FROM HEAD OF DEPARTMENT CORNER

At Shri.H.H.J.B.Polytechnic. We started our journey in the year of 1994 with Computer Stream, which is the essence of today's world. In the past years we have achieved great success by our brilliant students and faculties. Our department has committed to provide not only the technicaleducation to our students but also the leadership qualities through which they can provide employment to others. Learning is a continuous process and does not end with the acquisition of a degree because of steady and rapid advances in computing technologies.

MR.P.R.SALI

Therefore we don't aim to make our students stick to particular package or language, instead they are given strong foundation and upliftment to solve problem and techniques and adapt the changes.

Department of Computer Technology is working hard towards the goal of providing innovative and quality education with high standard to achieve academic excellence and provides platform for the students to achieve their career goals. Our department has excellent infrastructuraland computing facilities.

Department has a team of experienced and highly motivated faculty members who are continuously taking great efforts to make our students globally competitive.

I am very much honored and pleased to work with this Department which has been involved in many technical and other activities to develop our students to solve social and national problems .
