The Department of Interior Design is dedicated to fostering creativity, innovation, and technical expertise in the field of interior spaces. We offer comprehensive academic and infrastructural facilities that cater to the evolving demands of the interior design industry. Our laboratories and studios are equipped with state-of-the-art tools and technology to provide students with hands-on experience in designing functional and aesthetically pleasing environments. Our alumni have excelled in diverse roles within different sectors, reflecting the quality and versatility of the education they received. To ensure the holistic development of our students, the department maintains memberships with several professional bodies, under which we organize a variety of co-curricular and extra-curricular activities. In addition to the regular curriculum, students are trained in the use of advanced tools and software, such as AutoCAD, 3D Studio Max, Sketch Up, and Revit. They also gain practical knowledge in areas such as space planning, material selection, lighting design, and sustainable practices. These skills equip our students to meet the challenges of the interior design industry with confidence and creativity.
