- c) Describe inflammatory bowel disease, add a note on Arsenic Alb &Nux Vom
- d) Describe peptic ulcer, add a note on Arsenic album &Carbo Veg.

**Long answer Question any 1 from Q. no.5, 6, and 7 (1 X 20 = 20)**

- Q.5 Describe Community acquired Pneumonia Under its pathogenesis, clinical features and investigations & add a note on homeopathic scope and limitation of and chronic therapeutic.
- Q.6 Describe Anorexia Nervosa Under its pathogenesis, clinical features and investigations & add a note on homeopathic scope and limitation of and chronic therapeutic.
- Q.7 Describe cholelithiasis under aetiology, clinical features, investigations, complications & add a note on homeopathic scope and limitation of and chronic therapeutic.

**SMT. K. B. ABAD HOMOEOPATHIC MEDICAL COLLEGE, CHANDWAD**

**Prelim EXAMINATION summer 2022**

**YEAR: - IV B.H.M.S. (2015)**

a. Period of communicability                      b. Incubation Period                      c. Latent Period                      d. Prepatent Period
4. Which of the following is not a live attenuated vaccine  
a. BCG                      b. OPV                      c. Measles                      d. Pertussis
5. 'Physical quality of Life' index consolidates following three indicators except  
a. Infant mortality rate    b. Life expectancy at age one    c. Literacy rate                      d. Maternal mortality rate
6. Secondary site of infection of polio affects:  
a. nervous system    b. Respiratory system                      c. Alimentary system                      d. none of the above
7. Oral rehydration therapy prevents  
a. infection                      b. cramps                      c. Dehydration & mortality                      d. None of the above
8. Most common arthropod viral disease is  
a. Rabies                      b. Yellow fever                      c. Dengue                      d. Japanese Encephalitis
9. The most common arthropod born parasitic disease is?  
a. Malaria                      b. Dengue                      c. Polio                      d. Rabies
10. Which of the following is not a complication of Measles:  
a. Diarrhoea                      b. Reye's syndrome    c. Pneumonia                      d. Otitis Media
11. Vaccine contraindicated during pregnancy is:  
a. Rubella                      b. OPV                      c. Tetanus                      d. Influenza
12. **DOTS** Stands for –  
a. Direct observed therapy short course                      b. Direct observed therapy shingles.  
c. Domestic approaches to stop hypertension                      d. Directobstructive Tubal surgery
13. The man is intermediate host for :-  
a. Vitamin A deficiency                      b. Filariasis                      c. TB                      d. Malaria

14. Primordial Prevention in Hypertension are all except –
- a. Maintenance of normal body weight
  - b. Increase Salt intake
  - c. Change in lifestyle
  - d. Screening for hypertension
15. All are conventional contraceptive except:
- a. Condom
  - b. Diaphragm
  - c. IUCD
  - d. Spermicide Jelly
16. Keeping the baby's crib by the side of mother's bed is called as:
- a. Domiciliary care
  - b. Rooming out
  - c. Rooming in
  - d. Baby care
17. Earliest clinical sign of vitamin C is
- a. Weakness & easy bruising
  - b. Corneal xerosis
  - c. Brittle bones
  - d. Bitot's spots
18. Pneumoconiosis is caused by all **except**:
- a. Coal dust
  - b. Asbestos
  - c. Chromium
  - d. Silica
19. Measles vaccine is not given before
- a. One year
  - b. Two year
  - c. Six months
  - d. Nine months
20. Which campaign is being promoted by UNICEF for Child health revolution
- a. UNDP
  - b. MODI
  - c. GOBI
  - d. ILO

**Q.2 Write Short Notes (Any-4) (4x5=20)**

- a. Spectrum of Health
- b. Modes of Intervention
- c. OPV
- d. Warning signs of Cancer
- e. LBW
- f. Sources of health Information

**Q. 3 Write Short Notes (Any-4) (4x5=20)**

- a. Cohort Study
- b. WHO
- c. Dog bite treatment
- d. Vitamin D
- e. Water-borne diseases
- f. PHC functions

**Q.4 Long answer question (Any-1) (2x10=20)**

- a. Describe epidemiology of **Accidents** with its causes, types, treatment and control.
- b. Describe **Air Pollution** with its causes, effects and control measures.
- c. Write in detail **Role of Homoeopathy in Community Medicine**.

**Long answer question (Any one from Q5, Q6, Q7) (1x20=20)**

**Q. 5** Write in detail epidemiology of **Malaria** with clinical features, diagnosis, complications & control of it.

**Q.6** Define **Family Planning** and write in detail about **IUCD**. Add a note of natural methods of contraception.

**Q.7** Write what is **MCH** with emphasis on **Infant mortality rate**. Write a note on Breast feeding.

**Q. 14. Animal magnetism , MESMERISM are in which aphorism of 6th edition**

- a) aph288,289                      b) aph 278,279                      c)apho281 ,282                      d) aph 286,287

**Q. 15.Aphorism 153 describes**

- a) Common symptoms              b) Concordances                      c) Concomittant symptoms              d) Characteristic symptoms

**Q. 16. North and South poles of magnet are descried in which aphorism - State the aphorism**

- a) 284                                      b) 285                                      c)286                                      d) 287

**Q. 17.Removing the external symptoms without treating the internal is a criminal procedure- State the aphorism**

- a) 200                                      b)201                                      c) 202                                      d) 203

**Q. 18. Sure Signs of improvement are discussed in**

- a) 252                                      b) 253                                      c)254                                      d) 255

**Q. 19. What is antitype ?**

- a) Antidote                              b)Antimiasmatic                              c)Totality of symptom                              d) Antipathy

**Q. 20. Single and simple medicine is given- - State the aphorism**

- a) 271                                      b) 272                                      c) 273                                      d) 274

**Q. 2. Write Short Answer Questions (any 4 out of 6)**

**(4x5=20)**

- A) Theoretic medicine                                      B) Complex diseases  
C) Antipathy    D) Aphorism 71  
E) Types of chronic diseases                                      F) Highlights of drug proving in Homoeopathy

**Q. 3. Write Short Answer Questions (any 4 out of 6)**

**(4X5=20)**

- A) Homoeopathic specific Remedy                                      B) Indisposition  
C) Favorite medicine    D) Mongrel sects  
E) Law of simplex    F) Auxillary mode of treatment

**Q. 4. Write Long Answer Questions (any 2 out of 4)**

**(2x10=20)**

- A) Discuss importance of characteristic symptoms with examples.  
B) Discuss Local disease and its management.  
C) Discuss management of Intermittent disease.  
D) Discuss Diet and Regimen in detail in Acute and Chronic diseases

**Write Long Answer Questions (any 1 from Q. No. 5, 6, 7)**

**(1x20=20)**

**5. Describe how medicines are stronger than disease producing agents for effecting cure.**

**6. Discuss Mental diseases in detail with its management**

**7. Discuss 3 types of aggravations.**
