(57) Abstract :

The present invention is related to a herbal confectionery formulation for oral consumption comprising one or more naturally occurring active ingredients. More particularly, the invention relates to a herbal confectionery formulation comprising Vitamin C supplement extracted from the leaves of Ambadi and Tulsi having immune boosting properties and a process for preparing the same, for delivering the active ingredients. It is a tasty, delicious, palatable and effective formulation with natural ingredients and is mostly liked by children as well as adults and is a preferred alternative to immune boosting supplements available in market.

(57) Abstract :

A novel ethyl carboxylate monosubstituted 1H-indole compound, and derivatives thereof, were prepared as potential inhibitors of GSK-3B. The invention comprises the preparation of monosubstituted 1H-indole derivatives including diazotization of p-substituted aniline; preparation of ethyl 2-methyl-3-oxobutanoate anion; condensation of prepared hydrazones of diazotized p-substituted anilines; and cyclization of respective hydrazones ; wherein the obtained esters of substituted 1H-indole were purified through chromatography and evaluated using an in vitro luminescence assay method to confirm their GSK3B inhibitory activity
