ABOUT [THE CREATOR]

"The Creator" is the official **Civil Engineering** Department **newsletter**, celebrating the spirit of **innovation, resilience, and excellence that defines our field**. Through insightful articles, highlights, project spotlights, and student achievements, we aim to inspire and inform our community. From groundbreaking infrastructure projects to sustainable engineering solutions, "The Creator" serves as a platform to showcase the remarkable contributions of our students, faculty, and alumni. Join us as we build knowledge, share experiences, and shape the future of civil engineering—one creation at a time.

OUR VISION MISSION STATEMENT

To impart technical knowledge and skills in the field of Civil Engineering, fostering human values, entrepreneurial skills and social awareness.

M1 : To provide technical knowledge and skill relevant to Civil Engineering industry.

M2 : To inculcate ethical values, professionalism and social responsibility.

M3 : To mentor student for innovative thinking with relevance to entrepreneurial skills and environmental sustainability.

CIVIL ENGINEERING DEPARTMENT ORGANIZES INDUSTRIAL VISIT TO RAJDHERWADI

The Department of Civil Engineering, SNJB's Shri HHJB Polytechnic, Chandwad organized an Educational Visit to Hill Road Chandreshwar Temple and Sai Gokuldharm Residency, Chandwad for Second Year Civil Engineering students. The visit was conducted as an essential part of the subjects Highway Engineering and Building Planning & Drawing with CAD, providing students with practical exposure and on-site learning experience.

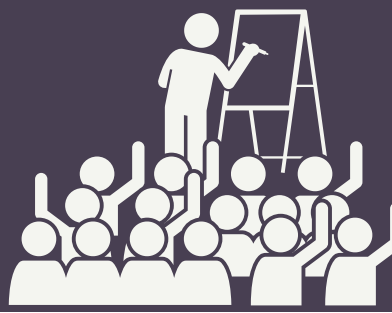

A total of 45 students benefited from this educational visit. The program was well organized by Mr. K. K. Kale, Mr. R. B. Mahajan, and Mr. G. D. Bhure under the guidance of HOD Mr. D. B. Pawar and Principal Dr. V. A. Wankhede.

"The educational visit to Hill Road Chandreshwar Temple and Sai Gokuldharm Residency, Chandwad was a very informative experience for us. It helped us understand the practical aspects of Highway Engineering and Building Planning & Drawing with CAD. Seeing real construction layouts, road alignment, and building planning on-site made the concepts much clearer. We are thankful to our teachers and the institute for organizing such a valuable learning opportunity."
